### SPEAKS AT WESLEYAN

From Wednesday's Daily—  
In connection with the wave of pacifism in American colleges, which has recently been reported as receiving drastic action at Northwestern University, Prof. E. H. Wells addressed the college Y. M. C. A. April 1 at Nebraska Wesleyan. His subject was "Religion and Society." The speaker said in brief: "That type of pacifism represented by a group of students on the campus of a university in the middle west is far more dangerous than the most radical and aggressive individual of the past fifty years, a type of religion which unites a man for

the duties of citizenship is the worst kind of religion. The wave of political graft, greed and crime which is sweeping over the country is more dangerous to liberty than was the autocracy of the German kaiser. "It is the soul of society that counts, not the form of government. The English people today enjoy a higher degree of democratic principle than any other country. The form of government in other days has been used as such monarchs as Henry VIII, James and Charles to exploit the English people and to retard the development of life and liberty."

### CITY RECEIVES BILL ON FINISHING UP SEWER

Burlington Files a Claim For the 96 Feet of Piping at the End of Main Street.

From Wednesday's Daily—  
City Clerk Duxbury today received the bill of the Burlington covering the cost of the material and installing of the ninety-six feet of pipe sewer which was placed at the lower end of Main street, and carries the water from the two new box flood water sewers on either side of Main street to the sewer creek. At the time the sewer was installed there was more or less discussion as to the price to be paid and some misunderstanding and the cost finally estimated by the city at \$3,000. Now comes the railroad company that did the work of placing the sewer beneath their tracks on the right of way and makes an itemized statement of the cost of the sewer which is set at \$5,114.79. In addition to this the city has already issued bonds covering the rest of the cost of the work and now it will be necessary to issue other warrants or bonds in the additional sum to pay for the work on the sewer which has been done by the railroad company as under their contract with the city.

### PAYS BURGLAR INSURANCE

From Wednesday's Daily—  
W. F. Diers, the genial Louisville merchant, was here today attending to some matters at the court house and incidentally in conversation was loud in his praise of the Merchants Mutual Burglar Ins. Co., of Omaha, of which Sam Patterson and Chas. Clancy are interested. As will be remembered, the store of Mr. Diers was visited by burglars some time Monday night and merchandise consisting of men's shoes, underwear and silk hose to the amount of \$100 was taken. Mr. Diers, after notifying the authorities, called up Mr. Clancy about 10 o'clock in the morning and in the afternoon Mr. Clancy arrived in Louisville and six hours after the reporting of the matter Mr. Diers had a check for the amount in his possession. This prompt action is a great boost for the company and they have one enthusiastic backer in the Louisville merchant.

### FOR COUNTY JUDGE

### SAYS NO TUBERCULAR CATTLE BEING SOLD FOR FOOD

Federal Inspector Says Precautions at Packing Houses Are Most Thorough.

From Wednesday's Daily—  
The statements made by the state department of agriculture, and those regarding that 84 per cent of the cattle infected with tuberculosis and condemned for that reason by state inspectors have been slaughtered and their carcasses sold for food, is wholly at variance with the facts, according to those who are most familiar with this work.

Relative to the statement, Dr. H. Busman, head of the federal meat inspection work at the South Omaha packing plants, says: "Our inspections and condemnations of the United States department of agriculture, and these regulations are the result of recommendations made by the most eminent pathologists and bacteriologists of the veterinary and medical professions. These include such authorities as Dr. J. W. Connaway of the University of Missouri, Dr. V. A. Moore of the New York State Veterinary college, Dr. M. P. Ravenal, formerly of the Wisconsin state laboratory of hygiene, and Dr. W. T. Sedgwick, who is connected with the United States public health service."

Speaking of the tuberculosis eradication program in the state, Dr. W. T. Spencer, live stock commissioner of the Omaha live stock exchange, says: "There are now five counties that have qualified under the new state law for co-operative tuberculosis eradication, namely Polk, Hall, Burt, Douglas and Saunders. A majority of the cattle owners in each of these counties has signed a petition requesting a county-wide test. In some instances 75 per cent of the cattle owners are represented on the petitions. Two of these counties have completed the test, Burt and Polk. In Burt county every herd of breeding cattle was tested and in Polk county all but thirty-one herds.

"Douglas county is more than half completed. While not a large percentage of infection has been found in any of these counties, some very badly infected herds have been located and the diseased animals taken out. For instance, in Douglas county within the past two weeks, one dairy herd of 70 cows was tested, and 50 reacted to the test. Out of another herd of 21 head, 20 reacted. These 20 were slaughtered, and 12 of the 20 herds which generalized cases that they were tanked."

The gathering was in the nature of a "head party" and the members of the party came with all manner of head dresses and hats that attracted the eye and created much interest. A number of April Fool games were also played by the members of the party. The prize for the most comical head dress was awarded to Mrs. C. P. Sydebotham and the most stylish to Mrs. E. M. Godwin. Appropriate refreshments were served during the day that added to the enjoyment of all of the jolly party.

### ELKS INSTALL OFFICERS
