CAPPER WOULD MAKE PROFITEERS PAY THE BONUS

"War Profiteers and Peace Profiteers Owe Bonus to Soldiers of the World War."

Washington, Aug. 29.—Announcing his support of the soldiers' bonus as "nothing more than a square deal for the boys who did the fighting," Senator Capper, republican, Kansas, told the senate today that "the war profiteers and the peace profiteers owe a bonus to the soldiers of the World War."

"There is no better guarantee against militarism than to require the men who profit out of the war to pay for it," he said. "Those who remained at home made enough here in the United States to enable us to pay many times over the debt we owe to the men who fought our battles. Wall street wants to pay it with a sales tax which would be paid largely by the farmers, the laboring people and others in the form of a tax on food and clothing and other necessities."

"Profiteering during the war produced one American millionaire for every three American soldiers killed in France. I would like to see the government recover the hundreds of millions of dollars stolen from the treasury by the crooks and grafters who profiteered off the government in war contracts, and then use that money to pay the soldiers' bonus."

"Then there's another way we can raise the money. Let's go after the billions that the foreign governments owe us. Collect the interest promptly and pay it to our soldiers."

HASTINGS ADOPTS POND SYSTEM FOR SEWERAGE DISPOSAL

Hastings, Neb., Aug. 29.—With eight wells already in for the disposal of sewerage in Hastings the city has decided to abandon this form of taking care of the waste and the pond system will be continued. The change in plans was made after an inspection by state health authorities who declared there was some possibility of sub-soil pollution.

The wells had been decided upon after considerable investigation and estimates of the probable costs of the various methods used in cities of this size. It was said that they could be installed for about \$1,000 while antiseptic tanks would cost approximately \$100,000.

The continuing of the pond system will cost only about \$2,000. Necessary equipment has been purchased for \$1,450 and if the bottomless power scraper does all that is claimed for it it will save the city about 58 cents a yard in excavation. Such work done by a team and scraper cost the city sixty-five cents a cubic yard and the machine is supposed to do the work for seven cents.

GRABLE WOULD FORCE RAIL BODY TO FIX LIVING WAGE

Wires Administration Requesting that They Ask Congress Make Such Action Mandatory.

Chicago, Aug. 29.—The railroad labor board today denied the motion of W. Jett Lauck, labor statistician, that the board immediately define the principle of a "living wage" in the case of the maintenance of way employees, who are seeking increased minimum rates of pay. At the request of E. F. Grable, president of the maintenance organization, the hearing then was adjourned until tomorrow morning.

Mr. Grable announced that he was telegraphing President Harding and Senator Cummins, one of the authors of the transportation act, at Washington, today, asking them to present to congress an amendment to the act which would make it mandatory on the labor board to "enunciate the principle of the living wage."
