Walter Heier and wife, Arthur Heier and family, Will Heier, Jr., and family, Charles Huff and wife of Havelock and Louie Hichman and family of Lincoln were Sunday dinner guests at the home of Ervin Heier and wife.

Henry Heisman is painting the buildings at the farm of Henry Klemme and making the home look different as a good coat of paint not only makes the property look new but it is an insurance against the insatiable tooth of time.

Henry Barishman and Herman R. Schmidt were visiting in Omaha one day last week when they went to purchase a carload of lumber for the construction of a barn which Mr. Schmidt is to build on the farm of Mr. Batishman in the near future.

One of the progressive farmers of the vicinity of Murdock, who has been farming for some time with tractors and has concluded to try the horse proposition again, forgetting the difference in the plan of operation assigned to crank up his team the other day when going to seed some wheat lands, and the horse evidently guessing the mistake soonly tapped the farmer with his hind foot, the farmer was fortunate in that he did not get a harder kick.

Getting Ready For Harvest.

Charles Buell of southwest of town, Charles Long of south of the here, and Willard Clapp of near Elmwood have all purchased, during the past week corn elevators and are getting ready for the gathering of the golden ears as well as the white ones.

Enjoy a Good Outing.

Outing! Yes, that is the proper name, for Oscar McDonald, better known as Pete, and J. Jogananson, a brother of the Murdock man, hunting trip. They made the trip, to South Dakota and Minnesota, 335 miles in 15 hours, and Pete says that was plenty fast enough. They used a few more minutes coming home. However, they had some days of good hunting, but what they found they did not say.

The Boys Are Coming Home

The boys, that is Richard Tool, Henry Angwert and Albert Theile, who some time since went to the Pacific coast in the car of "Bud," have been having an excellent time, and are now "Homeward Bound" they wrote while passing through New Mexico, which is a long way off and as they expected to go via Harlingen, Texas, and visit with the Murdock contingent there they will probably be away some time yet. But they evidently are having a good time while they are away.

Will Hold Another Election.

The voters of school district number C-7 are called on to exercise their elective franchise again in the near future this time to supply a small deficiency in the supplying of funds for the erection of their new school building which is a fine one and supplies all the requirements of the city and district in which it is located.

WET SNOW IS FALLING WEST OF LARAMIE

KNOX COUNTY CORN DAMAGED BY FROST

Crop Only 70 Per Cent Normal; Bulk of It Will Have to Be Fed Locally.

Bloomfield, Oct. 1.—Heavy freezes Saturday and Sunday nights did untold damage to the corn crop in this section. A small per cent of the crop was out of the way of the frost. Following a trip of inspection into the country, H. F. Cunningham, local grain dealer, states that at least 60 per cent of the crop will be soft corn. The crop itself is only about 70 per cent of a normal crop, according to Mr. Cunningham, and 60 per cent of this materially damaged there will be a big shortage. The bulk of the crop will have to be fed locally and there will be little left for shipment.

Beatrice, Oct. 1.—Farmers living in the vicinity of Liberty, which appears to have had plenty of moisture the past season, are figuring on a 70 per cent corn crop. Other parts of the county where the crop was damaged by the drought, there will not be more than 40 or 50 per cent crop.

Sidney, Oct. 1.—Cheyenne county corn crop is out of danger from frost and will equal if not beat last year's yield, which received more publicity than ever was given to Cheyenne county, a picture of the palace and a story about it appearing in 311 publications in the country. The palace will be duplicated this year at the fall festival, Oct. 9, 10 and 11.

Odell, Oct. 1.—J. F. Truxaw, retired farmer, has over 5,300 bushels of corn stored in cribs owned by him, in the edge of town. He is holding the corn for higher prices and continuing to buy. Truxaw stored 17,000 bushels of 1932 and 1923 crop, bought at 22c to 25c a bushel, and shelled and marketed the entire crop last year, netting a total profit of approximately \$6,000.

ONE OF FEATURE ATTRACTIONS.

Ed Brantner's far-famed boy boxers from Pender will be the feature attraction at "Roarin' Gulch," the Legion indoor festival a week from tomorrow night—the opening day of the four-day carnival. Ed writes that the boys are in very fine trim and rearin' to go. So great is their popularity that they have been placed on the Cudahy boxing bill at Sioux City on the 25th of this month. The regular carnival admission of 30 cents will enable Plattsmouth people to see these midget exponents of Queensbury do their stuff next Saturday night.

Other splendid entertainment has been lined up for the first three days of next week, including the Cowboy singing and playing trio, and others. The four-day carnival, Ed writes that the boys are in very fine trim and rearin' to go. So great is their popularity that they have been placed on the Cudahy boxing bill at Sioux City on the 25th of this month. The regular carnival admission of 30 cents will enable Plattsmouth people to see these midget exponents of Queensbury do their stuff next Saturday night.

COOLIDGE OR DAVIS NEXT PRESIDENT, SAYS W. J. BRYAN

Commoner Refuses to Take La Follette in Reckoning—Advises Progressives to Reason

Chicago, Oct. 2.—William Jennings Bryan today wired Lincoln Dixon, western democratic campaign manager, after a tour of fifteen western states, that "our cause is growing and will continue to grow," and added that in the electoral college the fight is between John W. Davis and President Coolidge.

"The logic of the situation is with us. New factors created by one trend of events are arising daily to help us. It is unfortunate that there are two tickets representing a protest against the republican record and the republican candidate, but the logic of the situation is with the democrats.

"However much as Mr. LaFollette's followers may desire to see him president, they know that he has not the slightest chance in the electoral college. He cannot hope for even half of the necessary votes to give him a majority in the electoral college.

"In the electoral college, the fight is between Davis, a progressive, and Coolidge, a reactionary. The democrats have nearly enough votes at present to elect, and the republicans nearly enough, with a few states now tied between the democrats and the republicans.

Mr. LaFollette's strength is very small and the uncertainties of the situation are many. No one can foretell exactly what the result will be, but either Mr. Davis, a progressive, or Mr. Coolidge, a reactionary, will be elected if the electoral college elects at all.

"It is the part of wisdom for the progressives of all parties to unite on Mr. Davis and thus make his election in the electoral college certain. It is much better for the people to elect in the electoral college their own president and vice president than to permit congressmen elected two years ago to decide the presidency for the next four years. This fact will become more and more evident as November draws near."

ANNUAL COST OF CRIME IN BILLIONS

Banditry in America Necessitates Expenditure of Sum Equal to Annual Budget of Nation.

Chicago, Oct. 2.—The cost of crime in the United States has reached its highest point, as much as the annual budget of the nation, which was more than three and one-half billions of dollars, according to a report prepared by the protective committee of the American Bankers' association. Preliminary sessions of the fifth annual association convention were held.

Elimination of politics from police affairs will be urged by the committee speakers and creation of state police in those states without them will be recommended. The report will show crime is greater in some states without state police.

Forgeries, according to insurance estimates included in the report, may reach \$100,000,000 for 1934, though the net loss not covered by insurance probably will not be above \$100,000. Holdups nearly doubled, according to the report, which contains warning to the banks not members of the association and showing that since the protective department was organized non-member banks have been the victims of 2,500 burglaries with loss of about \$5,000,000 while member banks have had 2,500 burglaries with cash loss of about \$1,000,000.

Optimism for the future American business was reflected in a statement of several leading bankers of the country here for the convention today.

"While a boom in business is not

PENNSY TO OFFER BOND ISSUE OF 50 MILLION

New York, Oct. 2.—Flotation of a 50 million dollar bond issue by the Pennsylvania Railroad Co., proceeds of which will be used to retire a part of the 6 per cent bonds now held by the director general of railroads, was announced tonight. Since the new bonds bear a 5 per cent coupon, it was said that a substantial reduction in the annual fixed charges of the company would result. The bonds, maturing in forty years, will be priced at 98 1/2 to yield 5.10 per cent.

LOUISVILLE IS TO HAVE RELIEF FROM FLOOD WATERS

Railway Commissioner and Road Officials Hold Conference—To Make Survey of Area.

C. H. Randall, member of the State Railway commission, accompanied by the officials of the Burlington and Missouri Pacific, were in town Monday morning inspecting the condition of Mill creek with a view of providing better means of drainage and if possible lessen the danger of a repetition of the disastrous flood which caused death and destruction by thousands of dollars worth of property in Louisville just one year ago last Sunday, September 28th. The Missouri Pacific officials asked for three weeks' time in which to make a survey of the flooded area and submit plans to the railway commission. This was granted.

It is a well known fact that the pile bridge maintained by the Missouri Pacific had much to do with causing the flood on the above date as well as a lesser visitation of flood waters in June of this year. Louisville people believe that much of the damage might have been averted had there been a span bridge across this stream, the as maintained by the county and the Burlington. The piling acts as a dam for driftwood and debris of all kinds and it is sincerely to be hoped that Louisville people that this condition may be remedied as early a date as possible.

MICHIGAN DEMOCRATS AVOID KLAN AND BOOZE

Grand Rapids, Mich., Oct. 2.—The democrats of Michigan yesterday buried their differences for the good of the cause and held a state convention so harmonious it was tedious.

The Ku Klux Klan controversy remained just enough like to fizzle weakly out before a resolutions committee that promptly stamped on it and cast it aside. The wet and dry issue died without a struggle.

The assembly adopted a platform that attacked the administration of Governor Alex G. Groesbeck; censured the state police; went mildly on record in favor of a gasoline tax and lauded the democratic policies and candidates.
