MRS. G. W. MAYFIELD CELEBRATES 89TH BIRTHDAY

Pioneer Lady Guest of Honor at Dinner Given by Daughter-in-Law on Monday Evening.

Mrs. G. W. Mayfield celebrated her 89th birthday anniversary last Monday. She spent a happy day receiving the congratulations and best wishes of her many friends. In the evening she was the guest of honor at a dinner to relatives, given by her daughter-in-law, Mrs. C. G. Mayfield. Among the guests on this occasion were her son, G. A. Mayfield and wife who were here from California for a visit with her and with other relatives.

Mrs. G. W. Mayfield's maiden name was Emeline Todd, daughter of the late Mr. and Mrs. T. J. Todd, early pioneers of Cass county. She was born in Norwalk, Huron county, Ohio, on October 13, 1835. When she was about 8 years old, she moved with her parents to New York where they lived for three years. Then they moved back to Ohio, where they lived until she was about 13 years old.

At this time, her father and a neighbor built a house boat and took their families and floated down the Ohio river, a distance of 600 miles to Cincinnati. Here they sold their boat and took a steamboat to Madison, Indiana, where they unloaded their goods, consisting of horses, wagons and household goods, and from this point they drove overland to Owen county, near Spencer, Indiana. This was a county seat town on the White river.

Her father bought land at this place and they lived there until they came to Nebraska more than 60 years ago. When the family came to Nebraska, her father took a homestead on Four Mile creek west of Plattsmouth, where the family lived for a long time.

Mrs. Mayfield's husband, Elder G. W. Mayfield departed this life September 21, 1922, and since that time Mrs. Mayfield has resided in her little home until this fall, when she went to make her home with her son and daughter-in-law, Mr. and Mrs. C. G. Mayfield. She has eight children to bless and cheer her later years and she is still somewhat active in the Christian church of which she has been a loyal and faithful member for almost four score years, being one of the few surviving charter members of the Christian church at Plattsmouth which recently celebrated its 50th anniversary.

Her life has been one of usefulness and good works and she is beloved by her family and friends who hope she will live to enjoy many more happy times with them.—Louisville Courier.

ENJOY VISIT IN THE EAST

From Saturday's Daily—A. F. Boedecker, who has been spending some two months in the east visiting many places and also was for a number of weeks at the place of his birth in Wisconsin. He visited while away at Canton, Ohio, where he visited the tomb of former president Wm. McKinley, and was also a visitor at Cleveland, Pittsburgh, Milwaukee and Conemowac, Wis., the place of his birth and where he lived as a boy. Mr. Boedecker enjoyed the visit very much, and observed that there was a decided disposition in Ohio to support Davis and Bryan, and also that even in Wisconsin that La Follette was not so strong as it is rated as being.

OIL WELL OPERATIONS CLOSED FOR THE TIME BEING

Continuance of the Work on the Nehawka Well Sealed This Week and Experiment Closed

From Saturday's Daily—After diligent and thorough explorations into the depths of the earth, in quest of oil, the work was brought to a final close Tuesday of this week, when the two companies interested in the project agreed that it was useless to continue the work further. Up to the time the drill had reached a depth of 1500 feet, the project held some favorable hopes that oil would be found, but from that depth on to the present 1850 foot level the drill has reached, the prospects grew less favorable with each day's operations. Early this week a definite form of granite rock was encountered, which is a fundamental basis for the belief among all oil promoters that it is useless to look for oil when this rock is found in great quantity. The drillers have been working in various shades of color of this rock for practically 250 feet, in hope that it might prove to be a ledge or boulder in which event, oil might yet be obtained. However, these hopes were blasted by the fact that the last 18 feet of core taken out showed a very pretty form of granite.

The leasing and drilling has been in progress here for more than a year and a half, during this time, a great deal of interest has been created in the outcome, not only locally but throughout the state. In fact the state geologists have watched and encouraged the movement, continuously since the first leases were obtained. The companies have spent many thousand of dollars in labor, fuel, machinery, etc., in putting the test well down, and we believe a fair and thorough effort has been made to sound out the possibilities for oil in this part of the state.

We learn that the work of dismantling the equipment and shipping out will begin at once, and will require from two to three weeks time, after which Nehawka will settle down to its old regime of maintaining its reputation of being one of the most prosperous farming and livestock raising localities in the United States.—Nehawka Enterprise.
