HUGE ROAD EXHIBIT TO BE HELD JANUARY 14 TO 18

Chicago Exposition to be Biggest in History—Manufacturers and Associations Backing It.

The American Road Builders' Association will hold the greatest exposition and convention in Chicago, on January 14 to 18, 1934, inclusive, ever put before the public. More than a billion dollars is being spent yearly on roads. All the financial interests concerned in this great expenditure are interested in this great exposition, and in the Coliseum, at Chicago, will be every manufacturer of any prominence making anything to do with roads—materials, machinery or methods.

The Bureau of Public Roads, Department of Agriculture, will have a wonderful collection of models and machinery, illustrating their methods in building the 7 per cent of the total road mileage of the Nation, which is the limit of Federal aid to states in road building. Under the Federal aid road acts, The National Highways association will have a very large and beautiful exhibit (20 spaces) and promises to show makers of intense interest to all road makers and road users.

All the State Highway Commissions will have representatives in attendance, and a very large number of county highway officials will doubtless be present. The gathering, like the exhibition, will thus be truly national in scope.

The largest attendance ever at such an affair is expected by the management, which has staged this great exposition in a city to which railroad travel from all points is quick and easy. Special railroad rates will be arranged for those desiring to attend.

This newspaper has received a special invitation, as a Newspaper Association member of the National Highways Association, to be the guest of the American Road Builders' association, Mr. Frank Page, president; the Highway Industries Exhibitors' Association, Mr. S. F. Beatty, president; the Chicago Motor club, Mr. Frank E. Jack, president, representing the American Automobile association; and the National Highway association, Charles Davis, president.

If possible, a representative of this newspaper will accept that invitation, and be present at what promises to be the occasion when highway sentiment will be so crystallized and gain such force from united effort as will speed the day by many years when this great country has good roads everywhere.

Will Go to West

D. B. Lynde, who has carried the mail on one of the rural routes for a number of years and who has made an excellent man for the place, has decided to try the Golden West for a time and accordingly has arranged for a six months' leave of absence and will depart in the near future for his new field of labor. Mr. John Irwin will care for the patrons of the route during his absence and they can be assured that he will serve them well. Mr. Irwin has had the required experience and can do the work to perfection and all can rest assured they will receive the best of service.

Radiator Explodes

One day last week after Orville Hathaway, the genial carrier of one of the rural routes, had purchased an auto from the Propst garage and was going to take it out for a trial, he thought to see if there was any water in the radiator and accordingly lighted a match for the purpose of looking into the top, and as he was in the act some gas exploded, sending a volume of fire out of the top of the radiator, burning the face and eyebrows of Orville very badly. He ducked as quick as possible and thus avoided the severity of the explosion. However, he stood a good chance of getting very badly injured. Whether some one had put gas in the radiator or it was a mixture of alcohol and water that exploded, there is no certainty, but the explosion certainly
