

PLATTSMOUTH ELEVEN BEATS AUBURN HIGH

Blue and White Features Rally Day with a Win from the Auburn Huskies—Score 19 to 0

From Thursday's Daily— Yesterday afternoon was rally day at the Plattsmouth schools for the pep program that was to mark the Auburn-Plattsmouth meeting on the football field, which has been an annual event for the past few years.

There was lots of enthusiasm in the parade that moved from the high school at 3:30 for the football field, headed by the Auburn and Plattsmouth teams and with a large number of comical features as well as suggestive signs of what was in store for the Auburn team before the afternoon was over.

The Plattsmouth team played one of the best games that they have ever shown on the gridiron in several seasons and bore down on their opponents with an offensive that could not be stopped and which resulted in the final score of 19 to 0 in favor of the locals.

There was no one in the team that could not justly claim to have been an important factor in winning, but the work of Joe Krejci in making many long and runs for great gains as well as his passing swift as a bullet and accurate, permitted the locals to score two of their touchdowns.

In the opening quarter Plattsmouth started a series of line smashes that they followed down the field, playing straight football in gaining a place within striking distance of the Auburn goal. Krejci and Hartford advanced the ball by a series of runs and line smashes and from the five yard line Gordor drove over for the touchdown, but the goal kick was lost.

In opening of the second quarter Auburn was threatening at one stage of the game and only by the most desperate fighting were the visitors held on the Plattsmouth three yard line for the four downs. The Auburn team advanced on a series of end runs and passes that gained them a great deal of ground and allowed them to menace the Plattsmouth goal, but the stone wall defense of the locals held them back and the first half ended with the ball in the center of the field.

On the kickoff Gordor nailed the runner on the Auburn 30 yard line and the battle was confined to the territory of the visitors. The second touchdown of the game was made by Plattsmouth on a beautiful fake and pass from Krejci to Godwin, who planted the ball back of the line for a touchdown.

In this portion of the game, Krejci, Godwin, Hartford and Gordor were in the limelight on being assigned the task of carrying the ball and was given great support by his teammates.

In the last quarter Krejci again made a great 40 yard pass that was a beauty, but which just escaped the outstretched hands of Godwin and made necessary the use of other plays to gain the ground needed and Krejci intercepted a pass for a great gain for the locals and with a fake kick also tore through the line for a gain that brought the ball in the Auburn territory. The final touchdown was made when Krejci passed to Glaze, who was at the Auburn goal line for a touchdown.

The game was a real one and encourages the locals for the game with Nebraska City which is scheduled for Thanksgiving.

MAKES HAPPY OCCASION

From Thursday's Daily— This morning a fine and winsome little daughter arrived at the home of Mr. and Mrs. Howard Graves and the occasion was one that brought the greatest happiness to the members of the household and the little lady is the object of the greatest admiration from the brothers and sisters and the event has also proved very joyous to Howard. The mother and little one are both doing nicely and the family are busy receiving the well wishes of friends for the future welfare of the little one.

TAKEN TO HOSPITAL

From Thursday's Daily— Yesterday afternoon Dr. P. J. Flynn with Mr. and Mrs. John E. Sykes departed for Omaha where they will have the little six-year-old daughter of Mr. and Mrs. Sykes placed in the St. Catherine's hospital where the little one will receive treatment and may also undergo an operation there as the little girl has been in very health for some time. The many friends are hopeful that the little one will soon be able to return and be restored to her former good health.

WILL REMAIN HERE

From Thursday's Daily— The many friends of Joe Capwell, the present county attorney, will be pleased to learn that his genial and able young man is to remain in this city as a permanent resident at the conclusion of his services in the office of county attorney. Mr. Cap-

HOW'S THIS?

HALL'S CATARRH MEDICINE will do what we claim it—rid your system of Catarrh. Deafness caused by Catarrh. HALL'S CATARRH MEDICINE consists of an Ointment which quickly Relieves the catarrhal inflammation, and the Internal Medicine, a Tonic, which acts through the Blood on the Mucous Surfaces, thus assisting to restore normal conditions. Sold by Druggists for over 40 Years. F. J. Crosby & Co., Toledo, O.

well will open up his office in the Plattsmouth State Bank building in the near future and be able to devote his time to his private practice. The offices now occupied by William G. Kieck, the county attorney-elect will be taken over by Mr. Capwell and will make excellent quarters.

During the time that Mr. Capwell has resided here he has made a very large circle of friends by his clean and upright character and manner of handling the affairs of his office and the friends here are more than delighted that he has decided to cast his lot here in this city. Mr. Capwell formerly resided at Elmwood and it can truthfully be said that what is Elmwood's loss is a distinct gain for this city.

BANKERS TO ASK FOR A SEPARATE DEPARTMENT

Association Will Present Resolutions to Legislature For Change—Request Other Changes.

Lincoln, Nov. 7.—With the election over, the first move for a program of legislation at the session which will begin on January 6 showed its head today when the state banking department released a set of resolutions adopted by the State Bankers' association, and which are to be pressed as needed legislation by the association as soon as the session convenes.

The resolutions promise a lively fight whenever they appear before the lawmakers. They call for what amounts to a complete separation of the banking department from the state government. It is suggested that the bureau of banking be entirely separated from the rest of the departments grouped together by the code law under the general head of the department of trade and commerce.

Instead of the governor selecting unhampered the head of the department, as provided in the present law, the bankers would have this official selected from a list of perhaps three nominees to be nominated by the bankers themselves. The selection would still be made by the governor, but the field would be narrowed down to a limited number of possibilities.

All of the funds collected from examination fees charged against the banks, and which now go into the state treasury, would be turned over to the banking department to be used entirely for this department alone.

Besides these provisions it is also suggested that the department of banking be permitted to determine the double liability of stockholders in failed banks, and that the head of the department be able to certify this liability in a certificate which would then operate as a lien upon the property of stockholders of the banks to the extent of their double liability.

An amendment to the guaranty fund law is requested which would clearly specify the nature of deposits such as are protected by the fund and such as are not protected. Secretary Knudson said that the intent of the resolutions and the proposed legislation was to take the department of banking "out of politics." He said that the bankers, at the meeting at which the resolutions were passed, expressed their high appreciation and approval and manner in which this department had been conducted during his tenure of office.

DIES AT OMAHA HOSPITAL

From Thursday's Daily— Miss Martha Peters of Springfield, Nebraska, a sister of Mrs. John F. Gordor of this city, passed away last evening at the Clarkson hospital in Omaha, after a long illness that has covered the last year. The condition of Miss Peters has been very grave for several weeks past and her death has been expected at any time. Miss Peters often visited this city at the home of her sister and gained many friends who will remember her and share in the feeling of grief that her death has occasioned.

JUDGE WESTOVER WINS

From Friday's Daily— Among the district judges elected over the state is included Judge W. H. Westover of Rushville, in the 16th district, where he received a large majority for re-election. Judge Westover has been one of the distinguished figures in the state on the district bench and his re-election was foreshadowed. Judge Westover was opposed for re-election by F. A. High and his organization, but the voters of the district apparently took the distinguished record of Judge Westover in preference to the edict of the self-appointed boss. Judge Westover is the father of Dr. R. P. Westover of this city.

GREEN CASE POSTPONED

From Friday's Daily— The case of the state of Nebraska vs. Elizabeth Green, charged with shooting at Sheriff E. P. Stewart and Deputy Sheriff Young with intent to wound and injure, which was to have been taken up Monday, has been laid over until Monday, November 17th, when the jury will be called for service. Judge James T. Begley, who is holding a session of court at Nebraska City, has not completed the jury term there and also has several cases to be heard that will make necessary the placing of this case a week later.

EX-GOVERNOR KITCHIN SICK

Scotland Neck, N. C., Nov. 7.—W. W. Kitchin, former governor of North Carolina, is reported desperately ill tonight. Mr. Kitchin is a brother of late Representative Claude Kitchin.

DEMOCRATS WERE HIT HARDER BY BOB THAN REPUBLICANS

Election Figures Confirm Opinion of Republicans that Opponents Would be Hurt Most

From Saturday's Daily— Although exact proof is lacking, the election returns confirm very strikingly the prediction of republican leaders that the democrats were contributing more votes to La Follette than were the republicans.

Past political contests in the state fairly justify the statement that with the women voting the republicans have an edge of about 50,000 on the democrats, when there are not disturbing factors. As there were about 450,000 votes cast, the normal division would have been 250,000 for the republicans and 200,000 for the democrats.

Coolidge emerges with about 212,000, Davis with 136,000 and La Follette with 103,000. Where did the latter come from? Coolidge polled 38,000 less than the normal republican vote and Davis 64,000 less than he would doubtless have got if La Follette had not been in the field.

While this is an arbitrary number it indicates quite clearly that the democrats contributed about 60 per cent of the La Follette vote and the republicans about 40 per cent.

This calculation is buttressed by the testimony available if one desires to go through the various counties. Platte and Cumby are two of the strongest democratic counties in the state usually. La Follette carried both of them. In Douglas county Coolidge got 10,000 more than either La Follette or Davis but 10,000 less than the two together. As Douglas is a close county usually, this supplies added proof. Organized labor is strong, and mostly democratic, and it went for La Follette.

PAVING WORK BEING RUSHED

From Saturday's Daily— The new paving district on Granite and Ninth and Tenth streets is a scene of the greatest activity the last few days as the laying of the concrete is proceeding and in a very short time that portion of the city will have one of the best streets in the city instead of the worst as has been the condition in the last summer and spring. On Granite street especially it has been almost impossible to get through with a car at times as the roadway was washed out and very rough and in places the washed holes was threatening to undermine the curb and gutter. This has been there for the past several years.

The paving will give a fine driveway from Main street to Chicago avenue that will be available in all kinds of weather and be a credit to that part of the city where there has been created a number of the most attractive homes in the community.

The work is being done under the F. L. Busche Co. of Omaha and with a large array of equipment they are pushing the work along in great shape and will soon have the concrete laid and in the next two weeks should have the street open for travel. The change in the condition there will be much appreciated by the residents and especially those who have automobiles and have had to travel over the rough and poorly kept up street.

The enlargement of the district from what was first intended will also make it much better as in the beginning the district included only two blocks on Granite street, but has been enlarged to include several of the adjoining streets that open on Granite.

RED CROSS NURSES

An enrolled reserve of 447 Red Cross nurses available in emergency to the Army, Navy, U. S. Public Health Service and Veterans' Bureau and for service in epidemic is an accomplishment of the Red Cross in Nebraska. These loyal women realizing that such service is invaluable to their state are constantly working to enlarge the state unit.

There are 41,000 enrolled Red Cross nurses in the American National Red Cross ready at all times to serve their fellow citizens. The value of this reserve was proved during the World War when it was possible to supply nurses immediately without waiting to set up a new organization. In numerous disasters, these nurses have been called upon for services.

The records are kept up-to-date at all times so that in the various Division offices of the Red Cross, it is always possible to locate nurses at a moment's notice. It is your support of the Red Cross that makes possible this important phase of Red Cross work. Give your confidence and support thru membership.

Why is it that nearly 75 per cent of our people think of the Red Cross in terms of the Red Cross Nurse? It is easily explained when one considers that nearly every community knows of her helpful service in some way or other. Nursing Service touches nearly every Red Cross activity in the United States or abroad.

First there is the public health nurse. Nine hundred Red Cross nurses are teaching classes in Home Hygiene and Care of the Sick. Others are overseas carrying the message of health and still others are in Government service. 1,548 in the Veterans' Bureau Nurse Corps working among the disabled ex-service men in hospitals and camps.

added last year and 75 nursing services taken over as a proper municipal or county function. In Nebraska alone, 17 Red Cross public nurses are employed by local chapters and other organizations. During the past years the Red Cross has done pioneer public health nursing in 43 of the 93 counties in the state. Your support of the Red Cross makes possible this health work which is doing so much in prevention, sanitation and hygiene.

NEWLYWED DISAPPEARS IN BLIZZARD

Wealthy Husband on His Honeymoon Carried \$100,000 in Cash when Lost in Storm

Los Angeles, Nov. 7.—En route to Los Angeles on his honeymoon and carrying \$100,000 in currency, Chas. Winnagle, 40, a wealthy mining man of Reno, Nev., plunged into a blinding snowstorm north of that city and dropped from sight a week ago last Wednesday, according to a report to the local sheriff's office today by his bride.

Mrs. Winnagle, who came to Los Angeles in advance of her husband, was prostrated today at the home of friends by the disappearance and her failure to secure information of his whereabouts. She fears her husband has met with foul play or succumbed to exposure.

Winnagle recently sold a mine and was believed to be carrying the purchase price in currency when he vanished. Mrs. Winnagle told the officers a week before, she said, they had left Detroit, where they were recently married, in an automobile tour to Los Angeles.

The trip was interrupted at Reno, where, after negotiating for the sale of the mining property, Winnagle concluded the deal and was paid in cash. He left for the home the following day. His car broke down 18 miles out of town, and he returned.

Winnagle prevailed upon his wife to continue the journey by train and he planned to follow in the car after repairs were made. She agreed and the mining man started back on foot for the stalled car. At the time a heavy snowstorm was raging.

Mrs. Winnagle can find no one who has seen her husband since that time, she declares.

STOP AT CROSSING LAW IS PROPOSED

Coming Legislature Will See Measure Introduced Requiring Stopping of Cars at Crossings.

The coming session of the Nebraska legislature will see introduced a measure that will be of statewide interest and particularly to the autoist that is in the habit of making the railroad crossing at full speed and seeing if they can beat the train to the crossing.

The railroaders of the state have conducted an intensive campaign for safety first movements that would eliminate the dangers of reckless driving over the railroad crossings, but with apparent little success as there have been in the past year a large number of very serious and costly accidents that have resulted in the loss of life of several persons.

Now it is proposed that the state legislature pass a law requiring that all autos and trucks when approaching a railroad crossing come to a full stop and the driver make an investigation as to whether there are any trains approaching the crossing and if so to wait until after the train has passed before crossing over and thereby eliminating the dangers that come from dashing across in front of an approaching train.

If the drivers would voluntarily exercise this care there would be no need of a law of this kind, but the reckless disregard of the safety of the public makes it necessary. The railroad has the right to use the tracks and the public in using the grade crossings should exercise the proper amount of judgment.

The measure which is to be drawn by the legal department of the Union Pacific railroad, will be introduced by a member of the legislature from Platte county. Representative Regan and with strong support is expected to be enacted. It will make the offense of violation a misdemeanor and punishable by a fine.

MUCH INTEREST IN CONTEST

The race for Queen of the Elks carnival is growing as warm as the late political battle as the candidates round into the last lap of the race preliminary to the starting of the big event and all of the contestants in the lead are busy getting their friends interested and stimulating the sale of votes and tickets to the big show. The contestant who sells a chance and ticket of admission will receive a credit of votes in the contest and therefore they are getting busy in helping out the sale of admission tickets and chances on the large array of prizes.

JUDGE RULES HE CAN'T HEAR WHEELER TRIAL

Great Falls, Mont., Nov. 7.—Federal Judge Charles N. Pray today disqualified himself from sitting as trial judge in the prosecution of Senator B. K. Wheeler, who was indicted here last April on the charge that he had accepted a fee for representing a client before a federal department after his election to the United States senate. Senator Wheeler's trial will be held here in December before a judge to be assigned to the Great Falls court by Senior Judge Gilbert of Portland.

THE NEWSPAPER AS A PUBLIC UTILITY IS DISCUSSED

Serving of the Interests of the Public a Responsibility That is Not Always Understood.

Editor Marvin of the Beatrice newspaper normalizes about the responsibility of the newspaper to serve its community. In a recent editorial he says: "A public utility, such as a newspaper, must serve all of the people and advance all the legitimate interests of the community in which it operates.

The chief function of a newspaper is to collect and publish the news. This may seem a very easy thing to do and the methods of doing it have been fairly well defined, but when it comes to pleasing everybody, particularly rival interests, the news editor has a difficult task.

"Protagonists of one cause and another appeal to the news editor to put the first page and under the largest head that the paper uses. They are not interested in making the newspapers readable, but they do wish to advance the particular cause which they advocate. If some really important news of the day happens to come in and crowd their pet item into a subordinate position, they take it as an evidence of favoritism and unfairness on the part of the man who makes up the pages.

"The news editor who uses his head displays the news in proportion to its importance. A meeting of the chamber of commerce which had labored and brought forth a resolution on the subject of railroad rates might get a prominent position on the first page on some days, but if it happened to occur upon a day when a prominent citizen was assassinated, or when one of the stores on Main street was robbed or the court house was burned, the resolution might get very little space in the paper.

"It is but natural that the advocates of some particular cause or movement, intensely interested in that particular thing, have a distorted idea of its news value. The man who arranges the news, having the interests of the newspaper at heart, an actuated by a desire to make it readable and interesting to the readers, approaches the subject from a different angle than does the advocate of some particular cause which only a part of the community cares anything about.

"There may have been uttered sometime, somewhere, a word of thanks for a newspaper's fair and impartial handling of so many news, but such words are not common. It is far more common for the advocate of the special cause, which somebody wants boomed and promoted, to complain because the thing

he is interested in did not monopolize the front page. To be able to find reward for his labors in the knowledge that he had done his work faithfully and with the interest of the entire community at heart is a part of the equipment of a newspaper man."

FRENCH COMMENT ON THE ELECTION

Unable to See Any Marked Departure in Foreign Policies Under the Coolidge Administration.

Paris, Nov. 6.—The Paris morning newspapers today give exceptional prominence to the American election, printing columns of matter, including biographies and pictures of the principal persons involved and explanation of the American electoral system. Those with the largest circulation, mostly conservative organs, are divided between joy over the "conservative" victory and regret that it will not help France in her difficulties.

"Perdinaux," political editor of the Echo de Paris, viewing the situation from its widest angle, declares the republican landslide was even greater than that achieved by the conservatives in Great Britain. First of all, he said, it shows that ideological governments with a taste for an advantageous foreign policy are disfavoured and it is to be foreseen that the results in Great Britain and the United States will have their effect in Italy, Spain and Belgium.

Secondly, he continues, England more than ever will tend to coordinate her action with America, which he believes will involve collapse of the Geneva protocol on arbitration and security, the assembling of another disarmament conference and a moderate, but strict settlement of the inter-allied debts.

Le Journal says the same things in other works. L'Oeuvre, supporter of Premier Herriot, remarks that "there is nothing changed in America." It analyzes President Coolidge's ideas, giving quotations from various of his speeches, and declares that the republicans still are fearful of European complications and believe there is danger that America will be entirely caught in the "whirling coils" if she makes the slightest move.

L'Esclair a paper of nationalist tendencies, see no reason to rejoice. Coolidge and Dawes, it says, have only one way of proving their kindly sentiments toward France, and that is not to treat her worse than they treated Germans.

"It would be monstrous," it adds, "after having obtained so many concessions from our government, if they did not remit the debt which was contracted to win a war which made the United States the financial arbiter of the world."

MELLON WILL RE-NEW PROPOSALS FOR HIS TAX PLAN

Thinks Election Results will Take the "Brake" from Business—Prosperity Ahead.

Washington, Nov. 6.—General business sees a "clear sky" in the opinion of Secretary Mellon, who now expects that doubts as to the future will be removed and commerce and industry will go ahead with a program of expanding development.

The secretary, it was said today at the treasury, believes Tuesday's election has taken off "brakes" that have held back business somewhat in the last several months. He thinks also, it was added, that the railroad managers will feel that they may lay out programs for the next few years with more confidence that moves inimical to them will not be made by congress.

The treasury itself is preparing now to round out its suggestions to the next congress on taxes, but these recommendations, it was said, will be largely a re-statement of the position taken last fall. The proposals will be made in the treasury's annual report and probably will include suggestions for certain tax "reform" as well as references to methods of dealing with the question of tax-exempt securities.

HITS "TRICK" CHURCHES

Columbus, O., Nov. 7.—Religious prophets are replaced by promoters and the salesman of religion takes the place of the minister when he succeeds the old-fashioned country church, the Rev. C. M. McConnell of Chicago, told the student section of the seventh national conference of the American Country Life association at its opening session here tonight.

"The church is a human, vital, living thing, made up of men, women and children," he said. "It has no place in the country community unless it provides the basis for fellowship and good will. At the price of certain traditional theological beliefs, freedom of choice in form of amusement as well as preference in worship, fellowship must be brought. We have enough indifference in the country without adding church rivalry to the list."

Courtship, the honeymoon, are merely preliminaries to more serious situations: Children, grandchildren, relatives of husband and wife to support, a home to build, the inevitable boredom of long association. A serious young man or woman will give these things consideration during courtship and the honeymoon.

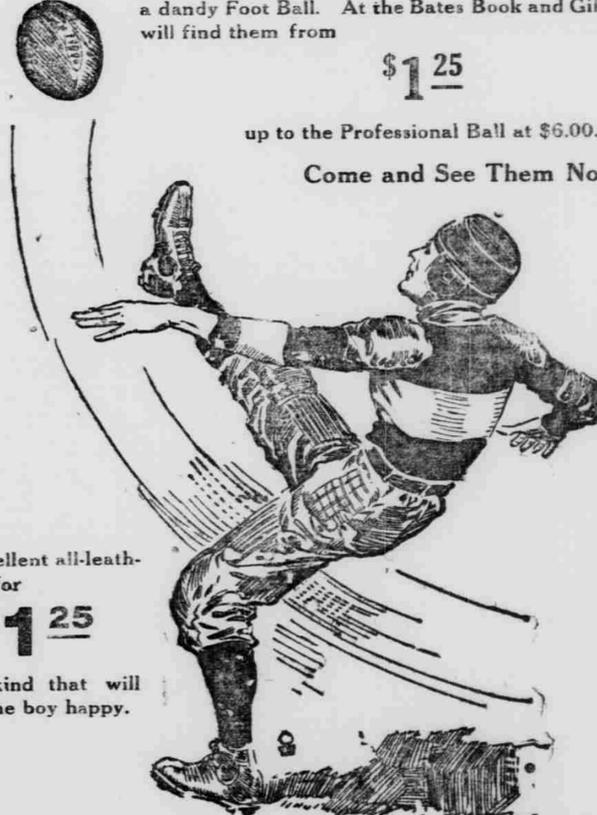

The Annual Foot Ball Season is Now Due!

And the average "kiddie" is in his glory if he can have a dandy Foot Ball. At the Bates Book and Gift Shop you will find them from

\$1.25

up to the Professional Ball at \$6.00.

Come and See Them Now!

An excellent all-leather ball for

\$1.25

—the kind that will make the boy happy.
