SAY NOT THOU

Say not thou, I will hide myself from the Lord; shall any remember me from above? I shall not be remembered among so many people; for what is my soul among such an infinite number of creatures?

—Ecclesiastes 16:17.

The wise man is rare, but how does he find it out?

The most dangerous thing about a motor car is the driver.

Simplicity of character is no hindrance of subtlety of intellect.

Do your duty, ladies and gentlemen by coming out and voting.

And the advance guard for raking the leaves will please form to the right.

Any of us can detect flattery in a minute if it is for somebody besides ourselves.

It will be better for the world who some "going concerns" are entirely gone.

There is only one way for a woman to find out how homely she will look with bobbed hair.

Mr. Leonard of Greensboro, S. C., is 103 years old, but it took him a long time to get that way.

The greatest problem confronting the American citizen today is whether the nation shall be half drunk or half sober.

From Kansas City is reported a "Hot Dogge Shoppe." That's nice and refined, but how did the author of the sign overlook spelling it "Hottee" and thus doing a complete "jobbe"?

Don't forget that John H. Morehead is a large property owner in the First congressional district and that he is fully interested with other taxpayers and that his interests are your interests. Therefore a vote for John H. Morehead is a vote for the right man in the right place.

Dr. Bartholdt says the democrats did nothing about "the gigantic war frands of the Wilson administration," but Mr. Davis reminds us that when a republican congress followed the war, 51 investigating committees failed to find a democrat who had been recreant to his trust. Maybe the doctor forgot about that.

Indians in the U. S. total about 347,000 now. Uncle Sam reports. Nearly half of them live in Oklahoma. Our red population has gained over 16,000 in 11 years. There are more Indians on this continent now than when Columbus discovered America. It's a myth that they are a vanishing race. In time, though, they will disappear, mingling with the general population by marriage.

Senator Norris said the other day that, if the election is thrown into congress, he will vote for the candidate for vice president who receives the largest vote in Nebraska. Prof. Cooley, the democratic candidate for senator in Michigan, has taken substantially the same position in pledging himself to vote for Gen. Dawes should Michigan give its electoral vote to the republican ticket.

William M. Wilcox, who so ably mismanaged Mr. Hughes' campaign in 1916, called at the White House yesterday and assured the president that New York would go republican by 500,000. Later in the day he dropped into republican headquarters and presently raised the New York majority to a cool million. Those figures make it clear that the stuff at republican headquarters has about twice as much kick as the stuff at the White House.

Coal sharps say that the coal resources of the United States will last for just 6,033 years. This is cutting it pretty fine, as it implies that they know exactly how much this country is to increase in population, exactly how much fuel they are to use and exactly how much there is in the earth. We have to take off our hat to the statisticians, who seem to possess a knowledge that is almost divine. They are like the "alienists"; you can prove anything by them.

Being on the right track does no good if you just sit there.

Now that Henry Ford doesn't want Muscle Shoals, who does?

The coal man is smiling and the ice man is frowning, poor devil!

When a girl lets a man know how much sense she really has, she hasn't much.

The new 16-inch rifles which hurl a ton 35 miles would be handy for coal delivery.

It is remarked that cases of liquor in the homes have often become liquor cases in the courts.

Anyway, it cannot be said that either of the opponents of Mr. Coolidge is tilting at a windmill.

Some husbands think they are unpermen if they manage to get in late without waking the wife.

Scientists in Europe find ants existed 60 million years ago, probably starting with the first picnic.

Coal is plentiful this year. The reason for the increased cost is that the dealers have to handle so much of it.

One of the happy things about the "Happy Hunting Grounds" will be no hunting for suitable houses to rent.

Good thing the politicians are talking so much about "honesty"—it shows they are considering it, anyway.

One of our country correspondents says one of her neighbors is sick of the flu. We bet it didn't take him long to be, either.

One has only to watch auto traffic for about one minute these days to realize that Barnum was conservative in his estimate.

Report comes from Russia that Trotsky is regarded as a second Napoleon. Perhaps he is, by some who have Napoleon's finish in mind.

"Dress Well and Succeed" is an inspiring battle cry. It ought to evoke a surging response from all our red-blooded hundred per centers and our hairy-chested he-men.

Next thing you know the road hog and speeders will be cutting notches on their steering wheels to keep track of the number of casualties for which they are responsible.

John N. Norton is the man for governor. And why? Because he is an honest, upright gentleman and scholar and will make a good governor—just such an one as the people want. He deserves the support of all who want an able governor.

Ever since the days of Moxa Morton and in the days when Samuel J. Tilden was elected president and beat out of it, the word has gone out at every presidential election by the republican leaders claim everything! But that is not going to work this time by a long shot.

John H. Morehead is a man wherever you place him. As governor, he was a man in the right place, and voters know it. He was elected to congress because the people knew he would fill the position with honor to himself and constituents and he should be re-elected by a large majority.

The richest woman in America is believed to be Mrs. James P. Donahue, one of the two daughters of the late Frank W. Woolworth, 5 and 10 cent king. Mrs. Donahue and her sister are worth around 85 million dollars. It isn't many years since the richest man in America had less. A woman billionaire will be only a matter of time. How such a suggestion would have been hooted at a generation ago!

The cost of living, now 70.6 per cent higher than it was in 1914, went up nine-tenths of 1 per cent in the period from June to September of the present year. In other words, it went up again while the republicans were collecting their big campaign fund, and you can guess without half trying who are actually paying to have Mr. Coolidge and his outfit retained in power.

ELECTION DAY IS NEAR

With election day, November 4, only a few days away, the "dopesters" are working out, to their own satisfaction at least, the probable vote of the presidential candidates, and it is an interesting study, although as yet not entirely satisfactory to anybody. Not since the well remembered Wilson-Taft-Roosevelt campaign in 1912, has there been a situation greatly resembling the present, and yet the careful calculation does not indicate a result, as was foreseen in that previous occasion. The republican party can well be said to have "split up" this year, as La Follette has for thirty years claimed republican patronage and has lived on republican offices since he was a young man. But his presence in the campaign is admittedly doubtful and the politically wise and otherwise have been busy estimating his strength in various parts of the country.

The regular democratic and republican states have been sorted out, by the prophets and the doubtful ones handed over to La Follette. Some of those states which have been assigned to one column or another may be changed later. But the figures as compiled by a Washington correspondent of the New York World are here given:

States	Dem.	Rep.	Ind.
Alabama	12	3	3
Arizona	1	1	1
Arkansas	9	1	1
California	13	1	1
Colorado	3	1	1
Connecticut	7	1	1
Delaware	3	1	1
Florida	5	1	1
Georgia	14	1	1
Idaho	15	1	1
Illinois	29	1	1
Iowa	14	1	1
Kentucky	13	1	1
Louisiana	10	1	1
Maine	6	1	1
Maryland	8	1	1
Massachusetts	18	1	1
Michigan	15	1	1
Minnesota	12	1	1
Mississippi	10	1	1
Missouri	18	1	1
Montana	4	1	1
Nebraska	8	1	1
Nevada	4	1	1
New Hampshire	4	1	1
New Jersey	14	1	1
New Mexico	3	1	1
New York	45	1	1
North Carolina	12	1	1
North Dakota	5	1	1
Ohio	24	1	1
Oklahoma	10	1	1
Oregon	5	1	1
Pennsylvania	38	1	1
Rhode Island	5	1	1
South Carolina	9	1	1
Tennessee	12	1	1
Texas	20	1	1
Vermont	4	1	1
Virginia	12	1	1
Washington	7	1	1
Wyoming	3	1	1
Wisconsin	13	1	1
West Virginia	8	1	1
Totals	204	231	96

As the compiler of this table admits, there is a chance to see many changes, and it is now more than ever encouraging to view the situation in New York. With Governor Smith a candidate for re-election and his influence being exerted fully for the democracy, New York may again swing into the democratic column. Governor Smith's majority over his republican opponent in 1922 was close to four hundred thousand. A considerable number of votes were cast for other candidates. Allowing La Follette to take 3 hundred thousand or more there will still be nearly three million other votes available—and with Smith holding his own his majority would be enormous.

Montana newspapers are declaring that La Follette has not that state sewed up and ready for delivery. California is also protesting that it is not ready to concede the vote to the third party. Davis has been in Iowa and in some other western states, and it is certain that he has made a good impression. The table given shows only a matter of twenty-seven votes between the two leaders, and 266 is required for a choice. That Davis may get the number necessary to turn the scale is not only possible but probable.

La Follette's claims are just what would be expected in the circumstances. It has done little to attract, and with its principal claims, there is little reason to believe that many states will surrender their votes to further his visionary ambitions. It becomes more and more apparent, however, that for the full success of democracy there must be shown active interest and perhaps some missionary work. Enthusiasm in the most solid of democratic states will help somewhat in others that are wavering. It is democracy's opportunity. It should be seized and held, for the advancement of the nation.

YES, YOUR VOTE IS NEEDED

Many decades have passed since there was as much talk about the presidential election being "thrown into congress" by reason of a deadlock, as there is this year. In the 1920 election, less than 27

millions of citizens voted, while over 25 million citizens neglected to vote. If a considerable part of those 25 million negligent vote-slackers can be induced to vote this year, there'll be less chance of the election going into congress with attendant possibilities of the winner being someone the majority of the citizens never intended.

The law of averages does not intrude to any great extent. It's true that 27 million voters are apt to vote much like a million—that is, divide their vote among candidates in the same percentages. But the more-than-25-million who did not vote in 1920 are an unknown quantity, because most of them are chronic non-voters. They must have a voice in the decision, for real government by majority. So, then, spread the word:

Vote without fail! Vote without fail! Your vote is needed! Your vote is needed! Your vote is needed!

POLITICAL ADVERTISEMENT

FACTS TO BE CONSIDERED IN THIS CAMPAIGN

Radicalism and socialism breed discontent and more discontent. They represent anarchy in its earlier stages and these elements are supporting LaFollette in this campaign. Radicalism never has and never will cure the ills of those who believe that the world owes them more than they are getting. Higher taxes are essentially a part of any socialist program.

First cost of the LaFollette plan of socializing industry, according to Ex-Congressman Pat Kelley of Michigan, would reach the staggering sum of seventy-six billion dollars. Add to that the present national debt of twenty-one billion and twelve billion which represents state and municipal obligations and you have one hundred nine billion against the property of the people, a mortgage of nearly fifty cents on every dollar invested.

Depression, hard times, unemployment and bread lines are tied to socialism. This has been demonstrated in Russia. OUTSTANDING FACTS ABOUT LAFOLLETTE:

He has dominated Wisconsin since 1901 and his personal machine is in control of governmental agencies. During the twenty-three years of his control TAXES HAVE INCREASED 42% PER CENT AND PROPERTY ASSESSMENTS HAVE INCREASED 235 PER CENT. During the same period the Wisconsin population has increased twenty-eight per cent. Average wages paid in Wisconsin at this time are lower than wages paid in neighboring states. Taxes are higher in spite of the fact that IN THIS LAFOLLETTE CONTROLLED STATE TAXES ARE LEVIED ON INCOMES OF \$800 AND OVER.

LaFollette is not running for the presidency as a nominee of duly elected representatives of the people, but was chosen by a group of socialists, labor leaders, radicals and other self-constituted "delegates" to a conference dominated by him.

LaFollette appeals for the support of followers of Theodore Roosevelt, champion of true progress, a real progressive, but not a believer in the doctrines of the socialist party. In his magazine, under date of July, 1912, Mr. LaFollette repudiated and denounced Roosevelt in the strongest terms. He charged that he was no true progressive and declared that he, Roosevelt, had built a party around himself. He said further that no party can succeed with the organization built about a man. Men who supported Roosevelt can not consistently support LaFollette.

LaFollette's program carried to its last analysis, would, we believe, nullify the constitution by permitting congress to reenact and make valid the laws found unconstitutional by the supreme court—the one and only institution which protects the rights of a minority as against the whims of a radical majority.

States of the east, states of the greater middle west and far western states are for Coolidge. In her COMMON SENSE way, Nebraska will remain in the COMMON SENSE column for COMMON SENSE GOVERNMENT.

The republican administration has reduced the national debt \$3,070,442,666. WHY CHANGE?

The cost of government has been cut from \$5,538,000,000 to \$3,497,000,000. WHY CHANGE?

A national surplus of \$86,900,000 has been built up to \$500,000,000. WHY CHANGE?

Short time obligations amounting to \$7,000,000,000 have been refunded or paid. WHY CHANGE?

The administration has released 95,456 employees who held posts under the former administration. WHY CHANGE?

More than forty per cent of the foreign debt has been collected and interest is being paid the United States on the remainder. WHY CHANGE?

The republican administration brought about limitation of armament as a step toward war prevention and advocates further reduction.

Calvin Coolidge has eliminated waste. The simple, economical habits of his own life have been carried to Washington and put into practice there. WHY CHANGE?

United States Senator Arthur Capper, of Kansas, always on the side of the farmer, says:

"Credit for governmental economies must go to President Coolidge. THE COOLIDGE ADMINISTRATION HAS ENACTED AND PUT INTO EFFECT MORE CONSTRUCTIVE LEGISLATION FOR REBUILDING THE FARMING INDUSTRY THAN WAS ENACTED DURING THE ENTIRE HALF CENTURY PRIOR TO 1921." WHY CHANGE?

The republican party in Nebraska presents a strong Congressional and state ticket headed by Adam McMullen, nominee for governor. The legislative record of Mr. McMullen, an active farmer, offers proof of his stand for economy and more economy. He favors legislation such as the proposed tax on gasoline, to further reduce general taxes. This would tax the thousands of tourists who use Nebraska roads. Mr. McMullen favors a program for good roads and is for lowering license fees on automobiles. He would not apply the gas tax to motorized equipment used on the farm. More than three-fourths of the states have the gas tax and it has proven satisfactory in every instance.
