Building for the Future!

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amounts grow till each addition is a respectable sum. Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce. Thus a bank builds your wealth. Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

Finished in Beautiful Peacock Blue or Pearl Gray "UNIVIT" PORCELAIN

Make Your Kitchen Work Happier and Easier

The happiest kitchens are those equipped with modern helps which enables women to do their work easier. One of these helps is the Universal Porcelain Coal Range. In this range, science has succeeded in producing "UNIVIT"—a porcelain which will not chip, crack, or discolor from intense heat has freed woman from the disagreeable and laborious blackening of stoves and given them an artistic range, as clean and sanitary as the porcelain sink or bathtub.

UNIVERSAL PORCELAIN COAL RANGE

This beautiful, durable Porcelain Coal Range, which is finished in Peacock Blue or Pearl Gray, has revolutionized the American kitchen and is generally acknowledged to be the greatest improvement ever made in stove construction.

THE RANGE BEAUTIFUL Sanitary - Washable - Indestructible

A scientific, perfected process makes this porcelain as hard as flint. It will retain its luster and beauty to the end. It will not absorb grease. Just-wipe it off! It is as clean and sanitary as a china dish. It is made of gray cast iron throughout. Why endure a bothersome, old-style, dirty stove, when you can enjoy a bright, handsome Universal Range? There is a price for every pocketbook.

RULES ROADS MUST STOP CONTRACT WORK

Chicago, Sept. 9.—The railroad labor board today on the basis of its decision some time ago against the Indiana Harbor Belt railroad, hand-down decisions against six roads in fifteen cases of old complaints by labor organizations that the roads had been letting out work on contracts. The roads, except in one or two instances, gave up "farming out" of work prior to the shopmen's strike last July 1. The labor board in the Indiana Harbor case set a precedent by holding that contracting of work should be abandoned. The Erie railroad, one of the lines which did not agree to cease contracting work, the New York Central lines, San Antonio, Uvalde & Northwestern were the roads against which the board gave unanimous decisions today. Incidentally the case against the Great Northern was filed by the Brotherhood of Stationary Firemen and Oilers, whose members are on strike. The decisions cleared away all the old complaints against contracting, which the unions held was a means of evading the labor board's wage standards.

CHARGE POLITICS IN FEDERAL AID ROADS

Washington, Sept. 9.—Investigation of charges that state roads commission in certain states have been influenced by "political consideration and favoritism" in the laying out of roads, which are to share in federal aid, was requested of the secretary of agriculture in a resolution submitted today by Senator Harrell, republican Oklahoma. The resolution requests that the charge be investigated with particular request to conditions in Oklahoma.
