THE PERFECT MAN

In many things we offend all. If any man offend not in word, the same is a perfect man, and able also to bridle the whole body.—James 3:2.

Keep the Fourth of July ball rolling.

A winner never quits and a quitter never wins.

The American Legion opposes citizenship slackers. Right it is.

If some folks were angels with wings ten feet long they'd still be too lazy to fly.

Railroads in Nebraska have taken off more trains and shops are laying off more men.

Looks now as if business was going to be pretty good this year in spite of all that congress can do.

Woman with baby in arms held up bank and got over \$1,000 in cash. Well, what are we coming to, anyway?

The farmers appreciate the gentle showers we have been receiving. Now they can appreciate some warmer weather.

England, says a headline, is cleaning up. England no doubt thinks it will get a Shrine convention some of these days.

Jap cabinet adopts protest to the exclusion act. And the Jap ambassador is to return home soon and not come back.

Great Britain is about to test that ray that is supposed to be a perfect defense against airplanes. Meanwhile it continues work on its big airplane program.

Coolidge schemes to regain farmers' support. But the farmers are not damphools by a long shot. No man that comes from Vermont is a friend of the western farmers.

Charley Bryan is governor of Nebraska and is running matters in the interest of the people of the state. The state attorney general to the contrary, notwithstanding.

It can't be said that Charley Bryan has not made a most excellent governor, and his popularity extends the entire length of the state in all directions.

Iceland has passed a law forbidding the importation of automobiles. But it is not clear whether is a measure of protection for Icelanders or an attempt to ruin Henry Ford.

The astronomers tell us that three comets are due this year, and the what-if-it-should-hit-the-earth feature writers have already got enough copy to last them all summer.

Turkey has turned down prohibition, but give her time. She has only now given up polygamy and you can't expect her to get along without some measure of consolation.

A court decision in Pittsburg says a woman can't be a citizen of Reno and Pennsylvania at the same time. If this theory is adopted, it's going to make an appreciable difference in the elections.

General Sherwood says he is retiring from congress in order to earn some money to keep him when he gets old. He's only 89, and if he works hard he ought to be able to retire in about eleven years.

From California comes the report of the unearthing of the prehistoric remains of the Squalodont. We are not certain what it is, but its name would seem to indicate that it flourished before the toothbrushes were invented.

Practically all the editors say the veterans who get those life insurance policies from the government, for services rendered during the war, will have to pay for them. It seems pretty tough to make a fellow fight for a policy he doesn't want and then hand him a bill for it. Maybe some of those men who once swore they were under everlasting obligations to the boys who went to war will be coming around to offer to pay their tax bill.

LINES TO REMEMBER

Those who would rather be right than president can always have it their own way.

Why not give Muscle Shoals to Ford? Coolidge promised it to him.

Storms have swept over the south and killed many. Alabama hard hit.

Personally, we have several worries, but Christmas shopping isn't one of them.

The majority of one's troubles vanish when the ball bat gives a resounding crack.

Enlarging your chest keeps you from having to enlarge your medicine chest.

The saddest words of tongue or pen are, "The old hen is in the garden again."

One good thing about this grass widow business is that the grass may be out any time.

As between congress doing something and doing nothing, it strikes us the latter is much safer.

The fine thing about being a farmer is that you never have to leave home to go to the country.

A Georgia bank cashier returned \$12,000 proving that almost anything can happen in Georgia.

Even if the world owes you a living you needn't expect to collect the whole thing at one time.

Nothing can make a man more uncomfortable than not understanding someone who understands him.

Another good thing about summer is that the girls can dress as they did in the winter without taking cold.

The ship of state would rock along a little better if there weren't so many threats of mutiny among the crew.

Side Talks With Girls: Be sure the engagement ring will sell for enough to pay a lawyer if you are liable to need one.

One way to become better satisfied with what you have is to think how much worse off you'd be if you got what you deserved.

Well, cheer up! The strawberry season will soon be over, but blackberries are getting ripe and a good canteloupe crop is in prospect.

Mr. Coolidge said the country could not afford the bonus, and so congress proceeded to show how true it was. We should all be thankful that Mr. Coolidge was talking about the bonus instead of about another war.

Those Japanese military reservists who are "demonstrating" against the immigration bill are practical persons, anyway. Unlike American pacifists they do not expect to get what they want by adopting resolutions.

In making rubber or gasoline it's BALANCE that COUNTS

Sulphur, zinc, lead and other ingredients compounded with raw, gum rubber determine a tire's wearing qualities. In gasoline, properly balanced proportions of low and higher boiling point fractions govern its worth as motor fuel.

RED CROWN is made by the most modern and accurate processes of refining, to rigid specifications which insure uniform gasoline perfectly suited to modern motors.

It contains an abundance of low boiling point fractions to assure quick starts, and plenty of higher boiling point fractions for power to the end of the stroke and big mileage per gallon.

So well balanced is Red Crown that altering it in any way gives a less thoroughly satisfactory year-around fuel.

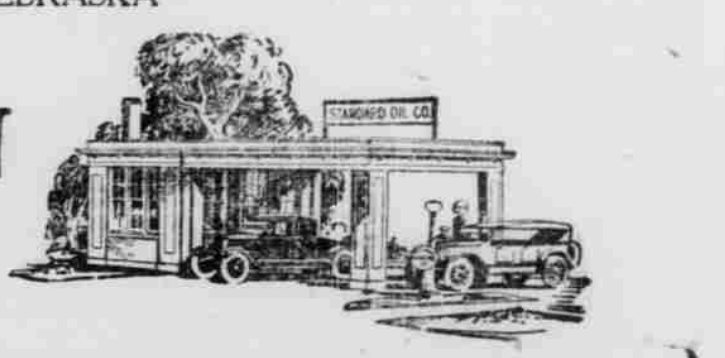

To get the most out of your car, drive up to any Red Crown Service Station. You will be promptly and courteously served with full measure of balanced gasoline which will operate your motor on a lean, clean-burning economical mixture. Buy Polarine motor oil there and give your motor protective lubrication.
