School Notes

The seniors went on their sneak day trip to Omaha Monday. They started about 6:30 and did not return till about 6 in the evening. They had a good time despite the fact that they got stuck in the ditch twice.

The juniors are planning to decorate for the junior-senior banquet as soon as they can get to it. The affair will be held Friday evening at the school house in the home economics room.

Vera Martin felt very bad that she could not be in the program Monday evening. She ran a nail into her foot and, although it is getting along nicely, she is not able to use it.

Miss Owen accompanied the seniors to Omaha as Mr. Burby had to go to Lincoln. Probably our rains are over now

and they say things were "dirt" cheap years ago!

In 1770, when \$1,000 bought a mansion, men paid 75 cents for a cubic inch of crude rubber and considered it a bargain. We can sell you the famous GOODRICH SILVERTOWN CORD TIRE today—the finest the world produces—at prices that would astonish our forefathers. Come and get one!

till commencement night. The seniors seem to have had bad luck that way for all their affairs this year. The big buss got stuck four times coming to school Tuesday morning.

SUFFERS FROM DOGBITE

Jerome St. John, well known resident of Nehawka, is nursing a sore thumb as the result of being bitten by his pet bull dog while attempting to aid the animal a few days ago. The dog was out with Mr. St. John and a friend and suddenly started out in pursuit of a jack rabbit that showed speed and a very lively race was enjoyed until the pursued and the pursuer came to a barb wire fence.

The rabbit made his way through the fence all right, but when the dog attempted to make the fence he became impaled on one of the barbs and emitted loud barks and cries that attracted Mr. St. John who hastened to the scene and attempted to aid his dogship, but the animal infuriated by the pain of the wound inflicted grabbed Mr. St. John by the shoulder and when he shook the dog loose, the animal bit him in the finger. However all are getting along all right, the rabbit, the dog and Jerome.

Have you ever noticed how every body else should do something?

This does not mean the privilege of attending caucuses or being a spellbinder among the hard-working ward or precinct politicians, but means the right of enjoying the better things which the advancing civilization has brought to us—freedom from sweltering over a heated cook stove during the hot summer days, for instance. We claim that's every woman's right.
