NEBRASKA DEATH PENALTY FIGURES Capital Punishment Inflicted on an Average of Once in Two Years For Twenty Years Past.

The attorney general's department has received a request from Judge Marcus Kavanaugh of the superior court of Cook county, Illinois, for an opinion on capital punishment as a deterrent of crime. As a member of the American bar association committee of law enforcement Judge Kavanaugh asks for information. He asks for the number of capital punishments inflicted in Nebraska the past four years.

The attorney general will inform him that in the past four years there were three executions, and in the past twenty years eleven prisoners have suffered the death penalty. The Nebraska law differs from the law in most other states in that it permits the jury to fix the penalty in first degree murder cases at either death or life imprisonment. The discretionary power thus given to juries is said to result in the infliction of the death penalty only in what are considered extreme cases.

CHILDREN HAVE A REAL DOLL PARTY

H. M. Soennichsen Store Scene of a Great Gathering of Little Girls and Their Dollies.

The store of the H. M. Soennichsen company in the Dovey buildings is a place of real attractiveness and not only to the bargain seeker but to the little girls of the community as there are dolls there both large and small and in all colors and kinds of costumes that were participating in the doll party Friday afternoon at the store.

The H. M. Soennichsen company had announced that the doll party would be held from 4 to 6 Friday afternoon and the time arrived for the opening of the party there were hundreds of the bright, rosy cheeked little ladies of the city present and each brought with them their dolls in costumes that they had themselves prepared for the occasion and it was a sight that seldom is seen so many handsome doll dresses and so many happy little girls.

Each of the visitors was presented with a box of candy as a remembrance of the occasion while musical selections that were appropriate were given for the entertainment of the little ladies.

The judging committee having in charge the selection of the prize winners had a difficult time in determining just who had the prettiest dressed doll and which had been prepared by the hands of the little girls themselves. It was really surprising to see the skill that the little folks had displayed and some very artistic effects were found.

The prize winner were as follows: First, Nancy Balston, aged 11; second, Wilhelmina Henriksen, Lucille Dale, aged 11; third prize, Margaret Iverson, aged 12; fourth, Lorene Windham, aged 12; fifth, Helen Schulz, aged 9; sixth, Minnie Kearns, aged 7; seventh, Eunice Burbridge, aged 10; eighth, Virginia Galloway, aged 10.

MACCABEE LADIES MEET

From Wednesday's Daily Last evening the W. B. A. of the Macabees held a very interesting session at their lodge rooms in the M. W. A. building which was very largely attended and filled with the greatest of interest. There were several ladies inducted into the order by the officers and members of the drill team and the work conferred most impressively.

Following the lodge meeting there was a short social session with conversation and a general good time and ending which H. M. Wolf, representing the Knights of the Macabees, spoke to the ladies on the merits of the order and the great growth that the two branches of the Macabees have had in the last few years.

It will be of great interest to the public to learn that the ladies of the W. B. A. have placed a request for the film showing the great national gathering of the order at Los Angeles this past summer which will be exhibited at the Parmelee theatre in the near future.

At the close of the evening the committee composed of Mesdames L. E. Pickett and E. J. Halstead served very dainty and delicious refreshments that were very much enjoyed by all of the members of the party.

HAS A RUSH OF WORK

From Monday's Daily The office of County Register of Deeds Mrs. Edna Shannon has in the last few days been enjoying a run of work that is exceptionally large for this time of the year. The office has received 104 releases of real estate mortgages of which eighty-six are from the Livingston Loan & Building association which is now busy transferring their holdings to the Standard Loan & Building association of Omaha, which has taken over the stock and assets of the Livingston company. The fact that the instruments require four separate handling makes a great deal of work for the register of deeds.

HAS A STORE THAT IS UNUSUALLY ATTRACTIVE

New Units of Fixtures Complete Interior of the Philip Thierolf Store in This City.

For a number of weeks the interior of the Philip Thierolf clothing store has been undergoing a series of changes due to the building of an addition to the rear of the building that gives added room to the store and tends to permitting the completion of the placing of the series of wall cases and dust proof cabinets that have been adopted by Mr. Thierolf for the interior of the store.

The new addition in the rear of the building has been devoted to the different lines of overalls and work clothes and gives ample room for the large stocks that are carried by the store which occupy all of the ground floor of the new addition.

The offices of the store are located in a large balcony that occupies the rear of the store and which extends across the entire width of the store, furnishing ample room for the use of the handling of the business affairs of the institution which has long been needed.

The sales room as well as the balcony are finished in weathered English oak of the latest type and several new units of the wall cases have been added to the store equipment, which in the next day or two will be completely installed and made ready for use in handling the various lines of clothing and gents' furnishings and place everything in the store in dust proof cases that will make it much more attractive and convenient.

The store is certainly a real city clothes shop and one that is the equal of any in the large cities with its modern equipment and conveniences that the owner has had installed.

JUNIOR RED CROSS IN KINDLY WORK

Christmas Boxes to the Unfortunate Children of Europe Will Be Features This Year.

A request has come to the school children of America of fill a number of small cardboard boxes which are to be sent as Christmas remembrances to 125,000 children in Europe who are less fortunate than our children. This task is no new one to the members of the Junior Red Cross who for the past two years have had a part in this pleasant duty.

Already juniors in Illinois, Iowa, Michigan, Montana, Nebraska, North Dakota, South Dakota, Minnesota, Wisconsin, and Wyoming, central division states of the Red Cross, have accepted 2,500 boxes and asking for more. They must be ready for shipment by October twenty-fifth.

The enterprise is a beautiful one started two years ago for the purpose of bringing joy and gladness to the foreign children, thus stimulating world wide friendship and understanding between children in this country and those abroad and in so doing prompting American juniors to develop a real Christmas spirit of unselfishness.

The boxes, which are made of s27-4tsw

strong cardboard, are filled with anything which the juniors think will interest the boys and girls receiving them. Thus on the day that the boxes are to be filled, the children may be seen eagerly bringing dolls, hair ribbons, rubber balls, mittens, stockings, handkerchiefs, marbles, toys, toothbrushes and toothpaste. In addition to these articles, many samples of their own school work are included in the boxes. Many of the children earn the money with which to buy some little thing to contribute to this project. Others give their own things such as toys, of which they are especially fond. Everything is given in a spirit of love and generosity.

The American juniors feel amply repaid when a few months after the boxes leave their school rooms, letters of thanks from the children in Albania, Estonia, Belgium, Italy, Bulgaria, France, Hungary and many other countries start to come in. Many of the letters tell of the joy that has given them on Christmas day through the kindness of the American "sisters and brothers," a happiness they would not have had but for the Junior Red Cross.
