

STUDEBAKER BIG-SIX TOURING CAR \$1750

You Can Buy More Weight— But You Won't Find a Better Car

In the Studebaker Big-Six you get all the performance, all the comfort, and all the dependability that any car can give—at a price that smaller producers cannot even approach.

The Big-Six Touring is a seven-passenger car with a seven-passenger motor and seven-passenger dimensions throughout. It distinctly is not a seven-passenger body mounted on a five-passenger chassis.

The Big-Six will take the steepest hills on high. It will maintain a high rate of speed over long stretches hour after hour. No car provides more restful riding—none is easier to operate. None is freer from frequent repairs.

Equipment is complete, even to an extra wheel with tire, tube and tire cover.

Its low price is due to large volume and to the fact that Studebaker overhead is shared by three models—all sixes. Then, too, only one manufacturing profit is included in the Big-Six price because all vital parts are manufactured in Studebaker plants.

If you spend more than the Big-Six price you can buy more weight and bulkiness and pay more for overhead and operation, but you will not get a better automobile.

Studebaker has been building quality vehicles for 71 years.

FUNERAL OF A. G. ROMAN IS HELD YESTERDAY

Residence Filled by Friends and Neighbors to Pay Their Tributes of Esteem.

From Wednesday's Daily Yesterday afternoon the funeral services of the late A. G. Roman were held from the home of his son, Edwin Roman and were quite largely attended by the old friends and neighbors from this city and vicinity to render their last tribute of love and respect to his memory.

During the service Mrs. E. H. Wescott sang two of the songs requested and which had been such favorites of Mr. Roman in his lifetime. The services were conducted by the Rev. F. E. Pfoutz of the First Methodist church and in his remarks the pastor paid tribute to the life of the departed and spoke words of comfort to the relatives and friends.

At the conclusion of the services the body was borne to Oak Hill cemetery to be laid to rest, the pallbearers being selected from the members of the Roman family as follows: Bestor, Mike Tritsch, Charles Hula, William Barclay, C. E. Martin and J. P. Falter.

The following obituary of the deceased was read by Rev. Pfoutz at the funeral services: Andres Gustaf Roman was born in Sweden on the 19th day of May, 1858. The years of his youth were spent in that country. In the year 1880 the family came to America and in the spring of that year they located at Elk Point, S. D.

For a few years Mr. Roman farmed in Dakota, removing later to Sioux City, to follow the blacksmith trade. Thirty-eight years ago he came to Plattsmouth and has since made this city his home, being employed by the Burlington railroad.

Four years ago the 5th of July, Mrs. Roman went into her reward and since that time, Mr. Roman has made his home with his son Edwin and family.

Mr. Roman was married June 3, 1885, to Hausina Housen. Seven children came to bless their home. One daughter, Mrs. Holberg, left for the House of Many Mansions on May 10, 1915, and Carl on July 14, 1893, being less than one year old.

Those left to mourn are four sons and one daughter, Edwin of this city, Giles, Henry and Francis of Kansas City and Miss Ruth of Plattsmouth. There are also two brothers and two sisters, Olaf Roman of Shelton, Washington, Mrs. Oscar Sanburg of Lake City, Iowa, and Charles Roman and Mrs. Tilda Olson of Sioux City, Iowa. There are two grandchildren, Edwin and George.

Mr. Roman joined the Lutheran church in Sweden when he was 14 years old. He has held this matter of considerable value in the building of life. Since coming to Plattsmouth, he transferred his membership to the First Methodist church where he was always interested and working in the various activities. About a month ago he was in Mr. Tild's Sunday school class of which he was a faithful member, being one of the 29 who organized the class. He also held membership in the B. P. O. E. of this city.

One of the well known residents of our community, a Christian citizen respected and esteemed, has gone from us. We who are left to carry on the community's work will ever cherish his memory and be glad he has left his impress on our hearts.

YOUNG PEOPLE PUT ONE OVER ON THEIR FRIENDS

Mr. Sanford Short and Miss Sophia Seiver Married at David City—Surprise Friends.

From Wednesday's Daily. Two of the well known young people of this community, Mr. Sanford Short and Miss Sophia Seiver, pulled off a real surprise on their friends the past week when they were quietly married at David City, Nebraska, and it was not until yesterday that the announcement of the wedding was made by the young people.

The young folks had motored to David City to visit Miss Annie Seiver, a sister of the bride, and there decided to join their lives as one and to be united in marriage and accordingly the ceremony was performed and the two returned home as husband and wife but keeping the fact a dark secret from all but the immediate family of the bride.

Yesterday the announcement of the wedding was made and the bride and groom have been busy receiving the congratulations of their many friends.

The bride is the youngest daughter of Mr. and Mrs. Hans Seiver and has grown to womanhood in Plattsmouth and is very popular among large circle of friends and associates and has been quite active in the work of the St. Paul's church and also has been one of the efficient employees of the telephone company here for a number of years.

The groom is the son of Mr. and Mrs. J. H. Short and has made his home here since his return from the service of his country in the World war and is at present engaged in the auto repair business here.

The many friends will join in wishing Mr. and Mrs. Short a long and very happy married life in the years to come.

INSTALL A NEW COOLING SYSTEM AT THE PARMELE

Banishes Heat and Makes Interior of Building Very Pleasant For the Audience.

From Wednesday's Daily. The heat and humidity of the summer season has no place at the Parmele theatre as the installing of a blizzard ventilating and cooling system has been completed and was in service last evening, making the place one very pleasant and enjoyable to the audience and which gave little hint of the hot atmosphere prevailing on the outside of the building.

The cooling and ventilating system is situated on the stage of the theatre and is in constant operation drawing out the heated air from the theatre and replacing it with the cool breezes from the gigantic fan that is part of the equipment of the system.

The new equipment will provide Messrs. Clويد and Moore with a very efficient method of cooling off the theatre and will make it as enjoyable in the summer months as in the winter season.

YEGGS CLEAN WALTON BANK IN DARING HOLDUP

Flash Guns on Cashier and Assistant and Make Away With Twenty-three Hundred.

The little town of Walton, seven miles east and one mile south of the G street road near Eagle, stumbled Tuesday afternoon while two yeggs robbed the bank of approximately \$2,350. The loot included \$300 in Liberty bonds, S. E. Cople, cashier, and Miss Thelma Shultz, his assistant, were covered during the process of looting. They were then locked in the vault but were out in about four minutes after the cashier had successfully removed seven screws

by aid of a key and lifted the combination. H. K. Frantz of Eagle is president of the Walton State bank.

The village came to life immediately. Several persons recalled having seen the car either going or coming. Two men working in the school house yard a half block to the east saw the automobile, described as a 1922 Dodge, come to a stop along the south side of the bank. The entrance is to the east. But whether they came from the east or the west, nobody seems to know. One man said that the car carried a Lancaster county number. He was reasonably sure of the two-dash but could not recall the other numbers.

The job was done in a hurry. Approximately three minutes after the yeggs entered the bank, they made their departure. They had cleaned the place of all currency in safe and drawer. Four sacks of silver were taken. One bag contained about \$95 in silver dollars and half dollars. The other three bags held more than \$300 in nickels, pennies and dimes. A pack of customer envelopes all sealed and placed in the safe, were removed but dropped by one of the bandits on a nearby shelf. Silver in a till on the counter was not disturbed. A cigar box in the vault containing \$96 was overlooked. Bonds to the value of \$150 also were passed up.

Early Tuesday morning a strange car bearing an Iowa number was seen here by Officer William Heinrichsen and the parties stopped here for a lunch about 3 a. m. and from the description of the men it seems to tally with that given of the Walton robbers. The two men here were accompanied by two women. The local authorities are of the opinion that perhaps this was the party that raised the havoc at the Walton bank late yesterday afternoon.

AIRDOME TO OPEN SATURDAY

The opening of the Airdome which has been projected for the last few weeks has definitely been decided upon for next Saturday evening and will give the Plattsmouth people an additional place of amusement for the summer months and one that they will thoroughly enjoy. The management will be the same as last year as regards the pictures and high class vaudeville and the new amusement place will strive to give the Plattsmouth people the best possible attractions in the way of high class releases in the movie line and also good, clean, refined vaudeville that is certain to please everyone.

The more extensive announcement of the opening will be made later and the program for the opening night given.

A week from today is the glorious Fourth. Prepare yourself for a pleasant occasion at Wiles' woodland. Everybody is talking about it. What? The community picnic, and everybody is going to be there, too.

LOOK OVER PAVING

From Wednesday's Daily. This morning a number of the members of the city council motored to Red Oak, Iowa, where they will look over some of the paving work that is being carried on there and particularly the vibrolithic paving, one of the newest methods of work that is being used quite extensively in the Iowa city. This is one of the types of paving under consideration for use in the new paving districts here.
