SIN AND LAWLESSNESS

Whosoever committeth sin transgresseth also the law: for sin is transgression of the law.—I John III, 4.

A little over two months until election.

The melancholy days, when school opens, are coming.

Oh, what is so rare as a June day, outside of June?

The fellow who sings his own praises sings a solo.

Being a movie star's wife is seldom a permanent job.

In a Chicago gambling joint 32 were caught. A full house.

Women's fall dresses have less latitude and more longitude.

Sounds funny, but some men's idea of a good time is a bad one.

The man who waits until he is sure he is right is often left.

When Greek meets Greek they hunt a Turk and start a war.

A Detroit man's wife treated him like a dog. He claims she fed the rats first.

Women are not so ignorant. Our winter schedule calls for short coal and long skirts.

We didn't know Mars had a super race. At a boarding house once we saw a supper race.

When people marry, they waive their freedom but too often it is not a permanent wave.

Five dollars a day is a terrible price to pay some of these fellows beating the brush.

This may be an awful country, but garment makers' figures show me are all getting fatter.

Charley Pool takes the cake as an office seeker when he thinks the democrats are going to win.

Fourteen other armies are bigger than ours; but ours includes the Atlantic and Pacific oceans.

The difference between president and vice president is, who knew Coolidge was in California?

Weapons of 10,000 years ago have been dug up in Spain. The rolling pin was not among them.

A vote for the right man for the legislature will no doubt prove a blessing to the taxpayers of Nebraska.

Since the miners and operators have settled, the next settlement should be between the public and the profiteers.

If the European situation gets any worse it may be necessary for the allies to call another economic conference.

Governor McKelvie has suspended one of Gus Hyers' hired whelps, and there are a few others that will follow soon.

Of course the speeders are reckless, but walkers who stop in the middle of the street ought to put out detour signs.

McKelvie's code should be consigned to the deepest pit in purgatory as a sin to the honest people of Nebraska.

If you want to know how law a Russian ruble has fallen, well it takes sixteen thousand of them to buy a cucumber.

Some of those fellows who profess to know everything, are respectfully asked to tell us where is the best place to have a boil.

The railroad strike now settles down to a test of endurance, both sides say. Meaning, we suppose, a test of the public's endurance.

We believe in law protection but we also believe in putting men on the job in seeing that law is protected who have clean records themselves.

The coal situation looks brighter.

Funny things happen. We saw a reckless driver.

The man who worries and his hair are soon parted.

The strike situation looks no better or no worse.

There is no vacation for a man who likes to fish.

A diplomat is a married man who gets out at night.

Money may not go further, but you do if you get any.

Things are getting higher, but the people feel cheaper.

Wild game is plentiful, according to the baseball scores.

Health hint: Never judge a beauty contest or a baby show.

Sometimes we think jazz will never reach its swan song.

Hunt the bright side. Mosquitoes haven't any coal, either.

A little rain now and then would settle the dust, anyway.

Many an unpressed coat has a bank book in the pocket.

It would help if tennis bugs would spend the time swatting flies.

A movie star arrested for speeding had his own wife with him.

Stick your nose in other people's business and you lose by a nose.

Some towns have all the luck. Youngstown crooks overlooked \$800.

"Fruit Crop Saved at Eleventh Hour" says a headline. Day or night?

Germany is issuing aluminum coins, so wealth won't be such a burden.

A reformer considering other people's wrongs neglects their rights.

A clog dancer wants \$20,000 for a broken foot. He claims the jig is up.

Harding's dog's brother plays with goats, but every family tree has a rotten branch.

Seventeen Esquimos arrived in this country may be janitors back from their summer vacation.

Man who eloped with two women at the same time puts the hero Alvin York in second place.

For the first time in the history of the United States there are now more people working in factories than on farms.

Some former newspaper men are lucky. Charley Pool and W. H. Smith made enough money while in office to crawl out of the newspaper business.

Tom Allen, chairman of the democratic state committee, has appointed an executive committee consisting of about fifteen men and seven ladies.

If the tariff bill becomes a law, there will be a high duty on scissors. Which may be congress' revenge on a lot of unkind editors and columnists.

R. B. Howell congratulates the Nonpartisan League for its endorsement of him for senator. Of course, when he has known all the time it was "cut and dried" for him.

Congress is at least generous. Ivory tusks have been put on the free list in the new tariff bill, indicating that the congressional ivory trust fears nothing from abroad.

Of course, nobody would begrudge Europe Mr. Hoover's services as umpire but if he is to do any umpiring it might be suggested that there is considerable in that line to be done at home.

Some people think they are not joyriding unless they are going like hell-beating-tanbark. These are the fellows who always try to get to railroad crossings first or run over some child or grown person on the street.

GARY SAYS BUSINESS PROSPECTS LOOKING BRIGHT

Steel Magnate Finds Nebraska States with Promising Outlook when Conditions Clear.

Chicago, Ill., Aug. 30.—E. H. Gary, chairman of the United States Steel corporation, in Chicago today, on his way to New York from a vacation spent chiefly in Colorado, said that "there seems to be a general feeling that activities are increasing and that great prosperity will be witnessed whenever conditions relating to production and transportation will permit."

Mr. Gary said he thought there still was "a good deal of profiteering in business, building materials and some other lines, as well as that he looked upon the proposed action of Henry Ford, who has announced he would close his automobile plants on September 16, unless some simple protest against paying extortionate prices was made."

The successful candidate for senator in the Texas democratic primary has issued an appeal to the party to get together and elect the democratic ticket in November. Let's see, what other ticket do they vote in Texas?

Ex-Governor Morehead is the sort of man to represent the First district in congress. He is a true blue American and has lived in Nebraska many years. His ability is unquestioned and his friends are numbered by the thousands.

Scientists say men are living longer than in former generations. Of course scientists assert that the new longevity is due to progress in science, but it may be due to curiosity. People have to live longer nowadays to find out when the strike will end.

Another point of superiority in the primary system over the old convention system is in the fact that under the early system, an upstart was told by a politician that he was unavailable. But under the primary system, everybody has a chance to tell him.

Is there any principle in Judge Wray withdrawing in favor of R. B. Howell? Tell us where it is. It is done "principally" in an effort to defeat Senator Hitchcock. But Wray's withdrawal is not going to give all the progressive vote to Mr. Howell—not by a long shot.

Wednesday evening we saw two kids on Main street; one about 4 and the other about 2 years old, but this is not the only time we have noticed them. However, they are both too little to be running around by themselves. Such small children have no business on the main thoroughfares alone. Especially where grown people have to be very cautious themselves.

THEY DIE TODAY

Today 3,800 Americans die. That is the average number that daily go to join the billions who have passed into eternity.

This year nearly 1,400,000 Americans will die.

If they meet death at the same time and in the same community—for instance, by earthquake or battle—the catastrophe would be talked about for centuries.

But they slip away gradually, one here, one there. So there is no general excitement about their departure.

Of the 3,800 who die today, 27 are murdered and 41 commit suicide. Rather a bad record for each 24 hours.

The rest are nipped off the trees of life by disease, old age and accidents.

No matter how they happen to depart, the last thought of most of us: "It has been an interesting experience. Life on earth is a journey. I wonder where I came from and where I am going?"

While 3,800 die today, 6,599 babies give their first cry and are born in America. That is striking an average.

As nearly as can be accurately figured, about 2,400,000 babies will be born this year in our country.

The births exceed deaths by about 1,000,000 a year.

Deaths are necessary to make room for the newcomers.

These figures seem big. But to get the total of deaths and births for the whole world, you will have to multiply the American figures by at least 20.

A pretty big organization is humanity, 28,000,000 dying and 48,000,000 born each year.

One who can grasp such big figures is not apt to become conceited about his individual importance.

BLACKS ARE A TARGET FOR HITCHCOCK'S WRATH

Calls Senate's Attention to Reports of Crimes Committed by Black Colonials on the Rhine.

Washington, Aug. 31.—Calling attention to reports of crimes committed by French black colonials on the Rhine, Senator Hitchcock, ranking democrat on the foreign relations committee, declared today in the senate that it was the duty of the American government to suggest to France the substitution of white troops.

Reports of returning American travelers, said Senator Hitchcock, "have shown that France has thousands of black troops quartered among the German population and that repulsive crimes are again causing race hatred. We may sit idly by while France in her folly proceeds to cripple, if not crush the German people, but we as a nation are in part responsible for the Rhineland being under military occupation and it is our right, as well as our duty to protest against quartering half civilized black troops among white people where they appear as conquerors and act as criminals."

"NEBRASKA'S" SILVER IS RETURNED TO THE STATE

Lincoln, Sept. 1.—The silver service presented some years ago to the battleship Nebraska, but which has not been recently used because of the dismantling of the vessel, was returned to the state by the federal government as a temporary loan for exhibition purposes, it was announced today at the state capitol.

The service, which has been in storage in the Mare Island navy yard at Mare Island, California, has been turned over to Secretary Danielson of the state board of agriculture.

A THOUGHT FOR TODAY

Nothing distinguishes a lady or gentleman more than dignity under misfortune.

The bonus bill has passed the senate. Good so far. Now the question is, will Harding veto it? We say "No!"

The farmers are not to be deceived in voting this fall. They are becoming posted as to the ability and character of the various candidates irrespective of party. Men for the legislature, especially.

Charles W. Bryan is a man of the people and the indications are that he will be elected governor of Nebraska by an overwhelming majority. And when elected he will be the governor, too.

Says a reference to a woman entering politics, "Like her mother, she is an able public speaker." And no doubt, like her grandmother, great grandmother and great, great grandmother.

Russia, which is in desperate need of food, has banished fifteen hundred intellectuals from her borders, after accusing them of plotting counter-revolutions. It looks as if they might have saved more food by leaving the intellectuals, who don't eat much, and thrown out about fifteen hundred big, husky low brows.
