Plattsmouth and Omaha

The Plattsmouth region and Omaha have much in common.

Think for a moment what each means to the other. Omaha provides the market where you can most advantageously sell the products of your lands and purchase the articles you want. Plattsmouth helps to make and keep Omaha a desirable market.

Your interests and Omaha's are very closely linked. Each community needs the other.

Omaha values this bond of mutual dependence, and the spirit of friendliness and good will that has developed with it. Let us tell you what Omaha has and does to further these pleasant relations. Write for free booklet.

poor lubrication is the shortest road

Is your motor headed for

the junkpile?

UTOMOTIVE engineers and automobile repair men know that poor lubrication hurries more motors to the junk pile than all other causes combined.

Your motor may be headed in that direction, even though you keep oil at the proper level. It is not the amount of oil but the kind of oil that counts. If the oil you use breaks down and runs thin just as soon as the motor gets warmed up, every moving part is subject to extra strains, vibration and wear.

Polarine will guard against these dangers, it will keep a motor like new for years and save a lot of preventable expenses that you will surely face if you get the bad habit of asking for a "quart of oil" instead of a "quart of Polarine."

Polarine has stood the test of service for many years. It is made in one unsurpassed quality, in five grades-light, medium, heavy, special heavy and extra heavy—a grade to meet the lubrication needs of every type of motor. Ask for Polarine by name and be sure you get what you ask for. Sold where you see this sign.
