JOHN MURTEY, OBITUARY

John Murtey was born in Lincoln, Ill., Dec. 12th, 1861. He died in Alvo June 16th, 1922, aged 60 years, 6 months and three days.

At about the age of ten years Mr. Murtey moved with his parents to Nebraska, settling in Cass county, near Wabash. After nine years, in 1879, the family moved to Kansas, which continued to be the home of the parents until their death, and where they are buried. About the year 1890, Mr. Murtey came to Alvo and engaged in the lumber and grain business; this was near the time that the Rock Island railroad was being built through Alvo.

After a number of years in business here he sold out and moved to Clay Center at which place and at Verona, he continued in the lumber and grain business till 1911 when he returned to Alvo bought back his old business and has continued in it till the present time.

He was married to Miss Eva Wurl in 1889, to which union two children were born, a son dying in infancy; the other a daughter, Aurel, who is now married and living in Kansas City.

Mr. Murtey was married the second time to Miss Winifred Price of Clay Center, July 11, 1905, which union has been one of devotion and happiness between them till this time.

In religious matter Mr. Murtey was liberal. Born a Catholic, and retaining his love and loyalty to that church, he yet recognized and respected the convictions of those

known as Protestants and was ever liberal and generous to a degree, both in giving of money and good will to their support. To the Methodist church here Mr. Murtey has been one of the most liberal supporters in a financial way that the community has had. In the remodeling of the church recently he not only sold all material at cost to the church, but made a generous contribution besides. His benefactions of this kind were not confined to Alvo, however, for it is known that in other places he has been a regular contributor to both Protestant and Catholic churches.

To those who were in financial difficulty or in distress he was most kind and helpful. Many instances could be cited which are not known to the public, where he has given most timely help to those who would not have been able to keep going without it. Such things, however, were never mentioned by him, and perhaps would never have been known by any one.

Besides his faithful wife, Mr. Murtey will be greatly missed in this community. He was a good business man and a good citizen. He stood for progress along all lines, and he never shrank from bearing his part of the burden the progress entailed. He not only made business for himself but made it for the community, and he seemed as glad when others prospered as when his own affairs went well.

Mr. Murtey was a member of the Nebraska legislature, elected in the fall of 1916.

Besides his faithful wife, Mr. Murtey leaves three brother and a sister to mourn his loss: Thomas Murtey of Weeping Water, Neb.; Henry and James Murtey of Stockton, Kansas, and Mrs. Mary Frye of Clay Center.

DEATH TOLL IN MINE WAR REACHES 27

COAL FIELD AREA QUIET AFTER TWO DAYS' MASSACRE OF STRIKE BREAKERS.

Herrin, Ill., June 22.—Death toll in the disaster last night and today, when 5,000 striking union miners attacked the Lester strip mine being operated under guard of imported workers, may run past the 40 mark, it was said tonight by those in touch with the situation, although thus far only 27 positively are known as dead.

In the morgue here tonight are 17 bodies, some riddled with buckshot, and others minus various parts in the morgue at Marion, 12 miles from here, lay the body of C. K. McDowell, superintendent of the imported strikebreakers.

The Associated Press correspondent and other newspaper men saw with their own eyes 27 bodies in different parts of the country and one man later died in the hospital here.

What has become of the bodies not in the morgues is not known. Several freshly spaded piles of dirt were noticed in the woods. Usual solemnity of death is lacking in the local morgue. Hundreds of persons filed past the lines of bodies today, frequently commenting on their mutilated condition. Children laughed, women pointed and the men chuckled.

Some Thrown in Pond

In the Herrin hospital were eight wounded men, only one a miner, and six of them are believed to be fatally injured. There were nine, but one died.

A miner told the Associated Press correspondent that he had seen fifteen bodies thrown into a pond with rocks around their necks today. About twenty imported workers are missing.

Checking the death list has proved almost impossible. The victims, all but three of them imported workers, so far as is known, were found scattered over an area within several miles of the mine. Some were lynched, some were burned when the mine was fired, others were beaten to death, and the majority fell before the scores of bullets poured into them.

Troops Ordered Equipped

Waukegan, June 22.—At midnight the governor telegraphed Brig. Gen. Black, adjutant general of the state, to assemble the 132d infantry and the machine gun companies of the 130th and 131st infantry with such other companies as necessary to make a force of at least 1,000 men and hold them at the 132d infantry camp in West Madison street, Chicago, to be moved under further orders from him.

The governor directed that the troops should be given full field equipment.

The governor's telegram to Gen. Black follows:

"Despite assurance from the sheriff's office in Williamson county that the local authorities have established peace and order in that community, I am tonight reliably advised that life and property are in jeopardy in the vicinity of Herrin, in Williamson county. Pending definite advice you will assemble and hold in readiness the 132d infantry at their camp in West Madison street, together with the machine gun companies of the 130th and 131st infantry and such other companies as necessary to make a force of at least 1,000 men with full field equipment to be moved under further orders from me if necessary.—Len Small, Commander-in-Chief of Illinois Nat. Guard."

"I insist on an immediate reply to my telegram of the 22d in relation to the riots and disorders in Williamson county, giving detailed and accurate information and what steps have been and are now being taken by you for the apprehension of the parties who committed these crimes and to prevent further difficulties or violations of the law. I insist upon prompt action and impartial enforcement of the law for the preservation of peace and good order. Troops are being held in readiness.—Len Small."

AUTO INDUSTRY WILL HAVE A GOOD SEASON

Detroit, June 23.—Some of the automobile companies are hanging up records here that verify earlier predictions that 1922 was to be a banner year for motor vehicle production. The Ford Motor company in the first five months of the year turned out 469,309 vehicles compared with 319,813 for the corresponding five months in 1921. The Hudson Motor company in those five months has sold more cars than during all last year. And the Chevrolet, Maxwell and other producers are piling up similar records. As a result some of the companies are back in the market for machinery for the first time in two years. Drill presses, grinders and millers are in good demand. This has stimulated the market for second hand machinery and prices are gradually rising.

Furniture men predict that all attendance records will be broken at the spring-summer buying exposition at Grand Rapids now in progress. Fully 2,500 buyers and salesmen are in attendance. This is about 350 more than the average and means large wholesale buying of furniture for fall and winter.

EUROPE IN NO MOOD TO PAY U. S. MONEY BORROWED

Says Chicago Banker—Great Britain Alone Able to Settle Part of World War Debt.

St. Louis, June 22.—The problem of requiring payment of the allied debt, or cancelling it, is "the fundamental question, upon the answer to which will depend the future of our own commerce and industrial welfare, and that of the rest of the world," Walter Lichtenstein, Ph. D., of the Chicago banker, said at the convention of the Illinois bankers association here today. Dr. Lichtenstein then presented a summary of both sides of the controversy as voiced in a recent statement from the Chicago association of commerce.

One nation, and still more a large group of nations, cannot be broken up and impoverished so as to destroy its ability to function, without throwing the entire machine out of gear. The trade of each country is linked up with that of the whole world. Our
