TWO KILLED! ONE DYING IN STORMS THAT SWEEP STATE

Cloudbursts and Hard Electrical Storms in Nebraska, Iowa and Dakota; Much Damage.

Two persons were killed and one injured by lightning during rains and thunderstorms which deluged Nebraska, Iowa and the Dakotas yesterday.

Frank Greisen, 40, farmer, living seven miles northwest of Platte Center, was instantly killed when he went into a garden at his home to dig a small drain ditch. He is survived by his widow and three children.

Mrs. Roy Lamley of near North Bend, Neb., was probably fatally hurt when struck by lightning as she was seated on the porch at her home during the storm. She was unconscious when found by neighbors.

The lightning struck a transformer on a light pole at Fremont and the current was paralyzed throughout the city for more than an hour.

A cloudburst deluged Columbus and vicinity. The rainfall of less than three hours had measured 3.05 inches.

Lightning razed trees and telephone poles and wrecked farm building and chimneys. All the streets were flooded. Hall, accompanied the storm, sweeping a wide swath south of near David City, and second corn plantings and winter wheat fields were washed out. Hundreds of birds were killed.

In the Republican river valley considerable damage was done. Power plants were put out of commission, and a part of the dam of the Southern Power company at Superior went out.

Six inches of rain fell in the vicinity of Osceola, Neb. Two inches were reported near Creston and crops were said to be badly damaged west of Hooper. Nearly an inch of rain fell at Fremont and nearly an inch and one-half fell in one hour near Norfolk.

Gulches in the vicinity of Pierre, S. D., were raging torrents following a downpour of nearly three inches. Northwestern tracks west of Fort Pierre were washed out, tying up traffic. A troop train en route to the state encampment of Dakota guardsmen was held up at Blunt, S. D.

SCOUT CAMP AT LOUISVILLE IN A FINE LOCATION

Located in a Beautiful Section of Country and Equipped in All Ways for the Boys.

The boy scout camp near Louisville that has been established this year by the Lincoln council and which will be attended from June 26 to July 5 by the boy scouts of Plattsouth, is an object of the greatest interest to the parents whose boys are members of the organization.

The camp has been highly organized to care for the boys and ample supervision made so that the scouts will enjoy the best of care and at the same time have a real outing in the great outdoors.

The region where the camp is located is rough, gullied and diversified. It is heavily forested and is beautified by steep hills, bluffs, walls of rock and by the Platte river and its broad valley. Within easy hiking distance and many important industries such as stone quarries and crushers, sand pits and dredges, gravel beds and the Nebraska state fisheries.

The route laid out for the hikes are along shaded roads, which wind thus bringing to view fresh scenes and there is a new road and a fresh objective for every day so that the interest of the scout will not lag.

The camp will be conducted along lines similar to the organized military camp and the scouts will hit the line at 6:30 each morning and lights out at 9 o'clock in the evening.

Why Suffer from Rheumatism

Do you know that nine out of every ten cases of rheumatism are simply rheumatism of the muscles or chronic rheumatism, neither of which require any internal treatment? The pain may be relieved by applying Chamberlain's Liniment which makes sleep and rest possible, and that certainly means a great deal to any one afflicted with rheumatism. Weyrich & Hadraba.

FARMS FOR SALE

Two good farms four miles south of Plattsouth, well improved. 160 acres at \$225 per acre; 135 acres with two sets of improvements at \$200 per acre. Also one modern house and eight other residences in Plattsouth for sale. Cass county land for sale—207 acres at \$125 an acre; 200 acres at \$100 per acre. F. G. Sam Goodman Very Sick

Sam Goodman the broom maker, who has not been feeling very well for some time past is at present confined to his bed and considered as being a very sick man. Last week there was held a school meeting at the school building in Manley at which among other things the election of a new member of the board of education to take the place made vacant by the expiration of the term of H. FEELING VERY POORLY

Sam Goodman, well known over the county, is quite poorly at his home in Manley, being troubled with what seems to be an attack of asthma and his condition has grown such as to cause more or less apprehension to the members of the family.

Mr. Goodman has been making his home for a part of the time with his sister, Mrs. Adolph Steinkamp, but is now living in Manley. His condition is such as to make it necessary to have a trained nurse with him the greater part of the time. The sick man is a brother of George Goodman, superintendent of the county farm.

"Chamberlain's Tablets have been used by my husband and myself off and on for the past five years. When my husband goes away from home he always takes a bottle of them along with him. Whenever I have that heavy feeling after eating, or feel dull and played out, I take one or two of Chamberlain's Tablets and they fix me up fine," writes Mrs. Newton Vreans away from home. Take these tablets when troubled with constipation or indigestion and they will do you good. Weyrich & Hadraba.

THE Vacation Thrill of a Lifetime

Glacier National Park

The Low Cost of the Trip Will Surprise You

Up there in the Northern Rockies there are fifteen hundred square miles of breathing room—loading space; great forests, sparkling streams, filmy waterfalls, exquisite mountain lakes, slow-moving glaciers, cloud-swept mountain peaks and myriads of many-hued wild flowers.

Go this summer and refresh your soul! To breathe the breezes, quickened by the glaciers, flavored by the mountains and streams and perfumed by the pines and flowers is an experience you never will forget. Where mountain sheep pose on the edge of space you will find mammoth rustic inns. Where the Black-foot Indians pitch their teepees among the pointed peaks you'll find cozy Alpine chalets.

If you are a fisherman, there are trout to battle with. If you are a hiker, there are sky-line trails to follow. If you love to ride, mountain ponies will carry you along the Continental Divide, the Backbone of this Continent. If you like to row, there are waters to explore. If you prefer to camp, there are scores of ideal spots on the shores of glinting lakes. The chalets (little hotel villages in the mountains) are delightful tarrying places. More elaborate accommodations are provided at the inns.

The whole service scheme in Glacier blends completely with the outdoor idea. Follow the dictates of your fancy. Better go this summer. 'Twill do you a world of good!

Burlington service takes you direct. You can continue on to the Pacific Northwest and return via Yellowstone and Colorado if you wish.

As this is National Travel-West Year, I suggest that you make reservations early and avoid the possibility of disappointment.
