### Looks to Us Like a Tie

We were much pleased at the elegant appearance of the two windows of the Murdock Mercantile company last week, one of which was dressed by Henry (Bud) Ameyert, who has the grocery store on the north window, and which was one difficult to equal, while the south window was dressed by J. E. (Jerry) McHugh, and was made up of dry goods and dress materials and presented a really fine appearance. These two windows equal those of the larger mercantile houses in the big cities and are a good advertising proposition as they show the excellence of the goods carried by this enterprising concern.

### Meets to Select Site

There is a meeting called of all the legal voters of the consolidated school district No. 7, otherwise the Murdock school district, for the purpose of selecting a site for the new building, which is soon to be constructed for Murdock. The call, issued by the president of the board, Mr. O. C. Zink, under instruction of the full board, is that the first ballot which will be called an informal one, in which every voter will have an opportunity to express his own individual choice of a site. Then following each successive vote will eliminate the site having the lowest number of votes until there shall remain the two highest, when these two shall be voted upon until one shall have received two thirds of the votes being cast. This looks like a very fair way of deciding the question, and we think should meet with popular approval.

### Will be at County Fair

A. J. Tool, the rustling harness maker of Murdock is to have an exhibit at the Cass county fair this week, and he will be pleased to meet his users for his new and other people who will be there and have them inspect this exhibit which will be well worth while. Mr. Tool has a scheme which should prove worth while. He will carry a number of mail order catalogs and there show how much an excellent quality in same quality of harness for which people are sending their money out of the country and paying freight on the goods besides. Many dollars can be saved by buying these goods at home and getting much better quality as well as at the county fair visit his exhibit.

### Having a Good Sale

Max Dusterhoff, who has been in Murdock for more than the past ten years and who in that time has done excellent work under all circumstances and who has had a large clientele, having concluded to make his home and engage in business elsewhere, has been holding a sale for the past two weeks which has been going nicely and is still going strong, but with a limited amount of goods of excellent quality, in the shape of wall papers, paints, and varnishes which are selling at away below cost. Many have availed themselves of the opportunity to secure what they have been needing in these lines, at prices away below what they can be purchased elsewhere. These goods are going very rapidly as they are of the best quality and the prices are even below inferior goods.

### Meeting with Excellent Success

The evangelical revival or series of meetings which have been held in Murdock for the past nearly two weeks have been filled with much interest and while many of the people have been kept away because of pressure of work and a good deal of bad weather, there has been a good attendance all the time and much interest has been shown. The preaching has been mostly done by the eminent evangelist, the Rev. Jordan, of Elgin, Ill., who carries his audience with him.

The churches joining in this meeting, which include Louisville, Murdock, Callahan and Elmwood, are having a revival of spiritual revelation and a renewed desire to do the work which every church member and true Christian should do—their portion to evangelize the world and follow in the footsteps of the Master.

### Fish for Their Many Friends

The members of the fishing party, who have been away for the past ten days, hunting and fishing in the north-west in the lake region of Cherry county, where the party arrived by a most enjoyable time. There were some 300 black bass taken and 150 brought home with them. They saw the real out of doors life while they were away and while they had to rough it, they enjoyed the experience to the limit. The party came back tanned and sunburned and tired, but happy.

### PAGE GOVERNOR PINCHOT

From the storm that has arisen in a number of the cities over the question of whether a lady should have her hair bobbed done at the beauty shops or the more common place barber shops, the Plattsmouth ladies who are admirers of the bob may feel that they have something to be thankful for that they have proceeded peacefully along their own way and had their hair cut where they pleased. Minneapolis has been the scene of a bitter warfare in the past two weeks between the embattled beauty shop operatives and the hosts of the barbers armed to the teeth with their clippers, and rivals have finally secured the use of the law to interfere in the matter. The next meeting to take the stand that the bobbing should be done in a barber shop and which will probably mean that the hair will fly in Nebraska's metropolis as freely as in the Minnesota city. However, in Plattsmouth we still have one hairdresser who wherever the desire takes us, in pursuance of the American right to life, liberty and the pursuit of happiness.

Edgar L. Peterson, who has been spending the past week at the Scheel home at Lincoln, returned home last evening. He reports the roads as being quite rough between this city and Lincoln.

## OKLAHOMA CERTAIN OF A SPECIAL SESSION SOON

Lower House Member Says Majority Already Have Signed Call—To Impeach Gov. Walton.

Oklahoma City, Okla., Sept. 20.—A special session of the lower house of the Oklahoma legislature to hear charges that Governor J. C. Walton has overridden the constitution and laws of the state in his martial law regime is assured, it was announced tonight by W. S. McBea, house representative in charge of the fight on Walton.

Sixty-nine legislators have attached their names to the call for the convening of the house at noon next Wednesday, McBea said. Fifty-four constitutes a majority.

Governor Walton will not use troops to prevent assembly, despite his earlier threats to the contrary, it was predicted by McBea and his associates.

E. J. Giddings, one of the governor's closest legal advisers, announced that he would advise the governor against attempting to interfere with the session.

"Let them go ahead—it is not legal," Giddings asserted.

In a statement issued tonight Murray F. Gibbons, speaker of the house and a Walton supporter, declared that the session would be illegal.

Leaders of the movement to consider charges against Walton of an impeachable nature, announced that Gibbons probably would be deposed as speaker when the house is organized.

Armed guardsmen still stood before the doors of the house and senate chambers at the capitol tonight, however.

The federal district court will be appealed to in the event that Governor Walton attempts to disperse the session, it was stated by McBea. Plans for bringing an action in the state supreme court were abandoned today.

The legislators, taking the wearing of masks of masked assemblies and rigid prohibition, with severe penalties of any loquacious or mob violence. They also declared for an investigation through proper channels, of charges of derelictions on the part of various county officers.

The statement was issued in reply to the charge of Governor Walton that the fight against him was being conducted by klan members of the legislature.

## BERLIN DECLARES CAN NEVER ADMIT RUHR ACTS LEGAL

No Practical Results Unless Normal Economic Activity is Restored in Occupied Territory.

Berlin, Sept. 20.—A semi-official statement referring to reports current in Paris of possible Franco-German negotiations makes it quite clear that no practical results can be obtained without the restoration of normal economic activity in the Ruhr with amnesty and permission to those occupied to return, and that the administration must be placed in the hands of German officials and freed of traffic between occupied and unoccupied Germany restored.

The statement declares that such conditions would permit reparations payments, beginning with the evacuation of the Ruhr, but that Germany can never agree to recognize in any form the legality of the occupation of the Ruhr.

That Belgium is attempting to meddle in the Ruhr conflict is admitted at the foreign offices, where it is said the Belgian minister has been a frequent caller of late and has candidly discussed the situation with Chancellor Stresemann in what is regarded as something more than a merely informal manner.

May Offer Cash The German government also is reported as being prepared to offer France an early, if not immediate, cash payment in the event of its plan of hypothecating German private properties is accepted as a basis for new reparations. In such a case, it was said the government would be in a position by virtue of its lien on the holdings of industrialists, banks, commerce and agriculture to mobilize some of the ready cash to appease the French demand for something tangible at the earliest possible date, as it was Germany's desire to adjust the French demand for something tangible at the earliest possible date, as it was Germany's desire to adjust.

Now that reparations and the Ruhr are again topics of formal conversations between Great Britain and France, and a decisive turn in the Ruhr deadlock is likely to occur, the Berlin editors are indulging in the familiar re-arrangements respecting capitulation.

"No Surrender" "Rather a breach with France than surrender of our honor by capitulation on the Ruhr," says the Kreuz Zeitung, which charges Chancellor Stresemann with having "cultivated the capitulation sentiment," inasmuch as he was continually emphasizing Germany's inability further to finance passive resistance.

Vorwärts declares: "The manner in which Ruhr credits are squandered suggests a Panama affair of monstrous proportions."

## FARMERS WILL USE MOVIES TO SHOW 'HICKS' OBSOLETE

Film Producer Has Woefully Failed to Keep Pace With Our Progress, Says Farmer.

Chicago, Sept. 20.—The "hick" farmer with his whiskers and trousers tucked in his boots, caricatured in the movies and on the stage, will be relegated to the same shelf with the dod bird if plans approved here today at the publicity convention of the American Farm Bureau federation are successful.

The American Farm Bureau federation already has utilized the radio in furthering farm work of the country. Farm programs with practical farmers or authorities on agricultural problems are being broadcast weekly from hundreds of stations throughout the country and these will be increased materially in the near future.

## JOHNSTOWN INQUIRY ASKED BY MEXICANS

Embassy Requests U. S. State Department to Make Inquiry Into Demands of Mayor There.

Washington, Sept. 20.—The state department was asked by the Mexican embassy in a note today for information concerning reports that Mayor Cauffiel of Johnstown, Pa., had directed both negroes and Mexicans who had not been residents of the city for at least seven years to leave at once.

At the same time the embassy stated that it had instructed the Mexican consulate at Philadelphia to proceed to Johnstown and report on the situation. The embassy contended the mayor has no legal authority to expel peaceful Mexican residents.

Johnstown, Pa., Sept. 20.—While Mayor Joseph Cauffiel insisted today that he had not issued a formal order deporting recently arrived negroes, he said that he had "advised" them "for their own safety and the good of Johnstown to leave the city," and that "about 2,000 had gone within the last three weeks."

The mayor also said he had "advised" the Mexicans who come to Johnstown to work to leave also, for he was afraid that they might be mistaken for negroes, should trouble occur. The Mexicans live largely adjacent to the negro districts.
