Nehawka, Nebraska

R. Kettlebut was on the market last Friday with a truck load of sheep of his own feeding.

Omar Schlichtemeier had a truck load of sheep on the South Omaha market last Thursday.

W. O. Troop was visiting and looking after some business matters in Weeping Water last Thursday.

Robert Troop and W. O. Troop were on the South Omaha market last Monday looking for cattle to feed.

Mrs. Myrtle Heatig of Laurel has been visiting for the past few days at the home of Mrs. Jessie Rice of Nehawka.

Glen Rutledge was looking after some business matters in Nebraska City last Monday during the greater portion of the day.

C. W. Snyder was a passenger to Weeping Water last Monday where he will remain for a few days visiting at the home of his son.

The Rev. H. H. Planck will begin his studies at the state university again and will be there a portion of the time each week from the present.

The Rev. H. H. Planck was a visitor in Weeping Water last Monday, where he was having some dental work done by the accomplished dentists of that town.

Mr. Orlando Tefft of Avoca was a guest at the home of Mr. and Mrs. E. A. Kirkpatrick last Monday at the celebration of their fiftieth wedding anniversary. Mr. Tefft's wife was a sister of Mr. Kirkpatrick.

Mr. and Mrs. Oliver Harman of near Avoca were guests at the golden wedding anniversary of Mr. and Mrs. E. A. Kirkpatrick at their cele-

Can You Beat It?

We have just added to our list of labor saving machinery a Hall cylinder honing machine, which enables us to completely regrind and hone a cylinder in about five minutes. For working over a block for a Ford car, making it absolutely like new, this machine is a wonder. Beats any re-bore or grinding job—honoring the inside of the cylinders absolutely smooth. Same method as used in Buick, Nash and Chevrolet factories and is counted as the best work in this line possible to secure.

Bring us your piston-slapping, oil-pumping Ford. For this high class job, we'll charge you—

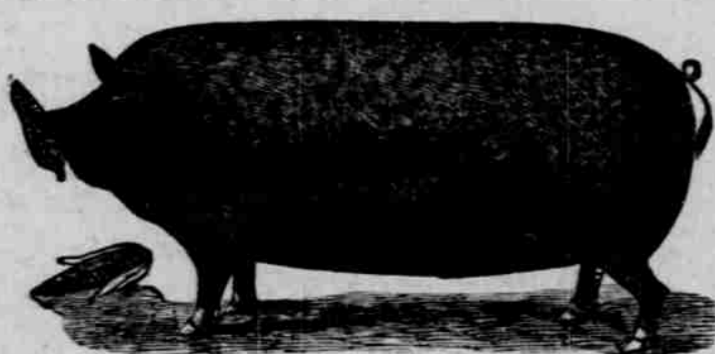

Grinding and honing all cylinders. . . . \$ 8.00
New set (four) pistons. 4.00
New pins for same. 1.00
Entire set new rings. 2.40

All work renewing block. \$15.40

This Work is Absolutely Guaranteed—Come and See the New Machine Work—It's a Marvel

Johnson Auto Co.

DUROC-JERSEY HOGS!

I have a few fine Duroc Jersey Boars; excellent hogs; can have papers if desired.

HENRY ROSS,

Nehawka, Nebraska

it will not be long before the work will be commenced which is the wish of the people of Nehawka.

The convention of the Royal Neighbors of the lodges of Cass county which was held at Union last Saturday was a very successful one and which brought the societies of the county together in a more unified working spirit. The ladies of the Baptist and Methodist churches of Union gave the supper which was attended by a large number of the ladies. The ladies societies realized about \$40 each from the supper.

A letter from Mrs. T. E. Fulton and daughter, Mrs. Herold Kimlon, who are spending several weeks at the home of Mrs. Albert Stoll at Wayside, Nebraska, tells of the ladies having an excellent time and that Mr. and Mrs. Kimlon are blessed with very good crops this year, they having threshed and marketed some 2,000 bushels of wheat. Messdames Fulton and Kimlon will remain in the northwest for several weeks yet.

In the matter of the building of the bodies for the school trucks which was done at the garage of Olaf Lundberg, care was exercised to make them first safe, convenient and durable which three things are emphasized in their construction. With the careful driving which will be exercised by Messrs. Lundberg and Whiteman all may rest assured that their children will be guarded with all the safety that can well be expected.

Mr. and Mrs. Robert Troop departed last Saturday for Grant starting at 4 in the morning and at 5 in the evening were five miles the other side of Grant, a distance of 392 miles in just thirteen hours. They visited there for a few days at the home of Mrs. Troop's parents, J. J. Lohnes, where they found the crops fairly good and especially the corn which is extra for that country. They returned last Wednesday but did not make as good time returning as on their way out.

Little Paul Griffin the four year old son of Mr. and Mrs. Horace Griffin, had the misfortune last Monday at noon time when they were just going to eat their dinner, he was on a playful mood and was running and

chanced to catch his foot on some obstacle and in falling struck his head against a chair cutting a gash in his forehead over an inch in length. Dr. J. W. Thomas closed the gaping wound and dressed it and the little fellow is getting along as well as one could well expect.

The homes of a number of people were made happy last Saturday evening when the stork made his appearance at the home of Verner Lunberg and wife and presented them with a fine blue eyed baby girl. Grampa Lundberg sure was a tickled man and was in a way disabled for a time as he could not get the smile off his face enough to whistle. All concerned are getting along nicely and the young miss who has just arrived is boss of the ranch.

Professors at Nehawka

Dr. Geo. Connelly of the agricultural college of the state of Nebraska was a visitor in Nehawka last Saturday and was accompanied by one of the faculty of both Yale and Harvard colleges who looked over the leased lands near Nehawka which have been secured for the purpose of boring for oil. It is expected that actual work in the sinking of the shaft will be begun in a short time. It is to be desired that this is the

case and that they will be successful in finding oil in abundance.

Receives New Instrument

J. M. Johnson of the Johnson Auto company has just received a new instrument which has been recently patented for the restoring of cylinders and which he gave an exhibition to the reporter of the work which can be done at the extreme limit of time in six minutes. The machine which turns by an electric motor will hone out the cylinder even when they are very bad in four steps of one minute each. There are places for four carburettum hoses which are run for one minute and this is done three times after cleaning out the cylinder each time and finishing it with finer grained hoses which are placed in the honer, this can be done in from five to six minutes with the machine and is pretty rapid work as the cylinders have to be bored before this machine is able to do the work down to the one thousandth of an inch in diameter. With this he can in less than a half hour true up a Ford block including all the cylinders. Mr. Johnson is in love with the machine and why should he not be as it is a wonder.

Enjoyed a Very Pleasant Visit

Nelson Pollard of Elizabeth, N. J., who has been visiting at the home of his brother J. J. Pollard for the past two weeks departed last Saturday and was accompanied as far as Plattsmouth by a number of his cousins where all had their pictures taken in a group making a large number of cousins being eleven in number. From there Mr. Nelson Pollard departed for his home in the east. There were present at the sitting for the picture, Nelson Pollard and cousins, Messdames Lottie Shotwell of Seattle and B. Wolph of Nehawka and Messrs. Henry M. Pollard, Frank P. Sheldon, Vilas P. Sheldon, R. C. Pollard, E. M. Pollard, J. J. Pollard and Louis Pollard and Mrs. Sallie Johnson of Pawnee City.

School Notes

School started off very smoothly on Monday. Only one-half day was required of the students on that day but on Tuesday classes were started and work assigned.

The high school has registered 60 pupils, a slight increase over last year. In the grades, however, there has been a considerable loss, there being 92 registered as against 110 for last year. There are 10 registered in the beginners class.

The bells this year will be the same as last. In the morning the first bell will be rung at 8:30, the second at 8:55 which is a signal for all students to enter the building. At the last bell the pupils should be in their seats by the time the last bell stops ringing at 9 o'clock. The bells at noon will be rung at 12:45, 12:55 and 1:00 o'clock.

There are several large classes this year in the high school, 26 being the largest one, which is algebra.

The freshmen class has but 13 members the same as the seniors. The sophomores have 14 and the juniors have 20, the largest class in the high school. It is a rather unusual condition as we have more juniors and seniors than we have freshmen and sophomores.

Miss Dorothy Greenhalgh and Miss Kathryn Reyman are the new teachers in the high school while Miss Nellie Dickinson and Miss Ethel Albert are the new ones in the grades.

Mr. A. Sturm has loaned a book entitled "Back to the Republic" to the civics class for reference work. Mr. Keltner, the janitor, had everything shipshape for the opening of school. The teachers and scholars also appreciate the new paint and calcimine that was put on during vacation.
