PLATTSMOUTH SCHOOL LOSSES TO CREIGHTON PREP

Young Hilltoppers Too Much For Blue and White—Locals Show Up Good in First Half.

From Wednesday's Daily—
Swept away before the brilliant offense and the equally effective defense tactics of the Creighton Prep basketball team, the Plattsmouth High school team suffered a defeat of 55 to 17 at the Creighton gym in Omaha last night.

The prep school showed its most effective work of the year against the lighter and smaller Plattsmouth team, which was a decided reversal in form for the Omaha aggregation which was recently defeated by Central high school.

In the opening quarter the game was very close and at the close of the quarter the score was 8 to 5 in favor of Creighton, with the Plattsmouth team playing a very fast brand of ball which caused the fans to speculate as to the final outcome of the battle. In the second quarter the Creighton aggregation started their successful offense and ended the first half in the lead by the score of 18 to 8.

At the opening of the second half the Plattsmouth defense tightened, but it was only for a short time as the Omaha players with their clever plays were able to work the ball through their opponents' defense. Short passes were very effective in rolling up the score for the young Hilltoppers. Halpine, fed by Walsh, Leney and Fuxa, was able to tally basket after basket as the Plattsmouth team seemed unable to solve the attacking methods of the Omaha castegeters. Walsh also made some long shots that were good for baskets in the last part of the game.

Joe Buttery was high point man for Plattsmouth with two field goals and five free throws out of six chances. Edgar Wesley played the best all round game on the offense, however, for his team, and tallied late in the game with a field goal from the center of the large gym floor. The Plattsmouth players were very accurate in their free throws.

EAGLES HOLD THEIR TWENTY-FIRST ANNUAL MASK DANCE

Event on Saturday Night is Largely Attended and Many Artistic Costumes Exhibited.

From Monday's Daily—
The twenty-first annual mask ball of the Fraternal Order of Eagles, held Saturday night at the Eagles hall was a very pleasing event both financially and socially and an unusually large number of maskers were to be found during the course of the evening, representing many nationalities and designs.

The judges after the inspection of the maskers in the grand march selected as the first prize winner for the ball, W. H. Mason and the second prize was awarded to Mrs. Clarence Cotner while the third prize was given to Mrs. C. F. Boynton, and the fourth prize to John Hagerman.

The special seven-piece orchestra which had been arranged for the occasion proved a winner in the fine music that was furnished for the dance and the encores for the musicians were loud and numerous and the dancing enjoyed until the midnight hour arrived to bid all to seek their homes.

The Eagles have made the mask ball an annual event and the present one was as successful and pleasing as the aerie has held in the past.

RELIEVES DOG'S SUFFERING

From Monday's Daily—
This morning the early raisers along Main street were treated to a very pitiable sight. A large sized collie dog came down South Sixth street dragging himself along over the snow and ice, his back apparently being broken or so severely injured that it was impossible for him to move save by the use of his two front feet. The dog in this painful manner crawled as far as the court house and then sought shelter in the area way in the rear of the building of C. A. Rawls where it laid down amid the greatest suffering. Chief of Police William Hinrichsen came to the relief of the unfortunate dog and with a well placed shot ended the agony and suffering of the dog. Apparently the dog had been run over by a large truck or very heavy car and its back broken.

MOVE IS AFOOT TO FORM A NEW STATE COURT

Proposal to Create Court of Five Judges to Assist High Court, Before the Legislature.

Senator P. W. Scott of McCook introduced S. F. 62 Monday, a bill to create a court of appeals inferior to the supreme court. The recent constitutional convention authorized such a court, but the legislature has not heretofore been called upon to act on such a measure. Mr. Scott is an attorney and was a member of the constitutional convention. The state bar association has favorably considered and discussed such a measure.

The plan incorporated in this bill calls for the appointment of five judges by the governor to constitute an inferior court of appeals, the appointees to be succeeded in 1927 by five persons, one to be elected in each of five districts in November, 1925, for a term of four years each, at a salary of \$6,000 a year. Not more than three of the five shall belong to more than one political party when appointed.

The districts are defined in the bill and the places of holding court are Chadron, Norfolk, Omaha, Lincoln, Grand Island, Hastings, North Platte and McCook.

Each judge is to have one stenographer. The clerk of the supreme court shall be clerk of the appellate court, but shall appoint deputy clerks in the districts wherein he does not reside. The supreme court reporter shall publish opinions of the new court and he and the clerk shall appoint the necessary assistants.

Three members shall constitute a quorum of the court, and three shall be required for concurrence in an opinion. The bill gives the proposed court original jurisdiction concurrent with and to the same extent as is now given by law to the supreme court in quo warranto, mandamus and habeas corpus; also to have appellate jurisdiction, as now provided by law, in all cases of appeal and proceedings in error from conviction for misdemeanors in the district court; also in appeal and proceedings in error as now allowed by law, taken from final orders and decisions of the district court in civil cases where the amount of value does not exceed \$3,000, exclusive of interest, to the extent that in any such actions as are herein made final in the court of appeals, it shall be competent for the supreme court to require by any proper order of process
