

**CASS CO. FARM BUREAU NOTES**

Harvest Labor. 128 men have been placed through the farm bureau office. The men are coming very regular.

Farm records. During the visit to farmers in the following precincts: Tipton, Weeping Water and Eight Mile Grove, we found about 75 per cent whose record books are well kept. The twenty-four farm records will be of value this December when they are summarized.

Caponizing. A demonstration was held at H. L. Scattergood of Eagle. Twelve cockrels were caponized. Mr. Scattergood and Mr. Fall say they wish to try a few and if they prove successful will caponize more.

Eileen sewing club meets. Six girls and their leader Mrs. Elmer Johnson met at the home of Mrs. Mary Tenant, Cedar Creek, Monday July 16. The girls have completed their princess slips and a judging contest was held judging the slips. The most important thing emphasized was the splendid general effect of these slips and the good workmanship.

K. K. A. club meets. Friday evening at 8 o'clock every member of the K. K. A. club of Weeping Water and their leader Stella Spangler met at the home of Wilma Burch. A lengthy and interesting business meeting was held after which plans were made for cutting the dress protector. The best way of cutting the material and sewing dress protector were also discussed. The girls are planning to have these finished by the next meeting.

Rosebud clothing club. Tuesday, July 17 ten members of the Rosebud Clothing club met at the home of Mrs. Lee Brown. Ten sewing bags and clothespin bags were on display ready for judging. After working out a score card the girls judged the sewing bags with the following results. First place, Clara Rhodes, 2nd place Ethel Rhodes, 3rd place Mildred Spangler, 4th place Ruth Meyer. At the next meeting August 1st the club is planning to judge the clothespin bag and the princess slip. Merry Stitches. Where? Reba Falls, Union. Time? Friday July 13. All the members of the Merry Stitches were present and judged the sewing bags. This club under the efficient leadership of Mrs. R. E. Foster is doing good work and is very enthusiastic. At the next meeting they judge the clothespin bag undergarments and princess slips.

Happy Workers of Cedar Creek. Did you ever hear about the Happy Workers club of Cedar Creek? They are getting ready for their achievement day program to be held some time in August. They are going to have a team and from all appearances they are going to give a very good demonstration. The team is Mildred Melsinger and Verma Melsinger. This club is full of pep and with Mrs. Lorine Urish as the leader we are sure to hear more from them.

Friday, July 12 the Happy Workers met at the home of Mrs. Lorine Urish, their leader. Miss Wilkins, our county home agent, was with us to help us with our plans for achievement day. We have for our demonstration team, Vera Melsinger, captain, and Margaret Melsinger, Verma's helper. They cut out the bungalow dress, demonstrated how to give the correct measurements and how to get an even hem. They also explained the different styles suitable for the stout figure and also for the slender figure. We practiced our club songs and yells. This was the first time we have practiced for our achievement day and we are planning having it in the near future. We organized with a club of six members but three joined later. We have now finished Course I and intend to take up Course II after we have our certificates and have had our achievement day.—Ester Lohnes.

**ENTERTAINS FOR FRIENDS**

From Saturday's Daily. Yesterday afternoon Robert Ramsey Livingston entertained sixteen friends most delightfully at a picnic in honor of Lowell Dutton of Kansas City, Missouri, and Jane Fricke of Nelson, Nebraska, who are visiting in the city.

The young people were chaperoned and conveyed to the woods at the golf course by Mrs. T. P. Livingston and Miss Nora Livingston who entertained the happy young couple with games and a most enjoyable picnic supper.

Those attending were: Loraine Windham, Alice Crabill, Mildred and Helen Schulze, Margaret Shallenberger, Emily Lorenz, Jane and Marion Fricke of Nelson, Claire Shallenberger, Ira Murrain, Robert and Kenneth Huncke, Edward Lorenz, Lowell Dutton of Kansas City and Robert Livingston.

**PURCHASES NEW CAR**

From Friday's Daily. Henry A. Guthmann, the Murdock banker, while in the city yesterday was so favorably impressed with the merits of the Willy-Knight cars sold by the firm of John Bauer & Co., that he decided to become the owner of one and accordingly purchased a fine seven passenger sedan type that he will find a very pleasant as well as profitable investment and assuring him and his family a great deal of pleasure in the coming months.

**HAVE EXCELLENT COOLING SYSTEM AT GREENWOOD**

While in Greenwood a few days since a representative of the Journal called on our friend W. E. Newkirk of the Newkirk Groceries & Market and his and the boys were busy with their excellent trade. They sure have the cooling system which cares for their goods, their cooling counter for display being one of the best. They can easily freeze anything put therein. An instance of which they received an extra supply of pickled pigs feet which they placed in the cooling counter and after they had been there for a number of weeks took them out of find they were frozen solid and as sweet as a nit.

**GYPSIES PAY CITY A VISIT**

This afternoon a caravan of the wandering Romantics paid a visit to the city and the ladies of the band of gypsies made the rounds of the business houses seeking those who desired to have their palm read and their future foretold. The gypsies instead of traveling with the old time wagons and teams were in large cars and which we crowded to the running boards with the members of the tribe and from the evidence there is little indication of race suicide among the members.

**WILL HOLD COURT**

From Saturday's Daily. District Judge James T. Begley has notified Clerk of the Court J. M. Robertson that he will be here Monday to hold a session of the district court and take up such matters as may be pending in the various cases on the docket.

**FROM OUT OF THE ETHER**

Radio News Broadcasted each Saturday by Station E.T.A.O.

**Weeping Water next.**

Sunday night, July 22, 9 p. m.

And that's the town Abe Lincoln said if Laughing Waters in Indian meant Minne-Ha-Ha, should have been named "Minne-Bo-Ho."

On August 2nd another Cass county town will be "in the air." Murray, our nearest neighbor, will furnish a pleasing varied program, centering around numbers by the Musical Merimakers, dance orchestra.

WOAW has followed our recent suggestion broadcast in this column of having a separate telephone installed for long distance calls so the Omaha fans can't "hog" the phone service to the exclusion of out-of-town "pay" patrons.

Orson Stiles informs us that some of their most critical listeners, employed by the station regularly to report back on receptive conditions, say the Eagles band was so well arranged every instrument was plainly distinguishable—which is going some by radio.

Two impending Plattsmouth programs are under consideration. The first an individual artists' program patterned after our first one, to be given in September; the second the Plattsmouth Junior Review, featuring our talented younger artists, of whom the town and vicinity can boast quite a few. No one on this program, to be given some time in November, would be over 20 years of age.

**Radio Advertising**

Soon we will have more notoriety than Wahoo if "GR" continues his nice remarks about Plattsmouth.

**And Here's the Reason**

Searl Davis says he couldn't become a radio fan as wireless is at its best at midnight and golf at sunrise. So he'll keep on playing golf—at sunrise.

**Should be Fine This Winter**

The new wave lengths should make radio reception especially pleasing this winter, with static gone and the ability to tune out or in the station desired without undue interference.

**Want to Join This Church?**

We have received our membership certificate in the World Radio church and are advised that all Plattsmouth fans desiring one of these nicely engraved copies may secure it free by making request of Station WOAW.

**Oh, Yes! We Forgot!**

In our article on the care of batteries last week we entirely overlooked mention of the "B" or plate voltage battery. It requires such intricate care that it is best to leave it alone until the boiler-maker room sound in your set directs attention to it. Dry cell manufacturers advise discarding the 2 1/2 volt units when they fall to 17 volts and the 45 volt ones when they reach 34. In testing, do so after using your set for an hour or so. Instead of just before, for these batteries have a great "come-back" ability, even though the rejuvenation is short-lived. If you haven't a volt meter, borrow one from whoever you buy your batteries of and test out your "B" batteries. Perhaps all the "static" you're hearing isn't static after all.

**Coming in Better Now**

Announcer BWS, of Station WOC, Davenport, in a letter to E.T.A.O. suggests that the difficulty experienced in picking up WOC here may be due to the new higher wave length, but we scarcely think so in view of the fact that local fans all have placed extra turns on their coils where it was necessary to reach Omaha's 527 meters, which is higher than Davenport's 484 and the highest in the country with the exception of St. Louis, with 546.

We heard Davenport's Wednesday night program for the first time in several weeks of trying. It came in nicely on some eight turns less of our primary than we use for Omaha, proving the suggestion of Mr. Barnett in error so far as the trouble among local fans is concerned. Those desiring to tune for WOC will bear in mind the summer broadcasting schedule, as follows: Sunday, 8 to 10 p. m.; Wednesday, 8 to 9 and 10 to 11; Saturday, 9:30 to 10:30.

**May be More than "Theory"**

DX stuff is coming in better. And this brings us back to the old theory advanced by this department early in the spring and based on last year's experience, that the intensive growing season, extending to practically August 1st, is the time of radio's lowest efficiency. If trees absorb the radio energy in summer (and technicians tell us they do) why won't potato vines, small grain and every other form of vegetation? By August 1st the small grain is cut, much garden truck has begun to wilt and even the corn has ceased its intensive growing process (except possibly in Iowa, where they do say the corn grows tall.) This idea, advanced in all with us, but was advanced by someone whose identity we have forgotten, but we have submitted it to two station engineers who agree it is more than just a "theory."

This much is certain, while there isn't any casing off of static during August, the station signals come in with enough more force to counteract the static. If you don't believe it, try tuning the old set in on DX stuff and notice the great improvement of the past two weeks.

**DIES AT HOSPITAL**  
From Saturday's Daily. Word was received here Wednesday morning of the death of Mrs. F. F. Towle at a hospital in Lincoln on Tuesday night. Mrs. Towle was a sister to Mrs. George Towle and Mrs. Earl Towle, and the family at one time lived southwest of town for a number of years and are well and favorably known. Miss Ethel Mitchell was born on April 1, 1876, at Hendley, Nebraska, and was married to Mr. F. F. Towle in 1896, at Hendley. Three sons were born to this home. They are Len and Leon, of Lincoln, and Volney of Creighton. Mrs. Towle had been a sufferer for months from cancer of the bowels and passed away on Tuesday night, July 17th, at St. Elizabeth hospital in Lincoln. Besides her sons she leaves her husband, mother, six sisters and four brothers to mourn her death. The funeral of Mrs. F. F. Towle will be held Friday afternoon at 2:00 o'clock at the home, 2041 S street, Lincoln, Rev. Hilton conducting the services. The interment will be made in Wynia cemetery.—Weeping Water Republican.
