THE HEAD OF SAUL

When he stood among the people, he was higher than any of the people from his shoulders upward.—1 Samuel x. 23.

Almost time to fall out with that girl, Christmas is coming.

Too much money makes you unhappy—if a neighbor has it.

A woman is like a nail without a head; she usually goes too far.

What the nation needs this year is an open winter, openly arrived at.

Don't put all your eggs in one basket. Put some in the pan and fry 'em.

Also we reckon the other bugs regard the lightning bug as a flashy sport.

If a man isn't capable of governing himself it is up to him to get married.

It may be true that the minority is sometimes right, but it is certain that it is always noisy.

Tariff prices disprove the saying that all that goes up must come down. They only go up.

The kaiser could probably have obtained more money for his memoirs if he had told the truth.

What is worse than your wife cooking for supper the same thing you had down town for lunch

The first man from Europe came to America accidentally, but since then they all have had a purpose.

Another reason why some couples haven't any babies is because they are afraid they might have to keep a cow.

Personally, we don't care how unostentatious our inner tubes look as long as they don't blow out or puncture.

These people who bear their burdens in silence would deserve a lot of praise if they didn't talk about it so much.

One reason why most folks are tired of making home brew is because most of their friends are tired of tasting it.

Dartmouth's president may be right about too many going to college. Out of thousands only eleven make a football team.

An exchange says the girl of the last generation has nothing on the modern flapper. And the M. F. has very little on herself.

It is said the Fascist plan of government is to have everybody in Italy go to work. This is even more radical than has been expected.

Evidently the Irish die-hards who have resumed war on the Free State government are not aware that the new word in the British political vocabulary is tranquility.

Charley Bryan has let no grass grow under his feet this campaign, and he should be rewarded with an overwhelming majority for governor and will be if the taxpayers do their duty.

The Filipino mission that came to the United States to urge independence for the Philippines spent \$145,000 on the trip. Looks as though the independence propaganda was a paying thing.

That "certain nation" referred to by Secretary Weeks that wanted to buy arms and munitions from the United States deserves thanks anyway for the compliment paid to our preparedness.

Hum Dinger, the hard to suit citizen of Newton, Kansas, favors establishing a quiet zone around churches so that preachers and others who wish to attend church will not be disturbed by motorists.

Premier Bonar Law says Mr. Lloyd George was a good drummer, but a drummer isn't what Britain now needs. Still, a good many people think this isn't exactly the time for any country to stuff its ears with cotton and go to sleep.

Thanksgiving Thursday, November 30th.

No more politics for two years, thank the Lord.

Turkey with all the trimmings, November 30th.

Peace and happiness will now reign—for a while.

"Who's Who"—a book in which others see us as we see ourselves.

The worst second story men are those who tell the same story twice.

Turkeys will be turkeys again this year—30 to 40 cents a pound—or more.

Many a man has a lame excuse because he got his foot in it by getting his leg pulled.

Chorus girl gets \$50,000 for a broken heart and an Ohio man only gets \$50 for a broken leg.

Horseshoe pitching is returning because it is cheap. All you need is two shoes and a few chevs.

The people can begin to read something else besides politics, of which they have become sick and tired.

An open countenance becomes rather tiresome, however, unless the lower part of it closes at intervals.

If a girl is pretty she knows it just as well as a man does, but she won't think any the less of him if he tells her so.

What we don't understand about the wisdom of the serpent is that it has never raised him high enough to walk without rubbing the ground with his bosom.

Of course, it's always encouraging to hear that a sultan has been deposed, but then comes the discouraging thought that he is bound to be succeeded by a Turk.

A three-year-old infant in New York City can speak five languages. By the time he grows up he may be able to get around his home town without an interpreter.

"When does a girl reach womanhood?" asks a headline. We should say when she ceases to wish for two birthdays a year and begins to wish for one birthday every two years.

THE GRAND PASSION!

Life is just one durned vibration after another. Sound and light are but a series of waves and vibrations impinging upon one another. Now Prof. Watts Eaton Hughes, dean of ester, declares that the tender passion is a concert of vibrations. When people are in love they merely are tuned into each other's wave length. It is just like a radio outfit.

In the spring the call goes forth, searchingly, tremulously.

It beats gently upon the air. The heart throws out its antennae—its feelers.

And in the next blink—or maybe the next county—somebody is tuning in. An eye glance may complete the connection. The vibrations are bridged. Harmony is established.

Two souls with but a single thought. Wedding bells, Mendelssohn stuff.

Static trouble. Broken connections. The lost cord. The rift in the lute. Such is life.

But the thought that love is a chain of vibrations sounds reasonable. Possibly the professor is right. The gentle passion intimates a succession of wavy thrills. Our motions are vibratory. How tremulous is first love in its contacts. How the color surges in the cheek as the loved one approaches. 'Gosh!

Isn't it grand?

WANTED: SALESMEN

A shortage of sales managers is reported by a "white collar" employment bureau in New York City, which supplies business executives, efficiency experts and college professors just as similar organizations supply teamsters, cooks and day laborers.

"There is a constant and increasing demand for sales managers," says a report. "Recently we have been supplying men for these positions at salaries averaging \$231 a week. And we have trouble finding enough men to meet the demand." Give a thought to salesmanship as a career.

And, by the way, the young book-keeper who is struggling along and sees no future in his line should be heartened by the news that plenty of jobs paying \$15,000 to \$50,000 a year await the super bookkeeper, known as auditors.

The business of our country went through an era in which the big fortunes went to men who were geniuses at production. The corporations known as trusts were built up as producing organizations.

High efficiency in production, however, means nothing if there is no market for what is produced. This is where the salesman steps in.

The sales engineer now ranks in importance with the production engineer.

Salesmanship is the coming field. For competition is bound to be sharp and keen in the post-war years that lie ahead. And it is salesmanship that "cops the business" in high competition.

Traveling on trains you meet many crackerjack salesmen, veterans, grown old and white haired in the service.

But salesmanship is primarily a young man's game. The vigor of determination, never lagging energy and enthusiasm of the genuine "go-getter" are qualities of youth.

Youth will go after the orders, sell the goods.

Middle age and old age, with the wisdom and judgment and foresight of maturity, will stay at home and produce the things to fill the orders.

It is generally realized that the problem of production has been nearly solved, and that the real problem of business is distribution.

Making distribution more scientific and less wasteful, by finding economical shortcuts from producer to consumer, is a job that is up to the sales engineers and their armies of salesmen.

Majority of our economic problems—problems of marketing.

PROSPERITY PROOF

That business is better, is obvious to even the casual reader of newspapers; just how good it really is, however, is best indicated by the spirit of confidence that prevails throughout the country.

This confidence is no mere optimism of theorists, but is bolstered by such hard facts as the increase in coal loadings, the ever-advancing demand for raw materials by manufacturers, and, above all, the optimism which rules the retail buying trade for, when all is said, prosperity is predicted upon the ability and desire of the public to buy.

The disappearance of the unemployment problem that menaced us, and the marked improvement in the industrial crops of the north leave no doubt as to how good the retail demand for all products will be in the region with the approach of winter and the holiday shopping season.

Conditions vary considerably in different localities, but the improvement that is attested by reports of bank clearings, show the advance that is being made.

The steadying of European conditions also has been a tonic to business on this side of the ocean, though such a factor as the European situation is subject only to exceedingly slow modification. But even so, the impetus has been given to business; the inertia has been overcome and the gloom dispelled.

Somewhat, this optimism may be due to the fact that in some industries wages, too, are rising. As individual employers and groups of industries bid against each other, wage increases are certain to stimulate trade.

Naturally there is danger, as a result of this, that the prices of consumers' goods will rise too rapidly, but this is a contingency that is being contemplated only by the most pessimistic, for the movement toward prosperity is not the hysterical pseudo-prosperity of 1919-20, but the forward movement that has at its back the whole nation and every product of the nation.

It has just about gotten so in this country that when a farmer's cow goes dry he wants to move to town.

Each of us has a family tree: some trees being more shady than others.

HOWELL AND BRYAN TO HEAD STATE TICKET

Majorities Will Reach Unprecedented Totals. RURAL VOTE IS DECISIVE

Howell's Plurality Largest Ever Given a Candidate for Senator in History of the State.

R. B. Howell, republican, was elected United States senator from Nebraska at Tuesday's election.

Charles W. Bryan, of Lincoln, was elected governor.

Howell had a lead over Senator G. M. Hitchcock in 733 precincts of 25,675 votes. Indications were his majority might be 40,000. Senator Hitchcock at 10:20 o'clock conceded his opponent's election and sent him a letter of congratulation.

Bryan, in 733 precincts had a lead over Charles H. Randall for governor of 19,204 with the probability that he would increase this on complete returns to at least to 35,000.

Republican candidates for congress are leading in four of the six Nebraska districts on returns at present available. Sears in the Second district, McLaughlin in the Fourth and Simmons in the Sixth were pulling away from their democratic opponents.

Howell and Bryan ran up unprecedented pluralities. Even after allowance is made for the increase in the total vote, due to the participation of women, their leads were record-breakers. Early returns made it doubtful

SENATOR-ELECT R. B. HOWELL.

GOVERNOR-ELECT C. W. BRYAN.

including Senator Hale, republican, re-elected before Tuesday's election:

Florida—Senator Park Trammell, democrat, re-elected without opposition.

Georgia—Judge Walter F. George, democrat, elected without opposition to succeed the late Senator Thomas Watson, democrat.

Maine—Senator Frederick Hale, republican, re-elected.

Mississippi—Former Congressman Hubert D. Stephens, democrat, elected to succeed Senator John Sharp Williams, democrat, who was not a candidate for re-election.

Virginia—Senator Claude Swanson, democrat, re-elected.

Wisconsin—Robert M. LaFollette, re-elected.

Tennessee—Senator Kenneth McKellar, democrat, re-elected over Newell Sanders, republican.

New York.—Under the banner of Al Smith, democrat and former governor, the empire state, 1,100,000 republican two years ago, appears to have returned to the democratic fold. Smith, sweeping through the up-state cities either leading Governor Miller by substantial margins, or greatly reducing Miller's 1920 majorities over him, promised to come into New York city with a margin which, by all indications, will be over 300,000.

New York.—The New York World, democratic, declares that Smith, the democratic candidate for governor, has been elected by 165,000.

LaFollette Carries Wisconsin.

Milwaukee.—Senator Robert M. LaFollette, running as a republican in today's Wisconsin election, as a 5 to 1 favorite in tonight's early returns, has been elected United States senator by a majority conservatively estimated to exceed 200,000 over his opponent, Mrs. Jessie Back Hooper, who headed the shattered democratic independent ticket.

Total Vote Greatly Reduced.

Washington.—The total vote in the congressional election Tuesday will not greatly exceed 26,000,000, in the opinion of republican and democratic party leaders. This is a reduction of about 4,000,000 from the vote in the presidential election of 1920, and the loss is attributed to apathy among the electorate.

Jackson, Miss.—The entire democratic congressional ticket swept Mississippi. Hubert D. Stephens was overwhelmingly elected to succeed John Sharp Williams, retired. The house delegation of eight democrats will include two new faces, Jeff Busby and T. Webber Wilson.

Birmingham, Ala.—The democratic state ticket, headed by W. W. Brandon for governor, was elected in its entirety although republican strength in some sections was reported the heaviest ever recorded.

Boston.—Close contest for senator and governor are indicated by returns from more than one-third of the election precincts in Massachusetts. The vote of 521 precincts, including 245 in the city of Boston, gave Gaston (D), for senator, a lead of 18,229 over Lodge (R), and Fitzgerald (D), for governor, a lead of 10,796 over Cox who gave Gaston a majority of 48,795 and Fitzgerald 47,202. Thomas C. O'Brien (R) was elected district attorney of Suffolk county, including Boston, by a substantial margin, over Joseph C. Pelletier (D).

Missouri in Democratic Column.

St. Louis.—James A. Reed, United States senator from Missouri, in one of the most bitterly contested elections in the state of Missouri has ever known, was leading his republican opponent, R. R. Brewster, for re-election by nearly 5,000 votes on the face of early returns. Three hundred thirty-seven precincts out of a total of 3,873 gave Reed 36,759. Brewster 31,105. The entire state congressional ticket also showed symptoms, in the early reports, of returning definitely to the democratic columns.

Iowa Elects Kendall Governor

Des Moines, Ia.—Returns from 850 precincts out of 2,318 in Iowa—more than one-third of the state—indicate the almost certain election of Clyde W. Brookhart, republican, over Clyde L. Herring, democrat, 40,812.

Brookhart's support is practically statewide. He leads, according to returns so far received, in every county except one—Dubuque.

Returns from 454 of 2,318 precincts on the soldiers' bonus bond issue give: Yes, 66,445; no, 36,932.

Governor Kendall is leading J. R. Files, his democratic opponent for governor, by more than 50,000 in 590 precincts reported.

Results in Senatorial Contests.

New York.—In the several senatorial election contests this year involving nineteen seats now held by republicans and sixteen held by democrats, the winners are listed below, including Senator Hale, republican, re-elected before Tuesday's election:

Florida—Senator Park Trammell, democrat, re-elected without opposition.

Georgia—Judge Walter F. George, democrat, elected without opposition to succeed the late Senator Thomas Watson, democrat.

Maine—Senator Frederick Hale, republican, re-elected.

Mississippi—Former Congressman Hubert D. Stephens, democrat, elected to succeed Senator John Sharp Williams, democrat, who was not a candidate for re-election.

Virginia—Senator Claude Swanson, democrat, re-elected.

Wisconsin—Robert M. LaFollette, re-elected.

Tennessee—Senator Kenneth McKellar, democrat, re-elected over Newell Sanders, republican.

MOTOR TRUCKS REPLACE RAILROAD STOCK SHIPMENTS

Great Increase Over Past Year in the Number of Cattle, Hogs and Sheep Shipped by Truck.

(Omaha News Radio Service)

High freight rates and inability to get stock cars is the cause of farmers within a radius of 100 miles of Omaha seeking relief by marketing their stock in auto trucks rather than by railroad shipments. Receipts at the Union Stock Yards for some time have been on the increase and a comparison of the receipts of the past ten months of the present year with that of last year show increase of 9,000 cattle, 35,000 hogs and 7,000 sheep in the shipments received by stock yards in auto shipments.

BLIZZARD IN DAKOTAS IS SWEEPING THIS WAY

Deadwood, S. D., Nov. 8.—About three feet of snow fell here in less than twenty-four hours yesterday, paralyzing traffic and covering the ground with the outside world for a time. Trains on the Chicago & Northwestern railway were blocked by the heavy drifts.

Moorhead, Minn., Nov. 6.—The worst snowstorm of the year is marching southward over the Dakotas and will be raging in those two states on election eve, tonight, according to R. E. Spencer, United States weather observer here.

TORNADO IN OKLAHOMA COVERED A LONG PATH

Chickasha, Okla., Nov. 6.—A check of the area covered by the tornado which late Saturday swept thru an oil field near here, killing five persons, injuring nearly two acres and doing property damage of approximately half a million dollars, revealed that it had been felt for a distance of twenty-eight miles, a path far longer than traversed by the average twister.

Old residents here recalled that sixteen years ago, a tornado took virtually the same course, but due to the sparsely settled nature of the oil fields then did little damage.

Duroc spring boars; Shorthorn bulls—Searl S. Davis, four miles west of Murray.

Lingerie collar and cuffs sets are one of the special features for the fall and winter garments. St. Mary's Guild will have many new and clever designs at their Christmas Shop, Dec. 8 and 9.
