ADDRESSES LETTER TO RAILROAD EMPLOYEES

President Hale Holden Sends Letter to Press, and Men Who are in the Nation-wide Strike.

The president of the Burlington, Hale Holden, has prepared and sent out the following letter and circular to all employees of the company who are now out in the walkout.

Whereas, in the future submission of disputes involving wages and grievances said classes of employees of the carriers, it will be desirable, if not a practical necessity, for the employees of each class on such carrier to form some sort of association or organization to function in the representation of said employees before the railroad labor board, in order that the effectiveness of the Transportation act may be maintained.

Now, therefore, be it resolved that it be recommended to the carriers and the employees remaining in the service and the new employees succeeding those who have left the service to take steps as soon as practicable to perfect on each carrier such organizations as may be deemed necessary for the purpose above mentioned.

Be it further resolved, that if it be assumed that the employees who leave the service of the carrier because of their dissatisfaction with any decisions of the labor board are within their rights in so doing, it must likewise be conceded that those who remain in the service and those who enter it anew are within their rights in accepting such employment, that they are not strikers seeking to impose the arbitrary will of an employer on employees, that they have the moral as well as the legal right to engage in such service.

In view of our duty to the public to maintain our service with sufficient force, before taking this step, in view of the harmonious relations which have always existed between us and because we want to give every consideration to faithful employees, we ask you to give most anxious consideration to your final decision in the matter of returning to our service.

The existing law provides the means of correcting any injustice which you may feel needs correction. For years in the past we have been able to meet and agree amicably on all matters. We believe that condition can and should exist again.

Those of our mechanical craft employees who report for their duties not later than for the beginning of the first shift on Monday morning, July 10th, may do so with resumption of full seniority and will be treated as if their service had been continuous. Those returning after that time, if accepted, and those newly hired, will rank as new employees.

We sincerely urge you to make up your minds individually and to act for the best interests of yourselves, your families and the country which is dependent upon your loyal service.

(POLITICAL ADVERTISING) AN OPEN LETTER

Plattsmouth, Neb. July 3rd, 1922.

Hon. John H. Morehead, City, Nebraska.

Dear Sir: Your letter of June 27th, declining to accept my challenge to joint debate received. I note that you say "In reply will state that I am unable to see what good purpose would be served by any joint discussion before any candidates before the primary election."

I will give you a very good reason. You filed as a democrat and as a progressive. In the 24th verse of the sixth chapter of Matthew's gospel, Jesus said, "No man can serve two masters; for either he will hate the one, and love the other; or else he will hold to the one and despise the other." I now demand that you state to the voters whether or not you are going to hold to the democratic party. The democratic party and the progressive party are widely separated in their principles. You are a democrat of long standing. Your democratic party put over the Federal Reserve Bank System, which took a toll of 160.7 per cent gross profit from the financially distressed farmers and industries of the nation in the year 1920 and 79 per cent in the year 1921. I now challenge you to publicly state to the voters before the primary whether you are going to support this democratic institution of profiteering which has squeezed the farmers of the nation to the brink of bankruptcy?

I am opposed, and so is the progressive party opposed to this most relentless and profiteering monopolizer of banking credit, which is one of the creatures of the late democratic administration.

Will you support the National Railroad Labor Board which was created by the late democratic party, and which is now engaged in attempting to rob the railroad laborers out of more than \$60,000,000 at a single wage cut? I demand that you publicly tell the voters where you stand on this question before the primary election.

I am opposed to this railroad labor board which is a creature of the democratic party.

These two creatures of the democratic party are sufficient to demonstrate the fact that the late democratic administration was dominated by Wall Street and Big Business. These two creatures are only a small portion of the things which the democratic party stands for, which are opposed by the progressive party.

For you to say that you are "unable to see what good purpose would be served by any joint discussion between any candidates before the primary election," is the most flagrant hypocrisy. The voters have a right to know where you stand and where I stand on all the public questions and they have a right to know it now. I therefore renew my challenge to joint debate. I am sending copies of this letter to the press.

Respectfully, A. L. TIDD, Progressive Candidate For Congress in First District. (POLITICAL ADVERTISING)

"CORONADO IN QUIVERA"

Dr. H. B. Alexander, professor of philosophy at the University of Nebraska, has been appointed by Ak-Sar-Ben of Omaha to write the pageant, "Coronado in Quivera," which is to be staged during Ak-Sar-Ben Fall Festival in Omaha. Dr. Alexander has spent a great deal of time in research work and the careful study of Nebraska's early history. He spends each summer among the Indian tribes in Mexico and Arizona, and there is perhaps no one in the state of Nebraska who is better equipped to write the story than Dr. Alexander.

The writing of a pageant such as that proposed by Ak-Sar-Ben is no small task. The cast will be composed of full twelve hundred people—massive sets of scenery must be built. Fully one hundred and fifty real Indians will be imported to give the proper effects. One piece of scenery is being built that will be an exact duplicate of the ancient Aztec Pueblo. Several hundred horses, mules and oxen will be used in the Cavalcade scenes.

And coupled with all of this detail and organization work one must have an absolute knowledge of the true history of the state and its early inhabitants in order to properly write a pageant of this kind. Nebraska and Ak-Sar-Ben are surely fortunate in being able to find within the state a man so well equipped for the task as Dr. Alexander.
