Spring is just on the eve of arriving and you will be needing farming machinery. We have concluded arrangements for handling two celebrated lines—the John Deere and the International—the two best lines put out.

I was to Omaha for a number of days during the past week and while there purchased two car loads of machinery, covering the articles which are needed on the farm. With the coming week, we will more definitely specify what we will have for your needs. We are expecting a car load here by the time this appears in print. We will soon have them on our floors for your inspection and the prices will be right.
