

More Cars Shake Themselves to Pieces Than Ever Wear Out

Charge that up to vibration.

Vibration causes cars to grow old prematurely by racking their chassis, destroying the "metal life" of vital parts, loosening up their bodies and causing squeaks and rattles. Frequent, costly repairs are the result.

The Studebaker Light-Six is freer from vibration than any car of its approximate size or weight yet produced.

This has been accomplished largely by a complete machining of the crankshaft and connecting rods on all surfaces-a practice used by Studebaker exclusively on cars at this price and found only on a very few other cars whose selling prices are from three to ten times as high as the Light-Six.

There are 61 precision operations in the manufacture of the crankshaft alone, 40 of which range in accuracy

from one-quarter thousandth to one thousandth of an inch.

The Light-Six motor embodies the most advanced design known to automobile construction. And no chassis at any price is built to more exacting standards of materials and workmanship.

Aside from its mechanical excellence and its consequent long life, the Light-Six is handsome in design, extremely comfortable, sturdy, and we believe the most economical car to buy and operate ever offered at \$975 or anywhere near this figure.

Its substantial all-steel body, onepiece, rain-proof windshield, ten-inch cushions upholstered in genuine leather, cowl lamps - these are among many features heretofore to be had only in higher-priced cars.

For 71 years the name Studebaker has stood for integrity, quality and value.

Power to satisfy the most exacting owner

GREENWOOD PEOPLE DISCUSS GOOD ROADS

Delegation of Some Thirty of Residents of West Part of County Here This Morning.

From Wednesday's Dany.

This morning there was a delegation of some thirty of the residents of Salt Creek precinct and the town of Greenwood, headed by Walter Pailing and Col. Phil Hall, the bankers of that place, visiting with the board of county commissioners to discuss the good roads question.

Theer is a section of some eight miles near Greenwood that is part of the federal and state highway syswith the county managers the sums which had been and were in prospect for expenditure on the road that is Cass county's part of the system.

It is not often that so many of the residents from that portion of the county visit this city and it was a pleasure to meet so many of the good and substantial residents of Salt Creek here as guests in our city.

The meeting was very pleasant and the commissioners pleased with the interest shown in the good roads work in that part of the county and to the delegation the full details of the Greenwood project as to its past and future cost made plain. A number of the party were in favor of securing if possible a graveled section of the road that will fall to Cass county's share of the system.

The Greenwood delegation was composed of the following: Fred Holka, J. C. Lemon, Nelson McDowell, George Pierson, P. E. Clymer, Philip Reece, L. V. Sheffer, o'clock a. m., and will continue in P. L. The offer of the Ad club is one that will tempt the young men and women of the county to hold their weddings in Plattsmouth on that date. For the first bride, a Cass county girl, who is married in Plattsmouth on June 20th there will be given a \$10 gold piece, a \$5 bouquet presented by George Conis, a free marriage license and free wedding ceremony and a free dinner for the bride and groom

Now this is a golden opportunity for the young people about to launch into the matrimonial sea, as it is expected that later several of the merchants will give special prizes to the brides of that date. Only Cass county girls are eligible for the prizes and those who are contemplating matrimony should come to Plattsmouth on that date to say "I do."
