ENJOYING EUROPEAN TRIP

From Wednesday's Daily—Mrs. Fred Hesse who last spring in company with Miss Marie Kaufmann and Mrs. Perry Coffman, journeyed across the ocean to enjoy a visit amid the scenes of her old home, is still remaining there and enjoying the stay with relatives altho the other two ladies have returned and are now busy at their educational work in the city schools. Mrs. Hesse, who is at Saarbrouken, Germany, writes back to the friends here that she is planning to stay there with her sister and family until spring before returning to America, as the ocean travel in the winter is very rough and unpleasant and the visit to the old home has proven so very delightful that she wishes to prolong it as much as possible.

The many friends here are pleased to learn that the visit in the old home in the Ruhr district of Germany is proving so pleasant. The town where Mrs. Hesse is staying is in the beautiful Rhine valley and is in that section which was at one time in charge of the American army of occupation and the residents there have pleasant recollections of the stay of the American doughboy.

OIL DRILLERS TO RESUME WORK ON WELL VERY SOON

Cave-in on the Nehawka Well Being Repaired and Drilling Will Be Resumed Soon.

From Wednesday's Daily—The drillers at the Nehawka oil well have for several days been idle as the result of a cave-in of a portion of the well and which has made necessary the concreting up of a part of the well in order that the work could be pushed to its start. The examination of the rock taken from the well by the state geologists leaves them with the opinion that the rock encountered three weeks ago and which was first thought to be granite bedrock, is not bedrock and the drilling will be resumed at the well as soon as possible providing no unforeseen cave-in or other accident delays the work as it has in the past at different times.

The work of drilling for oil in this county has attracted a great deal of attention over the state and the state university authorities have been in constant touch with the work and every core that has been taken from the drilling machine and been sent to the state university where they form a wonderful showing of the various formations that lie under the soil of the land. The well is now at the depth of some 1,600 feet and gives a most wonderful opportunity for the geologists to study the formations of the rock and shales that underlie the soil.

Robertson, who accompanied her parents on the trip, remained at Roanoke, Virginia, for a visit there with the relatives of Mrs. Robertson and expects to stay several weeks before returning to the west.

The ladies had come laden with the good things that were to form a part of the feast and which they enjoyed to the utmost and in the late evening they returned home feeling that the occasion had been one of the greatest enjoyment.

CHIEF KEPT BUSY.

Chief of Police William Hinrichsen has been kept quite busy by a number of the adventuresome lads of the city who have frightened their mothers by suddenly disappearing from home and making it necessary to send out a call for assistance of the police. A few days ago Bill was called to look up two little boys that were missing from their homes for several hours and located the boys at the Burlington depot as they favored this spot it being the starting place of "going to Omaha" which the boys altho only of tender years desired to visit.

Miss Fern Niel of Omana who was here visiting as the guest of Miss Gertrude Morgan, has returned to her home in the metropolis.

known ladies in the work of her church in that community.

The groom is a member of one of the families long prominent in the early days here, being a son of Mr. and Mrs. John Tighe, and has resided for the past few years at Pilger where he is now engaged in farming. He has been one of the substantial young men of the community where he has lived and is held in the highest esteem by a large circle of friends.

The Journal, in common with the many friends here in Cass county, joins in wishing them success and happiness in the future years that lie before them.

A STRANGE SIGHT.

The visitors at the home of Henry Sander in the north part of the city, have been very much impressed with the beauty of a cactus that is blooming there and which is the first time that it has bloomed in the two years that the Sanders family have had the cactus. The flower is a perfect star in shape and is certainly a very attractive sight.

There are Pleasures in operating a store!

LOTS of troubles, too, just as in any other method of making a living but if the pleasures didn't outweigh the troubles we'd get out and do something else.

It's a pleasure to be of service to our friends and neighbors; to feel that we are exercising good taste and good judgment in buying for you; that we are giving good values when we sell.

But the greatest pleasure of all, it seems to us, is to see a well dressed man on the street, and say to ourselves: "There goes one of our suits."

That's a pleasure we enjoy several times every day.
