

MURDOCK DEPARTMENT.

PREPARED EXCLUSIVELY FOR THE JOURNAL.

H. W. Tool was called to Omaha last Tuesday to look after some business for a few hours.

Emil Kuehn was called to Omaha one day last week where he had some business to look after.

Jess Landholm and wife were visiting with friends in Omaha on Christmas, driving over in their car.

Diller Utt and wife of Havelock were spending Christmas with the folks here, driving over in their auto.

Victor Thimgan was looking after some business matters both in Ashland and South Bend on last Tuesday.

Frank R. Guthmann and brother, Joe, were visiting with some of their boy friends in Omaha last Friday and Saturday.

Wm. Wilson and red Towel of near Washburn were looking after some business matters in Murdock last Friday.

Warren Richards and wife were visiting in Murdock last Friday and were visiting with friends as well as doing some shopping.

Henry A. Guthman and son, Joseph, were visiting and also looking after some business matters in Omaha last Monday and Tuesday.

Max Dusterhoff and Max Wutchinek were looking after some business and visiting with friends in Omaha during the first of last week.

Arthur Bourke of Greenwood was a visitor in Murdock last Thursday coming over to spend Christmas with his brother, Frank and children.

Harry A. Williams was a visitor in Murdock last Friday, driving over to look after some business matters and picking up a few rabbits on the way.

Fred Klemme and family were guests at the home of Henry Klemme for the Christmas day and there both families enjoyed the occasion very much.

Herman R. Schmidt and family were visiting in Lincoln on last Tuesday, they making the trip in their car and found the roads anything but good.

Will O. Schewe and the Keiser brothers were putting up ice at their homes during the latter portion of last week and had some very fine ice put up.

Matt Thimgan and wife were visiting and also looking after some business matters at Lincoln last Friday evening and Saturday, returning home on Saturday.

Henry Towle of Douglas was a visitor last Thursday at the home of Mr. and Mrs. J. E. McHugh where he enjoyed the Christmas day, he being a brother of Mrs. McHugh.

The young people of Murdock enjoyed a most pleasant dance at the hall on Christmas night and are expect-

ing to have another one of the same kind on New Year's day.

Mrs. O. J. Hitchcock and the children who were visiting at the home of L. Neitzel for a few days last week, returned to their home on last Friday evening, going via the Rock Island.

Miss Helen Bornemeier who is employed in Omaha was a visitor at home for over Christmas and returned the latter portion of last week to the metropolis where she again took up her work.

Wm. Knaube has just added to his equipment for the farm a new car, this time getting an Oldsmobile which he equipped with a winter top that he might travel in comfort during the cold weather.

Herman Kupke and wife were spending their Christmas at the home of the parents of Mrs. Kupke, Peter Lenhardt and wife near Ashland. They enjoyed the visit and the Christmas very much.

The Murdock Gun Club is to have another shooting match this week. It was not exactly determined whether it would be on Tuesday or on New Year's when we were there last. Anyway, we know they will have a good time.

Mrs. John L. Gochry of Brewster, Washington, accompanied by his sons are visiting at the home of Mr. and Mrs. H. W. Tool, while Mr. H. Gochry is in Chicago where he is receiving treatment at a hospital there for his health.

Herbert Preststone, the manager of the Farmers' elevator, was a visitor at the home of relatives at Lehigh for over Christmas and a few days following and the elevator was looked after by Henry Heineman during his absence.

County Commissioner Fred H. Gorder of Weeping Water and wife were guests at the home of Mr. and Mrs. H. W. Tool for Christmas and Christmas dinner where both the guests and host and hostess enjoyed the occasion very much.

Grandfather and Grandmother A. A. Rikli entertained for Christmas at their home and had for their guests for the occasion their son, Wm. Rikli and family and Mr. and Mrs. Henry Heineman where all enjoyed the occasion very much.

Mr. and Mrs. H. K. Hanson of Sioux City were visiting in Murdock for over the Christmas day. Mr. Hanson returning to his home on last Saturday while Mrs. Hanson remained for a longer visit with her daughter, Mrs. O. J. Pothast and family.

E. K. Norton, who is employed with the Western Union telegraph company at Springfield, Mo., arrived home one day last week for a short visit with the folks and to spend

Christmas with the family. He is expected to return to his work in a short time.

Lacey McDonald entertained for Christmas and had for the occasion as their guests, Mrs. McDonald's parents, Chester Mooney and wife, and George Mooney and wife of southeast of Murdock. The dinner was par excellence and all enjoyed a most pleasant time.

J. Johnson was a visitor for a number of days at the home of relatives at Banning, Iowa, and was accompanied by Mrs. Johnson, they taking advantage of the time when Mr. Johnson did not have to haul the scholars as they were out of school during the holidays.

Mr. and Mrs. Wm. McNamara of Fairmont were spending Christmas at the home of the former's sister, Mrs. W. O. Gillespie and enjoyed the occasion very much. Mr. McNamara and wife also visited at the home of Mr. and Mrs. Art Tool of South Bend as well before returning to their home in the West.

Turner McKinnon, who is employed with the A. J. Tool harness shop, was spending Christmas with his best girl, that is, his mother, and he says that she sure is his best girl.

That young man, who is his mother and gives her the highest honor is a young man who can be tied to and depended upon.

Chester Mooney received a letter from his son, Edgar, who makes his home at Seattle which tells of the weather there being very peculiar. As it is generally warm there he was surprised to learn that it has been very cold and enough snow for sleighing and a lake near there was frozen over so that it could be skated upon.

Morris McHugh of Falls City was a visitor at the home of his brother, Jerry E. McHugh last Friday and Saturday. He was also joined by Mrs. Thomas Walling of Plattsmouth and Miss Mary Margaret Walling of Omaha, Mrs. Walling being a sister of the McHugh boys. With this gathering all most thoroughly enjoyed the occasion.

Leroy Gortney and wife entertained at their home in Murdock on Christmas day and for dinner, Mrs. George Vandenberg and son, Edward and Mr. and Mrs. Arthur Jones of Weeping Water and a most pleasant time was had. They enjoyed a fine goose for dinner which was a gift to Mr. Gortney by Mr. E. W. Thimgan and made an excellent meal.

Mr. and Mrs. Fred Zink were visiting for a short time in Lincoln last Wednesday and after looking after business matters there, Mr. Zink returned home. Mrs. Zink remaining for a visit with her friends and returned home on Monday noon accompanied by two of her nieces, who came for a short visit at the Zink home.

School Notes.

The primary room and the intermediate grades gave a Christmas program Friday afternoon for the patrons. The intermediate grades under the instruction of Miss Barnard contributed the following program:

Play—"Mrs. Santa Comes into Her Own."

Dialogue—"Darning Stockings," Keithel Norton, Burton Amgwert.

Reading—"The Christ Child," Violet Rosenow.

The primary room under the instruction of Mrs. Dreamer, gave the following:

Reading—"Poor Santa Claus," Wayne Bornemeier.

Play—"A Visit to Santa."

Reading—"When Santa Comes," Dorothea Bornemeier.

Reading—"A Christmas Problem," Edward McCoy.

Dialogue—"Whose Old Santa."

Both rooms sang Silent Night in closing, after which a beautifully decorated Christmas tree was revealed laden with a gift for every child.

The Xmas vacation for the Murdock schools begins Friday night and continues for one week.

The basketball games with Louisville and Nehawka have been postponed on account of the bad roads.

There have been 25 cases of tardiness in the high school alone, this week—most of them on account of the bad weather and roads. It ought to be possible for the pupils to start a few minutes earlier in the morning and thus avoid so much tardiness.

With a new modern school, does it not seem reasonable that the student should take some pride in keeping up its appearance. Would it not be just as easy to wear rubbers and keep our halls out of the deplorable condition which they have been in for the last week. The appearance of the school is a reflection on its students. Make that reflection worthy of you.

Our high school auditorium is indeed proving to be a very necessary part of the building. It is used for basketball practice four times a week, town band and orchestra practice every week, and for special meetings and programs when occasion demands. May our school in time become a real community center.

The ninth grade English class is now studying "Julius Caesar" and hope to know all about this famous general by the time they are ready for the senior year of Latin.

School closed Friday to re-open Dec. 29. We wish every one a Merry Christmas.

Looking For the Christmas

During the long years in which S. P. Leis and I. G. Hornbeck have lived in Murdock they have maintained a very close friendship and would do almost anything for one another and when Steve went west last fall he promised Id that he would secure him a wife who would arrive by Christmas and Id has not missed a train since Steve left, looking at every arrival as perchance it might be the long looked for wife. As Id counts the friendship of Steve very

strong he was certain the promise would be fulfilled. Christmas is past but still Mr. Hornbeck is hoping for he knows that Steve will not disappoint him though he might be a little late.

Gets a New Car

Andy Schliefer who but a short time since purchased a new touring car of the Oldsmobile make, concluded he would prefer a winter car and so exchanged and got a new one enclosed, an Oldsmobile coach which is an excellent car and one which will allow him and the family to travel in comfort.

Doing Some Business

During the past few days, W. P. Mayer who is an expert radio man both as to their manufacture and installation, installed a number of the machines which he is handling, one going to Mr. and Mrs. J. J. Gustin as a Christmas present from their daughter, and one was installed at the home of Albert Strich's, while Leo Rikli and Matt Thimgan also had one installed. All are liking their new acquisitions very much.

Gave Excellent Program

The Bible school of the Murdock church gave a most pleasant and worth while program at the church on Christmas even and which was enjoyed by a large number of the friends of the church and school.

Miss Margaret Tool gave some special music on the violin and there were other numbers which were very worth while. The evening was greatly enjoyed by all who were in attendance. The receipts which went for missions as well as teaching a missionary spirit, were \$20.35 and were sent for use of home missions.

Enjoyed the Christmas Nicely

Louis Schmidt and wife entertained for the families of these two excellent young people. There were here from Ithaca the mother of Mrs. Schmidt, Mrs. Herman Kraft, and her brothers, Arthur and Walter Kraft; Herman R. Schmidt and wife with their daughters, Misses Margie and Ildia, Mosses, and Madam Robert Stock and Wm. Winkler and their little daughter.

Will Hold Short Course

There will be held at Ashland a short course in agriculture on January 28th and 29th, which will take in portions of Cass, Saunders and Sarge counties and the committee from outside of Ashland are Messrs. Youcum and W. Hill of Yutan and J. L. Carnicle of South Bend. They are preparing everything for the occasion and there is expected to be a large crowd present. Several noted agriculturists from Chicago, representing the International Harvester company, will be present and there are many prizes to be given, one being for the best 10 ears of white corn, the best 10 ears of yellow corn, the best peck of wheat, the best peck of early and late potatoes. There will be exhibits of poultry and cockery, a prize being offered for the best cake, both white and brown. This will be a most interesting meeting and all farmers and especially those in the neighborhood should attend. See J. L. Carnicle of South Bend for further particulars.

Entertain on Christmas Day

On Christmas day, Henry Amgwert and mother entertained at the home for the family and there was present for the occasion, John Amgwert and family of Murdock, Mr. and Mrs. Joe Ranney and their son, and other guests. A most pleasant time was had and the day was most delightfully spent.

Lutheran Church Services

Services at Louisville church at 9:20 a. m.

Bible school at both Louisville and Murdock churches at 10 a. m.

Services in English, 11 to 11:30, and services in German, 11:30 to 12, at Murdock church. Young Peoples' meeting at 7 p. m. and evening preaching services at 7:30.

Excellent Base Burner

I have a base burner almost new priced to sell. Call Daniel J. Panska, 26K, Murdock.

Has Special Machine

I have a special machine now for the working on auto curtains and am prepared for your work in this line either in repairing or new work.

A. J. TOOL, Murdock.

BLIZZARD BAGES IN MONTANA

Great Falls, Mont., Dec. 28.—A blizzard from the north descended upon Great Falls today, and within a few hours the temperature dropped from above freezing to nearly zero. The fall in temperature was accompanied by high wind and falling snow. Reports received by the Great Northern railroad offices here told of blizzard conditions throughout northern Montana, with the situation particularly bad in the region of Glacier Park.

A stalled freight train yesterday and today held up travel on the main line of the railroad between Cutbank and Glacier. Trains from St. Paul and the coast were turned back and routed via Helena and Great Falls.

Rotary plows were out last night and today battling to keep the rail lines open.

Snow in the vicinity of Cutbank is reported to be 10 feet deep and drifting badly. Extra crews have been called out in an attempt to keep the Great Northern high line open to traffic.

All the home news delivered at your door daily for 15c a week.

WILBUR TO ISSUE STATEMENT FOR NAVAL COMMITTEE

Bill Does Not Include Provisions for Increase of Navy—Senate May Inquire About Guns.

Washington, Dec. 26.—Secretary Wilbur began work today on a statement he will make to the senate naval committee Monday when it takes up the appropriation bill for the coming fiscal year.

Chairman Hale of the committee has submitted to Wilbur a list of questions on which committee members desire information. The secretary did not indicate today what specific points as to conditions in the fleet the naval plant ashore the committee inquired, but he said his statement would overlap the statement he made to the house naval appropriations subcommittee only in certain features.

No Provisions for Increase.

The appropriation bill does not include provisions for the increase of the navy or for carrying out the modernization program, those projects having been included in a separate measure when authorization for the work was given by congress.

There have been intimations that the senate committee proposed to inquire particularly on the question of gun elevations. Secretary Wilbur would not say, however, whether the questions he had received touched on this subject.

Wilbur took occasion today to look up records of the naval battle of San Diego and the loss of certain ships engaged in the fighting along the Cuban coast in 1898 in order to verify a recollection he had that American ships at that time had been listed in order to increase the range of their guns, a procedure which has been experimented with recently by both the British and American navies.

He found that the battleship Indiana, on July 11, after the naval engagement and while endeavoring to bombard the city of Santiago over a high bluff, had swung her two main battery turrets to the offshore side.

Which added to the elevation of her eight-inch secondary battery on the shoreward side.

Wilbur also found in old American and British scientific magazines comparisons of the American and Spanish navies made before the war, which cleared between those two countries.

TAX IS HEAVY FOR SUPPORT OF ARMY

Mexican Budgets Balge in that Direction—Financial Obligations Total \$800,000,000.

Mexico City, Dec. 25.—Mexico's financial obligations total \$808,070,015 in American money, it is stated in a report just made public by the minority members of the chamber of deputies budget commission.

Appealing for careful consideration of appropriations for 1925 the minority commissioners, who belong to the United Radical bloc, assert that the tax has come for the removal of the tax levying power from the hands of the chief executive. For half a century they declare, the people of Mexico, through their representatives, have been deprived by revolution and civil strife of the right to levy taxes and spend their revenues.

In outlining the history of Mexican public finances during the last one hundred years, the minority commissioners' study points out that budget deficits have been the cancer which has sapped the government's financial strength and constantly added to its indebtedness.

The war department is credited with having taken the lion's share of the government's receipts. From 1918 to 1922, the percentage of the budget total devoted to military necessities fluctuated between 60 and 70. Second only in importance was the part devoted to the services on the public debt, which was allotted \$56,500,000 in 1923 and 1924, although the De la Huerta revolution of December 6, 1923, forced the suspension of payments. The item in the 1924 budget for public debt service, however, was \$31,000,000, or 25 per cent of the total.

The budget now in the making, the report continues, must accept a deficit of \$3,500,000 from last year, which increases by presidential decree in various items brings up to nearly \$4,500,000. This, added to the principal and accrued interest represented under the Lamont agreement covering the external debt and other obligations guaranteed by the government amounting to \$760,500,000; the internal banking debt; the debt assumed in taking over the Tehuantepec railway, unpaid salaries of federal employees and approved claims for revolutionary damages already totaling \$47,000,000, makes a grand total of \$808,070,015.

Washington, Dec. 23.—The senate reclamation committee took under advisement tonight the Johnson-Swing bill proposing construction of a dam at Boulder canyon in the Colorado river for development and protection of the Haverford College Radio club and the English amateur station.

All communication was on a wave length of 85 meters. Few interruptions were necessary despite heavy static and interference. The moves averaged four an hour, or one every 15 minutes, which is normal time for two chess teams playing under ordinary circumstances.

Ancient artistic jewelry that pleased feminine vanity 5,000 years ago is dug up in India. The excavators also find remains of brick houses with marble water pipes. In another 5,000 years they will probably be digging for remnants of our civilization—and possibly find we left nothing enduring except a variety of debts.

The meanest thing that we have heard of yet is, after Santa came down the chimney and left presents for the kids, a thief got in and appropriated the whole business.

Soap men estimate the country will need 2 1/2 billion bars of soap next year, and very likely it will, if people keep on letting their furnaces and chimneys smoke in the same old way.
