YOUNG MAN IS KILLED IN RAILROAD ACCIDENT IN EAST

Floyd Woodard, Son-in-law of Mr. and Mrs. W. F. Clark, Dies in Railroad Accident.

From Monday's Daily: A message was received here yesterday by Mr. and Mrs. W. F. Clark, Ky., of their son-in-law, Floyd Woodard, a fireman on the Chesapeake & Ohio.

The death of Mr. Woodard occurred in the shop yards of the railroad but the message did not give the details as to how the unfortunate young man came to his death. Mr. Woodard was formerly a member of the 29th infantry stationed at Fort Crook and while there was married to Miss Jessie Clark of this city, and after his discharge from the service was employed at the Burlington shops here in the store department. He and his family left Plattsmouth on February 22 for Hurricane, West Virginia, the old home of the Woodard family, and they have since made their home there until the tragic death broke the family circle. Mr. Woodard leaves the wife and one child, ten months old, as well as several brothers and sisters to mourn his death.

The funeral services and interment will be at Hurricane, the home of the family.

ELECTED AT HASTINGS

At the recent municipal election at Hastings, C. E. Pratt, formerly superintendent of the city schools of Plattsmouth, was elected as a member of the board of education. Mr. Pratt, who is now the president of the Hastings Business college, had the distinction of polling the largest vote receiving the greatest majority of any of the candidates for the board of education. With his long experience in school work, Mr. Pratt should be a valuable man for the Hastings schools in his new position and his many friends in Plattsmouth will be pleased to learn of his selection.

VERY SERIOUSLY ILL

Luke Fullerton has been confined to his home for the past few days with a very severe attack of pleurisy and which has caused the young man a great deal of suffering. His condition Saturday was very grave and pneumonia seemed threatening but this morning he was reported as showing some improvement although still quite seriously ill.

HASTINGS COLLEGE GLEE CLUB SCORES SUCCESS

"The Fire Prince," Presented at the High School Auditorium, Most Delightful Operetta.

The Hastings college glee club that is now making a tour of the state, brought to this city Saturday evening one of the most delightful musical entertainments that has been heard in Plattsmouth in a long period of years and one that in every way reflected on the young people comprising the cast, the greatest of credit.

The high school auditorium where the operetta, "The Fire Prince," was given, was filled to its capacity and the generous reception given the players and their various numbers attested the feeling of appreciation of the audience at this form of entertainment.

Every detail of the production was perfect. It was well staged with scenery and the costumes were elaborate and beautiful, but in the enjoyment of the operetta, the audience forgot the surroundings in the inspiration of the beautiful and well trained voices of the members of the party in their various numbers.

It would be unfair to give any individual member of the cast a special commendation as each one was a vital factor in the splendid success of the operetta and the well trained chorus of the entertainment gave to the solo numbers a fitting accompaniment.

Accompanying the operetta was a special orchestra, composed of students from the college and whose work was perfect in every way and gave strength and beauty to the performance.

The residents of this portion of the state are not familiar with Hastings college, but if this institution is to be judged by its glee club, it must be one of the best in the state and certainly no organization could have given a more pleasing presentation of a musical entertainment than did the young people of this organization.

D A R HOLDS FINE MEETING

Fontenelle Chapter Meets With Mrs. E. H. Wescott at "Sunnyside" Yesterday Afternoon.

From Tuesday's Daily: Yesterday afternoon the ladies of the Fontenelle chapter of the Daughters of the American Revolution held a very delightful meeting at the pleasant home of Mrs. E. H. Wescott on high school hill and which was very largely attended by the members.

The chief of feature of the afternoon was the very interesting address of Mrs. J. S. Livingston, as a part of the study of the history of Nebraska and in her remarks Mrs. Livingston covered many points of interest including the championing of the Nebraska bill by Stephen A. Douglas, the first election in which statehood was submitted and what was particularly interesting touched on the part that Cass county had in determining the question as to which was to decide the contest and it was shown that in the end the irregularities claimed and as the result statehood was accepted. Another phase of her remarks was that of the early transportation systems, the Union Pacific railroad and later the Burlington. She also told a few interesting facts relative to the early settlement of the county.

Mrs. William Baird, delegate to the state conference, gave a report of the proceedings and paid a very fine tribute to Mrs. W. S. Leeche who had the memorial program in charge and had looked after this part of the conference in a very fine way that had brought praise from the state president general of the order who was in attendance at the conference.

The ladies enjoyed a most delicious supper at a suitable hour and which was in the nature of a covered dish supper and each lady had brought some dainty to add to the feast that had been arranged and it was one that will long be very pleasantly remembered by all of those in attendance.

MONT HAS GREAT EXPERIENCE

Mont Robb, who is known as far as the confines of Nebraska as one of the most genial and pleasant of gentlemen, had a novel experience Sunday and which many a man would have enjoyed much more than Mr. Robb. It seems that Sunday near the middle of the day a stranger appeared at the Robb home in Union and requested permission to rest for a moment and poured forth a tale of woe that touched the heart of Mr. Robb and when the stranger requested permission to leave two heavy grips there until train time, Mr. Robb, with his usual hospitality, consented, as the stranger had first stated he was anxious to catch the northbound bus but which does not run Sunday. Nothing more was that of the matter until late Sunday afternoon about the time for the northbound Omaha train when one of the Union young men appeared on the scene and stated that he had been sent by the stranger to secure the grips. They were turned over to him and as the train pulled in Sheriff Ryder of Otoe county alighted from the varnished cars and "pinched" Mr. Stranger and the two grips which, on being opened, disclosed many bottles of rare old "moonshine" liquor. Since the occurrence Mont has been receiving many calls from arid friends all over Union.

SERVES ON COMMITTEE

The annual Upper Class "Prom" of Rockford college at Rockford, Illinois was held last Saturday evening at the college and among those taking part were Miss Alice Pollock, of this city, daughter of Mr. and Mrs. T. H. Pollock, who being a member of the Sophomore class was a member of the dinner committee for the big annual spring social event of the college.

STILL QUITE POORLY

Mrs. Allen Beeson, who has been confined to her bed at the home of her daughter, Mrs. H. H. Cotton, for several weeks, is still quite poorly although she has recovered to some extent from her attack of the grippe. Mrs. Beeson is eighty-seven years of age and the attack of sickness has proven quite severe on her.

FARMER'S STATE BANK CHANGES

CONTROLLING INTEREST IS SECURED BY T. H. POLLOCK; TO BE REORGANIZED.

From Tuesday's Daily: The formal change in the management of the Farmers' State bank of this city was made today and gives the community another very strong banking institution as the controlling interest of the bank is in the hands of Mr. T. H. Pollock, well known business man and financier of this portion of the state.

The meeting of the bank was held last evening and the new officers elected for the year being: T. H. Pollock, president, Edward P. Lutz, vice president; James K. Pollock, assistant cashier, and the position of cashier is left vacant for the present. The directors named were T. H. Pollock, Charles A. Patterson of Arapahoe, Edward Donat and Edward P. Lutz.

The new organization has taken over the bank and placed it on the firmest financial foundation and should give the city one of the strongest banks in this portion of the state as they have wiped out all of the objectionable loans that might be in the bank and start with a strong foundation for a real conservative and safe banking system which they expect to make their future policy.

Mr. T. H. Pollock has the controlling interest in the bank and Mr. Charles A. Patterson, former Plattsmouth citizen and one of the well known bankers of the state, located at Arapahoe, has a large block of stock in the bank and a few of the original stockholders of the Farmers' State have retained their shares in this new and live financial institution.

There is no one in the community that will not be very much pleased with the strong combination of capital that is in the bank and the new owner of the bank has placed his money in the banking institution to place it on the safest foundations and the banking force in every way, that can be depended upon to be safe and sound at all times and in strict accordance with good banking practice and the banking laws of the state.

It is hardly necessary to offer words of introduction for Mr. T. H. Pollock, the new president of the bank, as he is a lifelong resident of this city and one of its most successful financiers and business men, and his splendid conduct of his private interests is an assurance that he is well qualified to handle the management of the bank in the same manner and which will give Plattsmouth and Cass county another financial institution which will be safe and sound in every way.

The new assistant cashier of the bank, Mr. James K. Pollock, is one of the best qualified accountants in the state and his work in the bank will add to the business ability of the banking force in every way. The vice president, Mr. Lutz, is well known as one of the safe and conservative business men of the community and has real ability in this line that will assist in making the bank safe and strong.

With the excellent board of directors and his splendid opportunities that he before it, the Farmers' State bank should advance rapidly in the banking circles of the state and will find back of it the confidence of the community in general as the ability and steadfast financial integrity of the new organization is without question.

The first prize was secured by Mr. and Mrs. Victor Hall, while the second prize was won by D. O. Thomas and Miss Iola Kopschka.

HIGH FIVE

A representative of the school again took first prize. It seems that excellent is what the students of the Bellevue Vocational Training school do the most best. This time it was in one of the branches of indoor sports. The Royal Neighbors of America, Bellevue unit, gave a card party Friday, March 30th, and several of the students attended. All had a fine time and enjoyed the playing of high five but it was up to Charles LeHoda to cop first prize.—Bellevue Vocational Journal.

YELLOWBERRY IN WHEAT

Yellowberry in wheat indicates a soft starchy condition of the kernel; it shows poor quality and low protein or gluten. Flour made from it is low in quality and for this reason yellowberry wheat always sells for several cents per bushel below equal grades of good colored wheat.

Yellowberry is not easily prevented. In fact it will always occur in some cases in spite of all that can be done. When the causes for its production are clearly understood, there is good reason to believe that much of it can be prevented.

Yellowberry occurs more often in humid climates, in wet seasons, on sandy soils and on soils deficient in nitrogen. Most authorities and experimental data indicate that any treatment which will make more nitrogen available will reduce yellowberry.

Early preparation of the ground after harvest and the use of legumes in the rotation tend to increase the supply of available nitrogen and reduce yellowberry. Fortunately both practices can be highly recommended from the viewpoint of better yields and safer farming. Early preparation of the ground in experiments in Kansas, for example, have increased the average yield from 25 to 100 per cent, depending on the soil and the location. Good rotation will in most cases result in further increases in yield and reduce the risk of loss. This appears to be one case where better quality of wheat, larger yields, safer farming and larger profits go hand in hand.

ASK FOR RESTRAINING ORDER

From Tuesday's Daily: This morning an action was commenced in the district court entitled Clarence G. Mayfield et al, against Edward and Hannah Ingram and in which the plaintiffs ask that a restraining order be granted to prevent the defendant from trespassing on lot 478 in the village of Louisville, in the absence of District Judge Beeson, a temporary restraining order was issued by County Judge Beeson against the defendants. Both parties claim title to the property involved.

OMAHA PARTIES GET INTO MIXUP

Apprehended Last Night on Platte Bottom Road by Sheriff Quinton and Chief Jones.

From Tuesday's Daily: Last evening Sheriff C. D. Quinton was called out to the Platte bottom road by the report of a party of men in the state of intoxication and in company with Chief of Police Jones, he hastened out to locate the gentlemen and found them resting in their car and they were brought on into this city and lodged in the county bastille for the night.

This morning the two men were brought before Justice William Webster to receive a hearing for their offense and the state was represented by Attorney C. A. Rawls, acting county attorney. One of the men stated that his name was Phil Dinuzzo and that he was a barber employed in the metropolis and at first denied being intoxicated but later pled guilty to the charge. The second of the men gave the name of Clarence Minkus and acknowledged that he had had a few drinks and that he had been driving the car in which they were riding. The court and Mr. Rawls gave them a severe lecture on the folly of strong drink and the evil that it brought as well as the danger of driving an auto while intoxicated and in addition the court placed a fine of \$20 and costs on both of the men which totaled the sum of \$29 and the two men were turned back to Sheriff Quinton to be his guests until they could secure funds from Omaha for their release.
