

PRACTICAL NURSE ADDS TESTIMONY

Mrs. Crail Says Tanlac is Without Equal

Mrs. Hattie Crail, a highly successful and popular practical nurse, 32nd and Douglas streets, Des Moines, Iowa, is another among the many of her admirable profession to endorse the Tanlac treatment.

"Following a period of severe nervous prostration two years ago," declared Mrs. Crail recently, "I was so weak, restless and uncertain of myself that I scarcely dared go on the street alone. I suffered from violent headaches and dizzy spells and

again from a condition of extreme drowsiness. For a time I was compelled to give up my work.

"But with Tanlac, my recovery was surprisingly rapid and soon my nerves were entirely normal, the pains left my head, my appetite and digestion became perfect and I was strong enough to resume my work of nursing. In short, Tanlac built me up so I have enjoyed sound health ever since."

Tanlac is sold by all good druggists. Accept no substitute. Over 40 million bottles sold.

Tanlac Vegetable Pills recommended by the manufacturers of Tanlac.

HOME TRADE IS VITAL TO TOWN

Pouring of Trade Resources Through Home Channels Builds Up Success and Prosperity.

The chief argument in favor of home is the fact that it not only rebounds to the benefit of all residing in the adjacent trade territory which is a part of every community, but pays in dollars and cents. Every dollar sent away to build up business in some big city is just that much taken away from the resources of the home community.

If people will only figure up the incidental costs and inconveniences occasioned by sending out of town for anything that can be purchased in their home town they will readily see that it pays to trade at home. It is customary to ignore such items, but they are here just the same and are part of the cost of the goods that are purchased in that manner. For instance the cost of a trip to the city hotel bill, time wasted away from employment, goods bought that are not really needed, higher prices actually paid for the goods on account of the stupendous overhead of a big city. All this means cost and must be charged up against the purchases if one is honest with oneself.

In the case of mail order purchases there are money order and postage fees, express or freight charges, time wasted and delay in waiting for the goods, annoyance of exchanging the goods that do not fill the bill, or that do not measure up to the grade expected—these and many other charges of like nature should honestly be figured up against the purchases. If this done and quality of goods compared it will be found that it is a case of trying to lift yourself by your bootstraps. There is no easy way to secure goods for a less figure than they can be supplied by the experienced business man of Plattsmouth.

Perhaps nothing is studied any closer than the retailing of merchandise and you can safely figure that your live home merchant is working hard to secure the best of merchandise to place before his customers at the lowest possible figure consistent with sound business principles. And in this day of keen competition there are few business men who do not run close to the danger line in fixing prices that will attract and meet competition anywhere.

It is only necessary to use common sense in dealing with these problems. The field is open to all who may wish to enter any line of business, and if there were big profits to be made that condition would not last for every opening for business is carefully searched out, and competition has reduced everything to the level of lowest prices.

Mrs. E. H. Jung departed this morning for York after a visit here with relatives and friends for a short time.

E. H. Wescott, R. G. Campbell and F. A. Rothert were among those going to Lincoln this morning to attend the Missouri-Nebraska football game.

Frank Veteranek of Edgemont, South Dakota, who was here to attend the funeral services of his sister, Mrs. J. A. Libershal, returned to his home this morning.

TWO MORE LABOR BODIES SWING TO SUPPORT OF DAVIS

State and City Printing Councils in New York Assail Enemies of Workers.

New York, Oct. 31.—Another labor indorsement was given John W. Davis, democratic candidate for president, when he returned here tonight from his home in Locust Valley to speak at public school 17. It came from the New York city and state allied printing councils, through an announcement made public by east-city headquarters, and followed that of yesterday and tonight from the action of being organized labor bodies throughout the country.

In announcing its indorsement of Mr. Davis, the New York city printing council said in the statement issued by the democratic headquarters:

"The enemies of organized labor are well known. No member of organized labor in his right sense would think of voting for Coolidge and Dawes. By this time it is plain to all eyes that a vote for La Follette means a half vote for Dawes, the arch enemy of organized labor, and his running mate, Coolidge.

La Follette Cannot Win

"It is now clearly established that La Follette cannot win. We believe that John W. Davis can and will win and we heartily indorse his candidacy, and we urge all our members and all the true friends of organized labor not only to vote for John W. Davis, but to work earnestly and intelligently in his behalf.

"This decision on our part is not lightly arrived at. We have studied closely the record and utterances of Mr. Davis. His record in congress and as solicitor general is one that all working men and women can well feel proud of. The recent decision of the United States supreme court upholding that provision of the Clayton anti-trust act which provides for a trial by jury in the case of labor leaders being cited for contempt calls attention to one of the brilliant performances in Mr. Davis' career. He never did anything else that should give him the support of all our members. It was Mr. Davis who wrote that section of the Clayton anti-trust act and who battled so steadfastly to uphold its constitutionality."

PARENTAL RESPONSIBILITY

Parents are at fault in more than ninety per cent of the accidents in which children are injured or killed by automobiles, the coroner of a mid-west city has discovered. In the remaining ten per cent, motorists were speeding or driving carelessly. This same average may not prevail in all parts of the country, but it is probably about representative of the average city or town. No one condones reckless or careless driving of automobiles, but there are accidents which the driver can not avoid and which are due entirely to the responsibility of children. Death or injuries that may make them life-long cripples should ever be held up before children as the danger that lurks in the street in the form of automobiles that may crush their little bodies and break their bones. They can not be warned too frequently of this menace. They should be taught never to cross a street without first looking both ways. They can not be too careful. The responsibility is clearly upon the shoulders of the parents.

FOOTBALL TEAM HAS REST

From Thursday's Daily—The Plattsmouth high school football team is enjoying an off week in the way of games and will have a full two weeks' rest before the clash with the Auburn high school on next Wednesday afternoon on the local gridiron. A number of the members of the team have been on the hospital list as the result of injuries received in the last two games and other firmities and their bones will put them in better shape to meet the Nemaha county huskies. Frank Godwin has been suffering from a bad leg as well as sickness, Harlan Gorder has had a badly strained back for the past two weeks, Ray Lambert cracked rib received in the game last Friday and Joe Krejci a fine assortment of boils so that the rest period is not unwelcome and will give these players a chance to get back in shape for the big game next week.

A DEFICIT FOR DEMOCRATS

Chicago, Oct. 31.—The latest figures available on campaign contributions to the democratic party and the La Follette-Wheeler ticket in the presidential campaign, as heretofore announced, are: Democrats, \$552,368; La Follette-Wheeler, \$171,812.

The democratic report was filed today by the national committee with the clerk of the house of representatives and covered to October 25, inclusive. Expenditures to that date were given as \$725,050.

The La Follette-Wheeler report was filed with the same official yesterday by the La Follette-Wheeler national joint committee of the national progressive committee from its headquarters at Freeport, Ill., and covered receipts from all sources up to October 22. Expenditures to the same date were given as \$157,122.

A GIFT TO COLLEGES FROM SENATOR M'KINLEY

Chicago, Oct. 31.—Announcement of a \$340,000 gift from Senator William B. McKinley, of Champaign, Ill., to five Illinois colleges and the Presbyterian student center at the University of Illinois, was made last night at a meeting here of the Presbyterian social organization of Chicago. The fund was given to the Illinois Presbyterian educational fund which, when added to the gift of James A. Patten, swells the treasury to a total of more than \$1,000,000 in two days.

NEW YORK RULES OUT GAS MIXTURE

Death of Five Men Engaged in Experiments Results in Drastic Law Being Passed

New York, Oct. 30.—Gasoline containing tathal-ethyl, the mysterious "leavesy gas" mentioned may no longer be sold in New York city. The board of health today adopted a resolution prohibiting its sale after the death of the fifth of the 33 laborers affected by the fumes while experimenting with the mixture in the Bayway, N. J., laboratories of the Standard Oil company of New Jersey.

The health board also made it a misdemeanor for anyone to use the gasoline in motors in the city. In addition, the officials authorized Health Commissioner Monaghan to make a thorough investigation of the elements in the mysterious death dealing gas and seek a mode of effective treatments for its victims.

Herbert Fuson, 26, of Elizabeth, N. J., was the fifth man to succumb to the gas poisoning, which has made its victims insane. He died at Reconstruction hospital early today, confined in a straight jacket a few hours after the corps of Standard Oil physicians and scientists seeking a successful treatment of the baffling malady had announced their quest successful.

A few hours after Fuson's death 11 more gas-poisoned were taken to Reconstruction hospital.

This brought the total of those affected to 33 out of the 45 who were employed in the laboratories, experimenting with a mixture of tetraethyl and gasoline in an effort to add power to the fuel and eliminate knocks in motor car engines.
