There was a meeting on Tuesday evening of this week for the purpose of arranging for the continuation of the giving of the free moving picture shows, which have been the practice of the business men of Nehawka for some time past. Why Worry—We Don't Know
 That is the name of the play which the Nehawka auditorium will put on this Friday and Saturday, on May 2 and 3, and as they have been giving free shows for the past year and a half, it is time that all get busy and attend this one that the ones behind the free show may have opportunity to break not even but partially so, for they will be away in the hole on the free show in any event.

Well Deeper with Each Day
 The oil well which is being sunk northwest of Nehawka is making very good progress, and at the last report was something over 800 feet in the ground. The distance to be traveled yet before the oil is struck is getting appreciably smaller with each week's work.

Has Exciting Experience
 Our friend H. H. Stoll, who is a sport if they make them that way, went fishing the other day and after he had been plying the waters of the Weeping Water creek for a short time, hooked a fine specimen of a carp, which proved to be somewhat of a sport himself and gave our excellent townsman a tussle for the honor of being a fisherman. The carp gave a violent spin, which was such a surprise for the fisherman that he lost his balance and was pulled into the creek and there the fish had the valiant fisherman at odds as he was contending for his life in his own element. The fish flopped and flopped while Uncle Hans was trying to save him and at the same time get out of the water. The line was wound about Mr. Stoll until he looked like Gulliver when the Lilliputians bound him with threads. Uncle Hans finally landed the fish, which after it had been gotten safely to land proved an excellent fish, but did not look half as large as when he was fighting with him in the muddy waters of the Weeping Water. We are glad you got the fish, Brother Stoll. We knew you were game all along.

HAS GIVEN A VERY FAITHFUL SERVICE
 Retiring Mayor, C. A. Johnson, Has Had Many Years of Service to the City in Offices.

From Wednesday's Daily—
 With the meeting of the city council Monday night, Carl A. Johnson retired from the service of the city after twelve years of activity in the city council and as mayor of the city. These years have been eventful ones and Mr. Johnson can feel well pleased with the result of his years of service and the city should be appreciative of the sacrifices that he has made in taking and holding these offices, discharging them with faithfulness to the citizens of the community.

Mr. Johnson first entered the city government as a councilman from the fourth ward of this city and in the time that he occupied a seat in the council he was a member of a number of the most important committees of the body and made an earnest and faithful member of the council in every way.

Three years ago the citizens' convention nominated Mr. Johnson for mayor and he was elected to that position and two years ago was re-elected to the office. The last two years of the administration of Mr. Johnson have been very strenuous ones in the history of the city and the burdens that were laid on the head of the city administration were very heavy and were discharged with as near justice and impartiality as possible for a human being to do, even the most severe critics of Mr. Johnson will agree. His sternness for what he believed to be right has sometimes been alone but he has steadfastly followed the path that he believed to be best for the welfare of the city and has the pleasure of seeing his views justified.

Mr. Johnson can feel satisfaction in the program that has been carried out in the way of improvement

of the city and rest assured that the citizens in general are appreciative of his work as expressed by his successor, Mayor John P. Sattler on assuming office Monday night.

Dunbar, president of the guild, in her usual pleasing manner.
