Building for the Future!

A bank works for you night and day, week after week, adding cents to your dollars. Little by little the amounts grow till each addition is a respectable sum.

Where does the gain come from? Not from your pocket. Nor from ours. It is the result of production. Money placed in a bank is given an opportunity to work and to produce.

Thus a bank builds your wealth. Start with a small deposit if you will. Add to it when you can—regularly if you can do so. It will not be long till you can fairly see it grow.

FAIR WEATHER IN STATE FOR ELECTION

Rough Roads in the Western Part of State and Parts of Northeast May Cut Down Vote.

(Omaha News Radio Service)

Out state reports on the election conditions indicate that the temperature ranges from 20 to 40 degrees above zero, with sunshine in the east and greater part of the central portions of the state. A big afternoon vote was expected in Lancaster county and in Omaha and Douglas county the greatest interest was in the Hitchcock-Howell contest. The New York Times featured the Nebraska senatorial contest as one of national importance.

In the western portion of the state road conditions may have a great part in checking the farmer vote and this condition is also found in Cumulug and Stanton counties.

At Omaha there were small groups on hand at the different polling places at 8 o'clock to vote before going to work and among these were a fair representation of the women voters. Keen interest is being shown in the election in Douglas county on local candidates as well as the state ticket.

CIVIL SERVICE EXAMINATIONS TO BE GIVEN AGAIN

ARMISTICE DAY HONOR FOR WOODROW WILSON

Group of Citizens Will Call on Him Saturday—Henry Morgenthau Will Deliver an Address.

Washington, Nov. 6.—Plans for a visit to the home of former President Wilson Saturday by a delegation of "admirers and well wishers" were announced by Mrs. Kate Trenholm Abrams, who also headed the group of citizens who called on Mr. Wilson last Armistice day. Henry Morgenthau of New York, former ambassador to Turkey, has accepted an invitation from Mrs. Abrams' committee. It was stated, to address Mr. Wilson. It is expected that the former president will receive his callers, the announcement added, although no word of the committee's plans have been sent to him.

Charlestown, W. Va., Nov. 6.—A message of good cheer sent to Woodrow Wilson last night by "the democracy of Jefferson county" elicited a prompt reply from the former president.

The message from the Jefferson county democrats has greatly heartened Mr. Wilson, said Mr. Wilson's telegram, made public by William Campbell, chairman of the county committee. "I share their confidence that the near future will witness the triumph of our principles and of our purposes on behalf of the country and mankind and I rejoice that I shall have such comradeship in the day of triumph. My heartfelt good wishes."

BUREAU CHIEFS ARE GIVEN SCORING BY DAWES

Says They're a Lot of Peewee Politicians Who Do as they Damn Please Most of Time.

Chicago, Nov. 4.—General Charles G. Dawes, former director of the national budget, speaking here last night at the annual banquet of the bankers' club, assailed department heads at Washington as "demagogues" and scored congress as being filled with "peewee" politicians, at the same time injecting into his address a few of his famous adjectives.

"The budget system isn't worth anything if the president gives up his authority and responsibility," he said. "Everything that has been accomplished has been by the firmness of the president. Reduction in expenses for the first year under the budget was effected by executive pressure. The savings were made out of appropriations granted. Congress didn't have anything to do with it.

"These department heads who came to Washington, what do they or can they know about this business? They come as the interested advocates of the bureau chiefs, whom they seek to please even to the extent of seeking to exercise pressure on the president.

"These bureau chiefs try to do exactly the opposite of what they want. They put out propaganda over the head of the president.

"In private enterprise, such actions on the part of subordinates would lead them to be branded as traitors and kicked out. They are capable of the smallest and meanest acts because they resist encroachment on their prerogatives. The budget system has put the department subordinates in their places."

Have You Noticed the Roads?

For the past few months I have been in charge of the road work of this district, and with many difficult pieces of hard work to look after, we have completed all which have thus far come to our lot.

I would like to call to the attention of the voters, the work which has been done and let them be the judge as to its merits.

Should the work meet with the approval of the voters, I would like their support for the position of road overseer. If elected I shall endeavor to do the best possible work in the interest of the public.

I expect to continue to make my home here, though it seems to have been reported that I contemplate moving away.
