

**GROCERIES!**

**PRICE VERSUS QUALITY**

When you buy groceries here at sale prices, you get the same high quality we deliver daily into more than half the homes in Plattsburgh—not inferior grades bought merely to make a price showing. Bear this in mind and insist on quality as well as price on "sale" goods.

**U. S. FLIERS TO HOP OFF AT DAYBREAK ON LAST LEG HOME**

Airmen Put Finishing Touch to Planes—Anticipate No Difficulties on Their Flight.

Brough, England, July 29.—All ready for the hop-off on the last leg home. The six American round-the-world flyers put the finishing touches to their reconditioned airplanes tonight and will take the air at dawn for Kirkwall in the Orkney Islands, north of Scotland, on their way to Iceland, Greenland, Labrador and home. Making the cross-Atlantic trip in a series of 599-mile sea jumps, the flyers, under the leadership of Lieut. Lowell H. Smith, expect no serious difficulties. While it is pointed out that they will not be always in sight of the siring of destroyers that have taken up posts along the route the airplanes will travel, no fear is expressed for the safety of the daring men in the Chicago, New Orleans and Boston.

Kirkwall, Orkney Islands, July 29.—Everything is in readiness to take care of the world fliers when they arrive here tomorrow. Stores of oil gas and stocked rafts are awaiting the airplanes. Tow boats and repair men are being kept at Houton bay landing stage in the event they are needed. Arrangements have been made so that the fliers can leave in 18 hours if necessary. An American cruiser is expected to enter the harbor late tonight and will be anchored at the entrance of the bay to be used as headquarters of the airmen while they remain here. It also will serve as a wireless station for receiving weather reports for Iceland and Greenland.

On Board U. S. S. Barry, Halifax, N. S., July 29.—All the United States destroyers in the harbor here were refueled today as part of the preparation for the run to Indian Harbor, Labrador, where they will meet the cruiser Milwaukee which served as a supply ship for the American round-the-world fliers after their north Atlantic flight.

Word was received today that the American airmen were planning to hop off tomorrow for the Orkney Islands. This was the first information reaching the destroyers regarding the aviators since the arrival of the vessels here. The Milwaukee sent word that the weather along the lower part of Labrador was clear, the temperature being at a minimum of 50 and the Belle Isle strait clear of ice. Incoming vessels also reported excellent weather off Newfoundland and the opinion was held that the prospects were good for two or three weeks of fair weather in the area through which the fliers will make their passage.

**LONGING FOR ENTRY TO UNITED STATES**

Russian Exiles Now Quartered in the Philippines Anxious to Emigrate to This County.

Manila, July 29.—A survey of the condition of the 250 Russian refugees who arrived here nearly a year and a half ago from Vladivostok is to be made by the Philippine health department, the bureau of customs and a physician of the United States quarantine service to determine whether they are qualified to enter the United States. There appears to be little likelihood of the refugees being allowed to land in the United States for many months to come, but Admiral Stark, who led the colony from Vladivostok, expresses the hope that arrangement for admission of most of the Russians may be made.

About a year ago some 600 of the 850 who came here in February, 1923, were sent to San Francisco on the army transport Merritt and reports from them about favorable conditions in the United States have caused their friends and relatives remaining here to renew their efforts to reach America. The colony of some 7,000, headed by Admiral Stark, adherent of the old monarchical regime, was forced to leave Vladivostok by the soviet. They took sixteen small ships and set out late in 1922 to look for a country in which to land. Several thousands were dropped in Korea and other thousands were left in China, a number of ships being sold en route to obtain subsistence. When they reached the Philippines the personnel had dwindled to 850 and the number of ships to eleven. During the last year and a half five more of the ships have been sold leaving six now at the Olongapo naval station.

**SADDLE IS MISSING**

A saddle valued at \$85 was taken from the barn at the farm of Ran Minford in the vicinity of Murray Tuesday night and the matter reported to the office of Sheriff E. P. Stewart yesterday afternoon. The case is being investigated in hopes of locating the valuable saddle and restoring it to the owner.
