**HARRY KNABE OF NEHAWKA HOG BREEDER**

Grand Champion Carload of Hampshires at Kansas City Nets Owner \$580 in Return

Harry Knabe, of Nehawka, Neb., has done two rather unusual things. In the spring of 1923 he held a brood sow sale in which about fifty sows were sold, and every one of these animals traced back to one foundation sow in his herd. He has also recently shown the grand champion carload of hogs at the American Royal Live Stock Show. He is still a very young man and this is his story of how he got started in the hog business.

"In 1918 I wasn't very much interested in the farm or anything on it, when my father and the County Agent encouraged me to join the Pig Club. I purchased a Hampshire gilt which I named Pansy, and a little later I began to realize the difference between purebred and grade hogs for Pansy was making dad's pigs look like real runts. This made me take more interest in my work. I also have among the old friends of the family.

Addie Searl was born in Kewanee, Illinois, where her parents, Mr. and Mrs. Posey G. Searl were old time residents, on April 27, 1858, and spent her girlhood in that locality. In the year 1881 Miss Searl came to Plattsmouth where her uncle, U. V. Matthews was located, having been one of the pioneer business men of this community, and for some time Miss Searl made her home with the Matthews family, later being joined here by her mother and where the home was established.

For twenty-five years Miss Searl was engaged as a teacher in the Plattsmouth public schools and many of the present residents of the city received their education at her hands, she being one of the most efficient teachers in the city and for years active in the educational and social life of the city.

While teaching Miss Searl became interested in the growing public library movement and was one of the original members of the Y. L. R. R. A. that established the first library in the city.

During the time that her brother, Charles S. Searl, was suffering poor health as the result of his service in the U. S. army in the Spanish-American war, Miss Searl made her home with him in Arkansas, going to that state in 1912 and remaining there until a little over a year ago, when she came back to Plattsmouth, where she has since resided with her brother, A. M. Searl and wife, and where she passed away after a severe attack of pneumonia, which was complicated with leakage of the heart and she gradually grew worse until her death last Friday evening.

The death of Miss Searl brings a profound regret to the host of old time friends here, and the brother and sister, A. M. Searl of this city and Mrs. J. W. Hendee of Wichita, Kansas, have the deep sympathy of these old friends in their bereavement that has been visited upon them.

**FOREST FIRE LESSON**

Washington Times: Here is a little lesson that can be read in the schools or by business men, for it has to do with the present and future welfare of the country.

There have been a sweeping sections of five eastern states. Forest fires as a rule confine themselves to western states where we do not hear so much about them. Every year from ten to twelve million acres of forest land are burned over.

Another enemy of the forest is the insect. This pest does damage estimated at a hundred million dollars every year.

Added to that loss is the regular consumption. Each farmer averages two thousand board feet per year. The farmer, by the way is the greatest consumer of lumber. The furniture industry accounts for 250,000,000 feet of hardwood every year.

Railroads call for a big share of the annual cut. They use 125,000,000 feet under their rails every year. There are 81,000,000 acres of idle land in this country fit for little else than growing trees. According to Charles Lathrop Pack, president of the American Tree association, this idle land must be put to work.

The drain by fire and insect added to the annual building program means there will come a rush to our forest products. In a speech in New York recently Pack said there can be no armistice with enemies of the forest. One of the enemies should be man himself.
