A DOLLAR DAY FOR SATURDAY, DECEMBER 9TH

Local Committee Will Assist in Work of Raising Funds for College in Far West to Aid Nations.

Here is an opportunity to invest in Oriental fabrics. The girls of India, China and Japan are waiting eagerly to hear what American women will do about completing the colleges and medical schools which are to aid in the making of a new world for women. There are seven colleges, one in Tokyo, Japan, three in China, three in India, and they are to meet the needs of 500,000,000 Oriental women. American girls too often wear their college degree as a decoration. To these earnest girls of the east the college is to open all the doors of new life, physical, intellectual, social, spiritual to their sisters. Their college motto is "Lighted to Lighten."

Two years ago the Mission boards of ten great denominations in America united to secure land and buildings for these colleges. The estimate for the seven was three millions, not a large sum as two were to be medical schools. The Laura Spellman Rockefeller Memorial Fund granted one million if the joint committee would secure two millions. With no indefatigable alumnae, with the strong appeals for burdened boards which prevented direct appeal to churches, it has been a difficult task to secure one million. We now need the second million before January 1 in order to receive the conditional gift from the Rockefeller fund. In every town and city December ninth, not the date, women's organizations, missionary societies, clubs, collegiate alumnae, D. A. R. and other groups

will unite in a community campaign for dollar gifts from every one who believes that this is one world and that these countries are our neighbors. We give to sufferers from war and oppression our cups of cold water and we constantly repeat the gifts. Why not dig wells of water where those nations may drink and not thirst again. A few women from America have done wonders in the education of these Oriental girls and have fitted them for college where thousands may be trained as Christian educators, doctors, reformers. They and they alone can reach their own vast populations. It is the second stage, the new level of foreign missions. They will come to their own aid if we help them now.

One Million Women to One Doctor
Only Indian women doctors can meet this awful need of child wives and mothers, married at ten and eleven, mothers at twelve and no medical aid. Picture it if you can. The first class at Vellore Medical school has graduated in competition with four hundred men from six medical colleges for men in South India. Only fourteen girls in this class but they far outranked the men.

They have begun to build in Vellore but they cannot go on unless our dollar day is an overwhelming success. China's colleges for women are in old palaces built before Columbus discovered America, with the same heating plant and sanitary conditions. They, too, have begun to build, believing that their friends in America will not fail them. Japan is doing fine things, making good her promises in Shantung and Siberia. Let us make good our promise to Japanese girls and complete their buildings. They are beginning to rise on the new campus. We must not, cannot fail to do our part. The collector's cards are ready. This is our Woman's League of Nations, the greatest international movement of American women for

the women of the world. Surely all women will unite in it. Our dollar day if we make good in all our towns and cities, will be a million dollar day. The memorial fund will make it a million five hundred thousand dollar day. While our part may be comparatively small we must make it as large as we can through a great host of women who will serve as collectors. The results will be cable to Japan, China and India. A wonderful Christmas gift and an acknowledgment from the privileged women of America who owe all they have to opportunity, and training to the One who came on Christmas, the founder of the only religion which recognized woman and the child. A dollar is so small a gift; many will give more, but each gift will light Christmas candles around the world in this year of our Lord. The local committee is headed by Mrs. R. H. Hayes as chairman and Mrs. J. F. Wolf as treasurer and the general committee will number some fifteen ladies when it is completed.

ESTRAY NOTICE

Taken up a Hampshire sow pig, October 1st. Owner may have same by paying for feed and care and this notice.

Journal want ads pay. Try them.

SCHOOL CHILDREN TO HAVE THE BENEFIT OF NURSE

Physical Examination of Eyes, Ears, Nose and Throat of Scholars Will be Made in the City.

The Plattsouth public schools will have the services for some time of Lincoln, a trained nurse, sent by the state department to make the physical examination of the school children of the city in compliance with the state law.

The nurse who comes very highly recommended will make examination of the eyes, ears, throat and nose of all the children to determine whether or not there is any physical infirmities existing that might retard the child in its school work or in proper development and the result of the examinations will be made in report to the parents of the school children.

There is nothing compulsory in the treating of the children but the findings of the nurse are given the parents in order that if they so desire the defects found may be corrected by treatment or otherwise as the case may be. Many have the impression that it is mandatory to carry out the report as to treatment but such is not the case and the parents or guardian may exercise their best judgment in that respect.

This year the nurse will also measure and weigh the children, a new departure over the past years.

It is almost time to think of preparing your Christmas packages. Get your boxes, seals and tags at the Journal office.

TOURNAMENT IS DEVELOPING MUCH INTEREST IN GAME

"Skat" and High Five at Elks Club Brings Out Some Good Scores and a Great Interest.

The tournament that has been in progress at the Elks club has developed a real interest among the members and incidentally the ladies of the members as well as the men have been participating in the high five tournament although they have been kept out of the more masculine game of "Skat," the well known German card game and which is very popular among the Elks membership here.

The "Skat" tournament is now entering the finals for the three prizes offered and the final contestants will be William Barclay, John Bauer, J. P. Falter, J. V. Hatt, J. W. Holmes, Harry Koresel, B. G. and E. A. Wurl and Clarence Beal. Some real hot battles are looked forward to as the elimination continues and the contestants are showing as much interest over the result as if great issues were depending on the outcome.

The high five tournament is held each Wednesday evening and the ladies have assisted in keeping the interest up by their additions to the luncheons served each evening and Wednesday night has certainly become a red letter event in the families of the Elks.

Dyspepsia is America's curse. To restore digestion, normal weight, good health and peace of mind, get Burdock Blood Bitters. Sold at all drug stores. Price, \$1.25.

Blank books at the Journal Office.
