There may be safety in numbers, but not in a number of bills.

Who said to drink a quart of corn whiskey would cure our corns?

Get in line for Fourth of July. Everything free in Plattsmouth.

Silence now, for "harmony" can only be cowardice—Senator LoFollette.

John W. Davis, of Virginia, is liable to be a Democratic dark horse at New York.

It is hoped that a tornado won't strike the convention hall in Cleveland this week.

Be loyal to your party principles if you would wield an influence among the rank and file.

The fastest things on earth seem to be Washington clues; you seldom hear of one being run down.

No use to worry; when we all get to worrying the country is liable to go to the bow wows. Keep a stiffer upper lip and you will all do better by the time the snow flies again.

Those who complain of a dull trade in Plattsmouth must remember there are hundreds of other towns in the same fix. Grin and bear it for a while longer and we'll all come out of it in flying colors.

It was the dull persistent business of working and not guessing that produced the pneumonia serum which is expected to save many lives. The true scientist is a read worker rather than a brilliant guesser.

WHAT IS MAN THE BETTER?

Seeming there be many things that increase vanity, what is man the better? For who knoweth what is good for man in this life, all the days of his vain life which he spendeth as a shadow? for who can tell a man what shall be after him under the sun?—Ecclesiastes vi, 11 and 12.

McAdoo will soon know whether the democrats want him or not.

Many a man kicking about where he is should be glad he is anywhere.

Many a face is worth a fortune because she has receipted bills to prove it.

When two friends bury the hatchet they should put the hammer with it.

Decit will never go very far without being found out. Dishonesty follows.

All married women are not good cooks, but all good cooks can be married women.

There may be some merchants who don't believe in advertising, but you never hear of them.

Such strange things are happening these days nothing seems to be a coincidence any longer.

Lowden won't have it. Delegates "in the air"? Too much like the cart before the horse!

Statistics showing the average man is sick eight days of every year don't include being sick of taxes.

About the only way to make a daughter stop crossing her knees is to make her wear cotton stockings.

National Medical Association reports a doctor shortage, but what we need to cure this is patient shortage.

A man is careful to tie up his dog at night, points out the Illinois State Journal, but he lets children run the streets at will.

A dutiful politician is not heralded broadcast "as the noblest work of God." Neither is an honest man. Beware of the like.

Chicago couple eloped in an airplane. That's the way these days. They fly high at first, but they come down to earth safely.

There are a few whippersnappers who think they are politicians and try to get in nice with the people but their deceit soon finds them out.

The dollar sign has been added to the keyboard of European typewriters. That will make it easier to apply to the American government for a loan.

That so many husbands have been shot by their wives does not necessarily mean the women are getting to be better marksmen; they might have been aiming at somebody else.

The French state tobacco laboratory announces a process for ridding tobacco of nicotine. Oh, dear! Now we suppose we shall have to find some other way of imbibing our nicotine.

Who will the Republicans nominate for vice-president now that Lowden won't have it? What's the matter with Sam McKelvey? He could shine up with Coolidge, alright!

Exactly 38 men were shot to death in Hong Kong for stealing a boat, here we just happened to notice it doesn't matter, and it doesn't belong the name of the town sounds like an auto horn.

Coolidge's yacht swept by storm, that takes seven lives, including that of ex-congressman. This is not the kind of storm that will sweep over the president next November, which will be the votes of the American people at the polls.

The liturary critic of Baltimore Evening Sun writes a column under the caption, "What to give your children to read in vacation time." If the critic will kindly tell us how to induce children to read anything but the comics in vacation time we'll say he has done a day's work.
