

MAKE THE MOST OF YOUR INCOME

By intelligent buying and home industry a woman can raise the standard of living as much as the husband who earns the income.

The economy of making clothing at home, even with the assistance of a dressmaker is so great that many women today feel a responsibility to be producers. New patterns and the spring fabrics, on display in our piece goods departments, have been designed to meet every requirement.

H. M. SOENNICHSEN Plattsmouth, Nebr.

MISSOURI MEN GET CAUGHT WITH LICKER

Result is that City Will Have Its First Sale of Confiscated Car Under New Ordinance.

Last evening, Chief of Police Alvin Jones, Sheriff Quinton and Frank Detlef made the capture of two gentlemen on Washington avenue, who were decidedly under the spell of the illicit liquor that comes from the great teeming metropolis of the state...

This morning, Judge William Weber heard all about the troubles of the gentlemen from the "show me" state and dispensed justice with his usual impressive manner and Mr. Hays was given a job of \$100 and costs for transportation of liquor and Mr. Mauphen \$10 and costs for being intoxicated...

ACT OF HEROISM WELL WORTHY OF COMMENDATION

Chester Eager Spends Most of Night in Terrific Storm Enroute to Omaha for Oxygen.

The severe snow storm last Saturday evening was the occasion of one of our citizens performing an act of heroism that has singled him out for the approbation and commendation of all who know about the incident...

By telephoning to Omaha, however, the firm started a man towards Louisville with the oxygen tank and the attending physician, Dr. E. H. Worthman, the nurse, the family and friends awaited his coming with the greatest anxiety. After hours of waiting, they learned that the man had reached Millard under the greatest difficulty, but had returned with the report that it was an impossibility to leave the pavement...

Ten some one suggested that Chester Eager could get through if anyone could, so he was called and the situation explained to him. His response was prompt. He would start at once and before many minutes he was on the road in his Ford sedan, a little before two in the morning...

Such deeds as this help to restore faith and trust in mankind and bring the whole community into closer touch with each other and Mr. Eager has won a high place in the regard of the family and friends of Mr. Stander as well as the whole community.

COOLING SYSTEM INSTALLED

The Hatt Meat Market and grocery store has just installed one of the new Baker ice machines which will in the future be used for the cooling system of the meat market and is one of the latest types of machines turned out by this well known company...

It is of a capacity sufficient to insure ample cooling facilities for the ice boxes in which is kept the meat and will be far more economical and satisfactory than the old method of refrigeration formerly in use in the meat market. Mr. Hatt is expecting to have the new plant in operation Monday as it is now being tested out.

BROOKHART BILL BEATEN

Des Moines, Ia., March 9.—The Brookhart bill for a presidential preference primary in Iowa was defeated by the senate today, 21 to 25. Such an enactment was urged by United States Senator Smith W. Brookhart, in a speech at a joint session of the legislature yesterday...

SEC'Y HUGHES OUTLINES CITIZENSHIP OBLIGATIONS

Washington, March 9.—Obligations of citizenship, as outlined by Secretary Hughes, were outlined today in a telegram made public by the state department and addressed to Roy C. Haines of the Aurora (Ill.) Chamber of Commerce. Secretary Hughes said: "These obligations do not rest solely or chiefly in the exercise of the privileges of citizens in voting or in conducting campaigns or in holding office...

CITY ELECTION DATE IS NOW BUT A SHORT WAY OFF

One Councilman from Each Ward and Two Members of School Board to be Chosen.

In a few short weeks this city will have another municipal election on its hands and while the entire list of city officials is not to be elected, one-half of the present councilmen will retire from office and the selection of their successors is no small matter to the people who will have to pay the taxes or bills in the next year or two and it behooves ye taxpayer and every person who has the future welfare of the city at heart to see that the most competent men are chosen for the offices and who will see that the interest of every resident of the city regardless of what ward he lives in is protected and the business affairs of the city conducted in a manner that will lay no heavy burden on any section or class of people...

The great tendency of the general public is to pay too little attention to the matter of good government and too much to personal prejudice or to false issues that may be raised, but in a small community where everyone knows everyone else, the selection of their successors is no small matter to the people who will have to pay the taxes or bills in the next year or two and it behooves ye taxpayer and every person who has the future welfare of the city at heart to see that the most competent men are chosen for the offices and who will see that the interest of every resident of the city regardless of what ward he lives in is protected and the business affairs of the city conducted in a manner that will lay no heavy burden on any section or class of people...

The election of two members of the board of education also will come before the voters and this includes the election of a district superintendent. The election of this year will be on April 3rd and now is the time to prepare to see that good, competent men are placed in the race.

AN ACTIVE GENTELMAN

One of the active men of the eastern portion of Cass county is A. H. Graves of Murray, who, despite the fact that he is past eighty-two years of age, gets around with greater ease than many men half his age. Mr. Graves was here today and while at the court house secured a hunting license in order to get out and enjoy a little of the outdoor sport of hunting and he stated that he had been able to work every day this winter and that he had no intention of retiring until he is able to do so. He is far past the allotted time of man on this earth. Mr. Graves comes from one of the hardy pioneer families and his mother, one of the grand old women of Nebraska, lived to the ripe old age of ninety-seven years.

FEDERAL INCOME TAX THREATENS PROGRESS

New York, March 9.—Taxation is rapidly becoming unbearable and the federal income tax threatens economic progress, the national industrial conference warned in a statement today. Approximately 14 cents of every dollar earned by the nation in 1922 would be paid in taxes, it was declared.

Federal taxes during 1921-22 took more than half of the total payments of \$5,489,000,000 in that period, or 14.3 per cent of the nation's total income of \$39,300,000,000, according to the statement. In 1913-14, taxes took but 6 1/2 per cent of the national income, it was pointed out.

The burden of taxes, it was said, is making in-roads on the surplus, considered vital to business and industry is hampered because of the excess.

WILL ERECT STATION

The Standard Oil company proposes to keep pace with the trend of the times and have a real modern and up-to-date filling station for the use of the auto traffic and which will be very conveniently located. The Standard company has purchased the lot at the corner of Seventh and Vine streets just west of the residence of Mrs. John Beyer, Sr., and proposes to erect there a suitable station and which will be a very pleasing addition to the general appearance of that portion of the city.

R. Kettlehut of near Nehawka was a visitor in Plattsmouth last Friday looking after some business matters and while here called at the Journal office and advanced his subscription to this paper. Thanks, call again, Brother Kettlehut.

FROM OUT OF THE ETHER

Our new Radio Department to appear weekly on Saturdays.

FORWARD

The increasing number of radio receiving set owners in Plattsmouth and vicinity indicates a growing interest in the things pertaining to radio, and the Journal announces the inauguration of a weekly radio column, to appear on Saturdays. The purpose of this column will not be to discuss the relative merits of receiving sets, hook-ups or equipment or to indulge in technical stuff, but rather, insofar as possible, to point out to our readers the high lights of the various broadcasting stations' programs for the week, together with such other information as we deem of interest to the radio fans. We trust you will "stand by" each Saturday for the brief time it takes to read this column, and if you are interested in its enlargement and continuance, please advise us.

Our call letters will be "ETAO," the first four letters on a linotype keyboard.

THE EDITOR.

For the real southern brogue, the Birmingham, Alabama, announcer has the edge on all the "Down in Dixie" boys.

Fort Worth is going strong on hands this week. Tuesday night and Friday night they had concerts from bands of sixty and one hundred pieces, respectively.

Might be Good on Home Brew, Also

A late invention is said to be a filter that separates the telephone and telegraph waves. Why not get a step further and get something that will separate the good music from the bad, automatically sending the latter to Uranus?

The basketball returns broadcast from Lincoln are making a hit with followers of the cage sport. Tonight at 10:30 the final results of the big tournament will be in the air from the university station.

Don't forget the one hour dance program from Davenport tonight—9:30 to 10:30.

Cold Tube Not Conductor

Those who are in the habit of disconnecting their B batteries when the set is not in operation may be interested to know that this is not necessary, as the tube is a perfect insulator when not lit, and will not permit any B battery leakage.

We have been unable to learn just when the new Omaha station, WOAW will be in the air, but expect its testing wave any day, now.

Chicago is soon to have another new broadcasting station, WJAZ, which will be the show place of the windy city, the studio being located on the main floor of the Edgewater Beach hotel and built of three thicknesses of plate glass, affording full view to spectators who care to watch the work. Paul Reese's orchestra will provide the principal music broadcast from this station, which will be in the air within the next two weeks.

Those who heard DeFord's play at Lincoln Monday night may be interested to know that Bernard Wier, the saxophone king of this city, was back in the orchestra temporarily and helped to put out the fine dance program.

Not Always the Shape Dear ETAO—Last night and the night before, twenty-four stations were at my door. Turned on the juice and let them in. Darned good set for the shape it's in.—H. C. K.

The announcement broadcast from Denver a few nights ago that Secretary Hoover will call a conference next week in an effort to assign different wavelengths, despite the failure of congress to pass the White radio control bill will be pleasing to the fans. Hoover hopes to get the navy to release wave lengths up to 800 and will in turn assign the higher ones to colleges and stations broadcasting purely educational lectures, while the entertainment fea-

THOUSANDS OF FARMERS TO GET RELIEF AT ONCE

Secretary Work Will Put Deferred Payment Policy Into Effect for Their Benefit.

Washington, March 9.—Immediate relief for thousands of farmers located on federal irrigation projects in the west will be made available under a policy announced today by Secretary Work of the interior department. The farmers in many cases had been threatened with ruin through their failure to raise sufficient crops to pay charges due the government for supplying water, and these charges, under the new policy, will be deferred. Three classes of relief will be given under authority of an act passed near the end of the recent session of congress. Extension of time for payment of construction charges on irrigation ditches due during or before 1922 to December 31, 1924, will serve to relieve many farmers from their most immediate problem. The second class of relief will comprise the furnishing of irrigation water during the season of 1923, regardless of deficiencies in payment of past charges, either for operation or construction, due the government, and the third class will permit payment in installments of accrued charges for operation, maintenance and construction.

DAVENPORT'S WEEKLY PROGRAM

The Journal now receives WOC's advance program and is pleased to pass the important parts of it along to readers of this column. Sunday night at 6, the usual 30-minute pipe organ concert will be given, followed by church services from the Calvary Baptist church, Davenport, at 7 p. m. Beginning at 8 there will be a 2-hour musical program by the P. S. C. orchestra and the Genesee Male Quartet. Chimes concert every week day night except Wednesday at 5:45 and Sunday's visit every week day night except Tuesday at 6:35.

Monday night, musical program by East Moline, Ill., Rotary club, at 7, followed by educational lecture at 8:30. No broadcasting from WOC on Tuesday night. Pipe organ concert at 7 and program by Davenport American Legion band at 10. Thursday night, Hawaiian program at 7.

Friday night, P. S. C. orchestra program at 7, followed by educational lectures, one by John W. Gamble, former superintendent of schools here, at 8:30. Saturday night, vocal and instrumental program at 7, and one-hour dance program commencing at 9:30 to music furnished by the P. S. C. orchestra.

ETAO SIGNING OFF THIS SPACE UNTIL NEXT SATURDAY

"All right, Joe, shut her down."

SUFFERING FROM ERYSIPELAS

W. T. Smith has been confined to his home for the past few days with an attack of the very annoying malady of erysipelas that has kept him confined to his bed for the greater part of the time and has proven a very trying ordeal. The many friends of Mr. Smith are hopeful that he may soon be able to be up and around again as usual.

WANTED TO BUY

Fifty-five bushels spring wheat.—Frank A. Cloidt. mS-2td,tw

Whose Journal do you read?

Whose Journal do you read?

Experience has demonstrated that great individual injury upon reclamation projects is not always rewarded with success and that even the hardest of labor will not overcome a defective plan of farming. Applicants for relief, therefore, will be required to show the plan of farming they are following and if the plan is defective they will be advised to change it. The nature of relief given will depend largely upon their co-operation in this matter.

"The law does not contemplate the indiscriminate granting of relief, but care will be used to treat fairly all deserving cases."

Advertise your wants in the Journal for results.

Mendenhall's Imperial Herefords IN DISPERSION SALE Fairbury, Neb., Friday, March 23, 1923 12:00 O'Clock Sharp 14 Bulls!—74 HEAD—60 Females! CAPITOL INQUIRY ENDS; NO ACTION

Architect Denies Contract Price for Stone Excessive, in Reply to Charges of Johnson.

Lincoln, March 9.—The state capitol commission investigating charges against Bertram Goodhue, New York architect in charge of construction of the new state house, adjourned today without taking any action.

Governor Charles W. Bryan made public a statement filed by Mr. Goodhue in reply to charges preferred against him by George E. Johnson, secretary of the state capitol commission, to the effect that Mr. Goodhue recommended a contract for the purchase of stone which proved to be costly to the state, that he let contracts without consulting the commission, and that mistakes had been discovered in his specifications.

Goodhue, in his reply, declares that the price for stone in the contract made with the Henry Struble Cut Stone company of Chicago is not excessive, and that other quarries, where Mr. Johnson asserted the stone could be had cheaper, had a chance to bid, and did not.

He declares that minor changes in plans and specifications accompany the construction of every large build-

ing and that such changes are absolutely necessary.

Governor Bryan said he will give out a shorthand record of certain parts of the hearing as soon as it is transcribed.

He also said he received a letter and telegram from Walter W. Head of Omaha, a member of the commission, denying a report in a morning paper that there had been friction at the secret capitol commission inquiry, between the governor and Mr. Head.

To this the governor also added his own denial.

BACK HOME AGAIN

Yesterday afternoon, Raymond Larson, commander of the local Legion post, returned from Omaha, where he has been for the past two months at the Methodist hospital in that city recovering from an operation. Ray has had a hard experience and his cas was complicated by a severe cold which retarded his recovery, but he is now feeling fine and in a short time will have fully regained his strength and be ready to take up the problem of handling Uncle Sam's mail. He expects to be taken off of sick report in a short time and mark duty, as they say in the army.
