CHIEF UNDER THE WEATHER

From Saturday's Daily.
 Chief of Police Barclay, who has been arranging to enjoy his vacation in an auto trip out in the central part of the state has had his plans affected somewhat by the fact that he has had a re-occurrence of his old trouble of gall stones and for the last day and a half has been suffering a great deal and last evening was able to be out for a few moments but is showing the effects of the illness and which may necessitate the abandonment of his outing for the more serious duty of taking treatment for the gall stones.

EXPANSION INSTEAD OF CUT IN SHOPS HERE

REMOVAL OF BRASS FOUNDRY TO HAVELOCK DOESN'T MEAN FEWER EMPLOYEES.

WILL DO HEAVY REPAIR WORK

At This Point and Eventually Employ More Men Here Than Have Worked Before.

From Saturday's Daily.
 The removal of the brass foundry from Plattsmouth to Havelock by the Burlington mechanical department does not mean that Plattsmouth will lose so far as the number of Burlington employees is concerned. In fact indications are that the railroad will employ a greater number of men at that place.
 It has been decided that a greater amount of heavy repair work will be done in the Plattsmouth shops. The company will use the facilities at hand for the one work of car repairing and in doing this will probably add considerably to the force as time goes on.

The brass foundry has been installed at Havelock. It has been planned for years to move that foundry to the big locomotive shops at Havelock, and the time arrived when it will be done without disarranging other plans.

Work at Plattsmouth is going on now much as it is moving at other shop centers. In fact Burlington officials say there is little to worry about at any of the terminals and the shop work is being handled so well that the effects of the strike are rapidly passing.—State Journal.

The decision of the Burlington officials at their Lincoln meeting will mean a great deal to this city in the increase of the force of men employed at the local shops and the enlarging of the facilities for caring for the heavy car repairs that will be made in the steel car, freight car and coach shop departments.

When the unsettled conditions growing out of the strike are settled and adjusted it should result in a very prosperous time for the residents of all of the railroad centers and this city will be able to secure its full share of success from the enlarging of the shop force to a much larger number than has ever been employed here in the last twenty years.

ENTERTAIN THEIR FRIENDS AT HALLOWEEN GATHERING

Martha and Frederick Gorder Entertain Some Forty-Five Young Friends at Home Here.

From Saturday's Daily.
 One of the enjoyable gatherings of the Halloween season was held last evening at the Gorder home in the north portion of the city when Martha and Frederick Gorder entertained some forty-five of their young friends at a mask party.

The guests all arrived masked in many attractive and amusing costumes that were in keeping with the season and soon the rooms of the home and the lawn were graced with the masked witches, clowns, Halloween spirits and other very seasonable costumes.

The rooms of the home were decorated with the autumn leaves and seasonable trimmings as well as the Jack O' Lanterns which were also in evidence in the lawn decorations and which added to the pleasures of the merry party of young people.

The time was spent in games of the season with fortune telling and other amusing features to delight the members of the party.

At a suitable hour a dainty luncheon was served by Mrs. Gorder assisted by Miss Martha Cole and Miss Hazel Clugy, and at a late hour the members of the party departed for their homes expressing their appreciation of the good time they had experienced.

CONSTABLE IS BETTER

Constable Frank Detlef, who has for the past few days been under the weather physically as the result of having suffered a touch of ptomaine poisoning, and which has affected him to a great extent, is now showing improvement.

Mr. Detlef was from Louisville a few days ago and while there had occasion to eat supper and from the food he thinks he secured the touch of poisoning which kept him confined to his bed for several days. Frank is still feeling the effects of the attack and is not moving around with his accustomed pep.

Rev. B. M. Bridges Gives Facts in His Case

It is doubtful if there has ever been a medicine endorsed by so many ministers of the Gospel as has Tanlac. Indeed, there is scarcely a faith, creed or denomination in all the land in which one, or more, of the clergy-men has not publicly expressed their indebtedness to the Premier Preparation for the benefits they have derived from its use.

One of the latest to speak out in this connection is Rev. B. M. Bridges, a widely known and beloved Baptist preacher, residing at Mooresboro, N. C., whose statement follows:

"Tanlac has given me a good appetite, toned up my system and renewed my strength in such a gratifying way that I am glad to recommend it to anyone who is in a run-down condition. For ten years past I have had such a severe case of indigestion that I could not find anything to eat that agreed with me. Finally I became very nervous and could get but very little sleep or rest. "It seems that I took nearly everything trying to get myself right, but nothing helped me until I ran across Tanlac. My nerves are so much better now that my sleep is sound and refreshing. I enjoy my meals and have gained weight. I can say from experience that Tanlac is a splendid medicine an tonic, for it has built me up wonderfully."
 Tanlac is sold by all good druggists.

Their kindnesses will always be remembered.—Mr. and Mrs. Valentine Tomaszewski and family.

WATER COMPANY MOVES

The offices of the Plattsmouth Water Co., which have been heretofore located in the Modern Woodmen building, will in the future be located in the White building just north of the telephone exchange building. The new location gives the company ample room for their business offices as well as store room for supplies necessary in maintaining the lines of the company. The public will take note of the change in location and when desiring to look after matters with the water company, call at the new offices of Superintendent Minor.

CEMETERY IN BAD SHAPE

Visitors to the Horning cemetery south of the city report that the condition of this burial ground is such that the weeds and grass have overgrown and make the plot one that is far from sightly and one that should receive the attention of those who have charge of the cemetery or have their loved ones buried there. The care of the last resting places of the loved ones should be looked after and the grounds kept in the best of shape, but from the reports, this is not being done at the Horning cemetery.

WILL MOVE MONDAY

From Saturday's Daily.
 Mr. and Mrs. Paul H. Roberts, who have been making their home at the Hotel Wagner for the past few weeks will on Monday move into the new home at the corner of 10th and Grant streets, and which they have just purchased. This is a very desirable piece of property and especially to Mr. Roberts as it is located just a block from the lumber yard and in the heart of the city.

RETURNS FROM HOSPITAL

From Saturday's Daily.
 This afternoon Miss Helen Egenberger, daughter of Mr. and Mrs. F. G. Egenberger, came in from Chicago, where she has been at the Mercy hospital and where she has been recuperating from an operation for appendicitis. Miss Egenberger had been taking nurse training there when taken sick and underwent an operation and is now feeling somewhat improved.

BURLINGTON OFFICIALS PAY A VISIT HERE

PRESIDENT HOLDEN, AND EXECUTIVE VICE PRESIDENT C. E. BURNHAM HERE.

WELL PLEASSED WITH SITUATION

General Manager Thiehoff, H. C. Allen and General Superintendent Flynn Also Here.

From Saturday's Daily.

Yesterday afternoon a special train bearing a distinguished party of Burlington officials visited this city and the shops of the Burlington at this point, while on a tour of the lines west of the Missouri river.

In the party were H. C. Holden, president of the road, C. E. Burnham, executive vice president; Howard Elliott, member of the directorate of the Burlington, Great Northern and Northern Pacific, all of which are allied into one of the great systems of the country; W. F. Thiehoff, general manager of the Burlington; H. Flynn, general superintendent, and N. C. Allen, division superintendent.

The special train came from Lincoln where a conference of the rail officials was held Friday morning, and was backed up into the shops yards to permit the officials seeing the shop force in operation and it was the first visit of President Holden here since some time prior to the strike.

During the time the officials were here they visited the different departments of the shops and expressed their pleasure at the manner in which they were operating and the results that were being secured by Superintendent Baird and the various department heads in the shop plant, relative to handling the work and especially in view of the extraordinary condition under which the shops have been operating.

The party were especially interested in the fine new power plant that is being erected at the shops and took the opportunity to look over the work and will recommend a number of other improvements in this piece of work that will make it one of the best plants of its kind on the system.

In looking over the shops, the officials took up the matter of needed improvement in the way of machinery and other equipment that has been desired and it is expected they will favorably respond to the requests of Mr. Baird to have this matter looked after.

One of the most pleasing facts of the visit of the heads of the road was the evident desire to have the work here continued at the largest scale possible to do this it is expected that the coming winter will see one of the largest forces of men that has ever been employed in recent years on duty in the shops and the extraordinary demand on the railroads of the nation for business is creating a demand for work that will enable the railroad shops to keep at their fullest capacity for the winter.

The officials also discussed the conditions in the city at large and were very much pleased with the relations that exist at this time between the business interests and the city as a whole with the Burlington and which has been the very best in the last few months.

The visit here of Mr. Elliott was quite pleasing as a personal matter to Mr. Baird as he had commenced his early railroad work under the present director and entertained a warm personal regard and respect for Mr. Elliott, who is one of the leaders in the railroad world of the west and northwest.
