Building Your Wealth!

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amounts grow till each addition is a respectable sum. Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce. Thus a bank BUILDS your wealth. Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

Big Harvest of Bumble Bees

This fall the bumble bees appear to be very numerous—at least that is what Glen Todd, Albert Young and Will Wehrlein think. At first Glen and Albert spent a lot of time jacking, burning and every way imaginable trying to get rid of the bees, but at last the men and horses became immune and they just kept plowing, but Will Wehrlein's horses didn't like the idea. Will and his son Victor plowed out five nests in seven rounds. Victor's four horses got away from him and Will and his six horses and gang plow must have made a record equal to Barney Oldfield for he finally ran in ahead of Victor's team and stopped them. Will is looking for a tractor with which to finish the job.

DENY MESSAGES SENT TO PREPARE TO END STRIKE

Chicago, Aug. 20.—Officers of the railway employes department of the American federation of labor today denied all knowledge of instructions reported sent by H. M. Jewell, head of the striking shop crafts, telling general chairmen to hold themselves in readiness to call off the strike.

Shop crafts officials said it was impossible that Mr. Jewell could have sent the telegram reported received at Armore, Okla., last night by John Stags, who said he was the union representative at Gainsville, Texas.

Shop crafts officials at strike headquarters here said that in case a decision was reached to call off the strike, it would not be according to union procedure for Mr. Jewell to

send such a telegram and even had he sent it, it would have been in code or would have been preceded by code messages.
