Building for the Future!

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amounts grow till each addition is a respectable sum.

Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce.

Thus a bank builds your wealth. Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

THE RECORD OF THE COST OF STATE GOVERNMENT

Four Years of Democratic Rule Without Code Law, \$17,000,000; 4 Years of Republican Code Rule, \$50,000,000.

Dear Editor: Four years of state government under the democrats and without a code cost in round numbers \$17,000,000.

Four years of state government under the republicans with the code cost in round numbers \$50,000,000.

Four years ago while the democrats were doing so well, the republicans, through their spokesman, Mr. McKelvie, accused the democrats of waste and extravagance. The republicans then promised the people if they were elected they would put in the code system and save the taxpayers money. The code would reduce the number of salaried office holders, it would do away with duplication and it would reduce taxes.

The republicans were elected. They controlled both branches of the legislature and filled every office of the state government. They passed the code bill with its \$20,000,000 of appropriations to run the state for two years under the code—\$3,000,000 more under the republicans and under the code for two years than it cost under the previous four years under the democratic without the code.

That's going some. But wait a minute. That is not all. Then the republicans promised to be good and said if the people would only elect them again they would do better the next time.

They were elected again in 1920. Then Mr. McKelvie and all the republicans said "Our re-election is an endorsement of the code and the way we spend money. The people like the code and they like the way we spend money so we will go ahead and give them some more of the same kind."

Then the legislature gave them \$20,000,000 for the next two years and three months, or \$13,000,000 more under the republicans and under the code than it cost under the democrats without the code for four years.

Now the republicans are promising to be good again and say if they are re-elected they will do better next time, but their doing better seems to be raising the appropriations and the state taxes.

When the democrats were in control of the state government the state house held all the departments of the executive government. When the republicans and the code took control more room had to be provided to care for the extra departments and high salaried secretaries and clerks.

Many offices were rented in the downtown districts and much rent has been paid during the past four years. Taxes increased by leaps and bounds. More duplications have been made in various departments. In fact just the reverse has been done by the republicans than what they promised the people four years ago.

The taxpayers have paid dearly for the past four years under the code.

Now the democrats are offering to repeal the code and reduce the taxes and try to help the people to return to normalcy but the republicans say "it can't be done."

If the republicans are elected again this fall they will again claim that the election is an endorsement of the code. They will again claim that it is an endorsement and an approval of the way they have been spending money. They will again say, "The people like the code and they like the way we have been spending money. The people like to see \$5,000 secretaries made out of \$1,500 clerks. The people like to pay big taxes." The republicans go on the theory that the more taxes a fellow pays the better he likes his government.

If Charles W. Bryan is elected governor and he is given a democratic legislature and a corps of democratic state executive officials, the code law will be repealed, useless duplicating departments will be cut out, many high salaried secretaries and clerks will be increased on the payroll, taxes will be reduced and everything will be done to help the people back to normalcy and help lighten the burden which they are carrying. The democrats are pledged to this program.

CORNHUSKER SPECIAL TO LEAVE SATURDAY; 250 ABOARD

Legion Delegates and Visitors Off for National Convention to be Held at New Orleans.

Two hundred members of the Nebraska American Legion will assemble in Lincoln Friday to join the capital city post's delegates on the trip to New Orleans. A goodly number will also leave Omaha at about the same time, the two sections of the Cornhusker special train being united at St. Joseph Saturday morning.

The train will run over the Burlington to St. Louis, and there shunted to the Mobile & Ohio and sent on its way to New Orleans.

Stops will be made at LaCade, Mo., the old home of General John J. Pershing, where a demonstration will be staged by the Legionnaires, and at Corinth, Miss., where the delegates will visit the Shiloh battlefield.

Other stops will be made along the way for meals. The first halt of the train will be at St. Joseph for breakfast Saturday morning, the next at Hannibal, Mo., for dinner. The party will stop at St. Louis for supper, at Union City Sunday morning for breakfast and dinner will be had at the Shiloh park in Corinth.

The special will arrive in New Orleans early Monday morning, the opening day of the convention, and will leave on the return trip late Friday night.

HORNSEY KING OF SLUGGERS

St. Louis, Oct. 9.—Rogers Hornsby, second baseman of the St. Louis National and successor of Babe Ruth of the New York Americans as the colossus of swat, is worthy of the title he earned this season by pounding out forty-two home runs, according to local sport writers. It is pointed out that Hornsby today stands out as probably the mightiest batter of the major leagues, notwithstanding the prowess of Ruth and George Sisler, first basemen for the St. Louis Browns.

Hornsby rolled up a magnificent batting average of slightly over .400 for 1922, including his circuit clouts which brought his total base hitting up by bounds.

While having a higher percentage than Hornsby, Sisler, judged by the experts to have been the most valuable player of the American league this year, is not the slugger that is Hornsby. According to the averages, Sisler had only eight homers to his credit.

Then in the case of Ruth, it is said that the Bambino ped out more than four base hits in 1921 than Hornsby did this year, fifty-nine to be exact, but the statistics show that Ruth at no time in his career has been able to climb into the select .400 batting circle.

And when it comes to hitting the ball over the fence, many outfielders of the National league will say Hornsby slams the pellet as far as

BEEF RAISERS WILL GET MORE MONEY FOR CROP

Scottsbluff, Neb., Oct. 9.—The Great Western Sugar company today announced a payment of 15% cents a ton on sugar beets grown in 1921 under the sliding scale contract, in addition to the \$6 already paid, which will amount in the whole \$250,000 and raises the worth of the 1921 crop to the farmers to almost \$18,000,000.

The Nebraska district, which has factories at Scottsbluff, Mitchell, Bayard and Gering will get approximately one-fourth of the total.

The additional payment to growers was made possible by advances in the selling price of sugar in the past six months.

Checks for the payment will be given to the farmers October 15, when they receive their first payment on the 1922 crop of sugar beets.
