

Nehawka Department!

Prepared in the interests of the People of Nehawka and Surrounding Vicinity Especially for the Journal Readers.

Rev. W. A. Taylor was a visitor in Nehawka last Tuesday being over to conduct the funeral of the late J. P. Stoll.

Miss Gladys Wolfe was an over the week end visitor at the home of Mr. and Mrs. Silas Munn. She enjoyed the visit very much.

Frank Trotter was a visitor in Nebraska City last Tuesday morning having a truck load of hogs which he was taking to market for Louis Rose.

Albert Alford was a business visitor in Union last Tuesday for a short time and also was looking after some business matters at Nebraska City.

Uncle C. W. Snyder is out again after having had a severe attack of the grippe and, while he is not feeling quite himself as yet, he is much better.

Little Edith Bertha, daughter of Mr. and Mrs. Fred Schumaker, has been having a tussel with the grippe but is at this time feeling much better.

Miss Laverta Flemming, who has been visiting for some time with friends at and near Otoe, returned home last week after having enjoyed the visit there very much.

W. E. Steele was a visitor at Weeping Water where he went to see one of his children, Byron, who was feeling quite badly with an attack of the grippe, but who is better at this time.

Mr. and Mrs. Frank Boedeker have been having a little one at their home who has been having the grippe for the past few days. Miss Helen, but who is feeling much better at this time.

Frank M. Massie, who last week was feeling quite badly and who was kept to his bed for a number of days is at this time feeling quite a bit better and is able to be out part of the time.

Mrs. Edgar Glaze, who has been at the hospital for some time in Nebraska City where she underwent an operation for appendicitis was able to return to her home in Nebraska City during the early portion of this week.

L. W. Burbey, superintendent of the school of Nehawka, was a visitor in Lincoln last Saturday where he

was looking after some business matters pertaining to the school and incidentally was a visitor with some of his friends.

Warren Munn with his engine and sawing rig was out to the home of Nick Opp sawing wood last Tuesday and thus keeping warm at his work assisting in getting the fuel in shape for Uncle Nick and the family to also keep warm.

Mrs. Edward Sheehan, who has been at Nebraska City visiting her daughter Mrs. Edgar Glaze and assisting in her care during her stay at the hospital will visit for a short time at the home of Mr. and Mrs. T. E. Fulton in Nehawka before returning to her home in the north-western portion of the state.

James Stone was a visitor at Beaver Crossing last Tuesday, where he went to be present at a pure bred hog sale, which was given there.

When about six miles west of Nehawka, on his way, he met another car and in an effort to get out of the way so the other car could pass him he got into a ditch and had to have his brother come with the truck and get the car out before he could proceed on his way.

James T. O'Hara Here. Last Tuesday James T. O'Hara, who was here in the interest of the drilling for oil, was in town and was looking after some business and was arranging to drill for oil and this time with the hope of attaining the object of their search. Mr. O'Hara in conversation with the representative of this paper said that he was sure that there was oil here and that while he had said that the drillers would find granite where they drilled that as he was under contract to drill the well where the geologists designated he had to stand by and allow the work to go on when he felt certain that it would result in failure. He feels certain that there is oil here, and also that had the drillers gone the required 35 hundred feet, they would have gotten oil where they were working. He expects to arrange for the sinking of another well.

Will Play Basket Ball. The young ladies' as well as the boys' basketball teams of the Nehawka, will go on this Friday to Otoe where they will play the teams of that school. By the way the girls team of the Nehawka schools have not been beaten this season, and have contested with some very strong teams during the time, once against the almost unquishable team of girls from Murdock. The girls of the Nehawka team are playing very good basketball this winter.

Lacerated Hand Badly. Last week while James McVey was endeavoring to change his windshield on his car, the frames of which were pretty tight, he pushed his hand through the glass cutting it very severely, so much that it required the services of the surgeon who took four stitches to close the gaping wound. He is getting along nicely at this time and hopes soon to be as good as ever.

MAY MAKE ANOTHER OIL TEST AT NEHAWKA

J. H. O'Hara, Holder of Large Number of Leases There Is Promising to Drill Well There

The Nehawka anticline, where the state geologists have held the most optimistic hopes of location of a flowing oil field, is to have another test made in the hopes of uncovering a real field there, according to the statements made by J. H. O'Hara, holder of a large number of the oil leases in that locality.

Mr. O'Hara was at Nehawka this week looking over the territory and it is decided that there should be another well sunk there to fully determine whether or not there is paying oil prospect there and he is making his plans to have the work started when the season opens up to allow the drilling to be carried on as it should be.

The owner of the leases believes that the site formerly selected was one where the formation of the anticline was such as to bring in the granite ledges between the drilling operations and the oil stream and if the drilling is resumed this coming spring and summer the site of the operations will undoubtedly be along the vicinity of the Weeping Water creek where the formations give less evidence of rock formations and where it is hoped the oil stream may be located in more favorable drilling operation.

While not designating the spot where the drilling would be started Mr. O'Hara was of the opinion that this work would probably be taken up among the first pieces of land leased for the drilling purposes last year and which will mean that the operations will be in the immediate vicinity of Nehawka.

The test well being tried in another formation of land will give a much better opportunity of determining whether or not there is oil there and be more satisfying to the Cass county people. In almost all oil fields there have been many test wells sunk where a successful one was revealed and this may prove the case in the Nehawka anticline.

John Peter Stoll Passes. Last Sunday morning after an illness extending over some four years John P. Stoll passed away at the home where he was born and lived since. Mr. Stoll was stricken about four years since with an enlarged spleen, and while everything possible was done, by specialists and the local physicians, he did not throw off the dread malady. During the past year he has grown much weaker, and wasted away in flesh until the time of his death he was very poor in body, and with but little strength.

Mr. Stoll was one of the best of citizens and has lived with the people of this community for more than a half century, they learning to honor and love him for his sterling qualities of character, which he manifested at all times. The Odd Fellows of Nehawka under the beautiful ritual of their order conducted, in conjunction with Rev. W. A. Taylor of Union, the funeral ceremony which was held at the home northwest of Nehawka on last Tuesday afternoon. The interment was made at the cemetery near the home, where he had been born and had lived all of his life. Thus the remains of the excellent man will sleep near the scenes which he with his neighbors enacted during the last fifty years.

Mrs. Henry Thiele has been suffering from an attack of the grippe for the past week and is still feeling quite poorly but is showing slight improvement. Her many friends still rejoice when she shall have entirely recovered from the malady.

FARM BUREAU NOTES
Copy for this Department furnished by County Agent

Denver Stock Show
Harry Knabe of Nehawka had a car load of fat Hampshires at the Denver stock show. He won second and third on barrows weighing 275 to 375 and second on barrows under 275 and first on those weighing under 225. We still remember Harry as one of our first club boys.

Club Work at Eagle
The following application blanks have come in from Eagle, with Byron McMahon as local leader: Swine club enrollment, 22; corn enrollment, 17; dairy calf enrollment, 5; baby beef enrollment, 7, and potato enrollment, 11. Mr. McMahon, better known as Mack, is a go-getter and the entire community is behind him in club work. Go ahead, boys, we will help you all we can.

Woman's Work
The first meeting for the delegates of the woman's clubs in the county will be at the Congregational church at Weeping Water on Tuesday, February 3rd. The delegates should be at the church at 1:00 o'clock as this is just a one-half day meeting and Miss Smith who will meet with them, will leave on the 3:30 train, going to Lincoln. The first meeting will

be organization and also three inexpensive ways of cleaning silver. Be sure your delegates are here.

Soil Trials
A prominent farmer has been arrested for robbing the soil and we hope to convict him at Nehawka on February 3rd. At Union February 4th, and in the Glendale neighborhood east of Louisville, February 5th. These are all evening meetings beginning at 7:30 sharp. Also at Avoca either February 4th or 5th, beginning at 1:30 o'clock. Come, bring your family, they will enjoy it.

GUILDS HOLD MEETING
From Wednesday's Daily—

Yesterday afternoon the St. Luke's and St. Mary's Guilds of the Episcopal church were most pleasantly entertained at the beautiful home of Mr. and Mrs. George Petring on High school hill and the event was quite largely attended by the ladies belonging to the two guilds.

The greater part of the afternoon was spent by the ladies in their sewing and also in the plans for the luncheon that is to be held on February 3rd by the ladies and to which the public will be invited, up to the limit of 150.

The occasion was marked by the delightful hospitality that is so characteristic of the Petring home and dainty and delicious refreshments served at an appropriate hour.

The ladies had as their guests of the afternoon, Mrs. Jack Davis of Falls City, and Mrs. T. D. Brown of this city.

CHANGE MADE IN A LOCAL OIL STATION TODAY

L. L. McCarty Becomes Manager of the Collins Oil Station Here, Succeeding F. W. Elliott.

From Wednesday's Daily—
The management of the Collins Oil station in this city was changed today when F. W. Elliott, who has been the manager of the station for the time that it has been in operation in this city, the past two years, had his resignation accepted and Mr. L. L. McCarty, former local manager of the Standard Oil station, became the manager of the Collins interests here.

The Collins company has a very handsome station at the corner of Sixth and Vine streets, adjoining the site proposed for the new Legion Community home and it is one of the best located in the city and under the able management of Mr. Elliott has proven very successful. Mr. McCarty, the new manager, is well qualified for the position of manager of the station and of the interests of the Collins company and should prove a real asset to the company in the conduct of the affairs of the station. Mr. Elliott will remain at the station for some time to assist Mr. McCarty in getting started on his new line of work. Mr. John Deason will be in charge of the Standard Oil station.

AMERICAN DESTROYER TO CONVOY SHIP TO SHANGHAI

Shanghai, Jan. 25.—An American destroyer has been sent to the mouth of the Yangtze river to convoy the American express round-the-world steamer Belgica into Shanghai and guard the vessels during its stay in this port.

This action was taken as the result of troops of the Woo-Sung forts firing on steamers passing that point.

The forts fired on the Jardine Matheson steamer Tuckac, which arrived from Hankow this morning. After the vessel was brought to a standstill, a boarding party was sent aboard and three Chinese passengers were removed from the steamer. The other passengers were not molested.
