Many Attend Convention

The Alvo Woman's club is a live organization and is a working factor for the best interests of Alvo and the surrounding community and was represented at the district convention which was held at Plattsmouth last Wednesday afternoon and which was a real revelation to its auditors. The mission schools are maintained in the prison settlement and the most splendid results are secured in reaching the children of the unfortunate dwellers, many thousands being led into the light of Christian living in the mission and making splendid men and women in the work of reaching the native masses of that country. In twenty years of mission work there has been 600,000 persons led into the light. The great service was not in reaching so effectively the older people who were steeped in crime but in saving their children from setting into the wrong path and ruining their lives.

Bishop Miller, one of the strong figures of the church, proved a great feature at the session and in a pleasing manner detailed the condition of affairs in South and Central America that was a revelation to his listeners, pointing out the various types of people there and the great good that had been accomplished in extending the teachings of the church among the residents of the older portion of the American hemisphere. He told of the characteristics of the residents of the various sections of South America, the struggles that had been experienced in bringing the message to the peoples of that continent and the globe. Bishop Miller sketched the conquest of Peru and the other countries and the sufferings and privations that the inhabitants had undergone at the hands of the Spanish. The earnest and sincere efforts of the peoples of the South American countries to carry on the teachings of the church were praised very highly by the bishop.

The work of the church in the South American countries had caused a change in the mental attitude of the peoples of the countries, they were gaining more and more the desire for education and the training that was given to them of a higher ideal. The growth of the missionary spirit was shown in Brazil, the bishop stated, by the fact that each of the members of the faith in that country was contributing \$20 per year to the cause of the church, and this, too, in view of the fact that they were not in the best of circumstances.

Rev. Pallisoul spoke of the condition in France during the war and his work in that country starting with his mission at Lyons. In that country there was twenty per cent of the people who were devoted to the Roman Catholic church, but 40 per cent of the people were without any religious affiliations and groping in the darkness of religious doubt. He related a number of his personal experiences in the work there also.

At the afternoon meeting there was a large attendance of the citizens, members of the church and outsiders as well to enjoy the intelligent and clear statements of the conditions that prevail in the foreign fields in which the Methodist church operates.

Rev. Lipp in his address was very dramatic as he related many stories of personal experience in the Indian field, his long stay there in charge of the prison settlements giving him a wonderful amount of information that was a real revelation to his auditors. A small table with a small cake with four pink candles along with small individual cakes, Easter baskets with candies at each plate for the small children was in readiness when the little folks came in and Mrs. Eidenmiller and Maxine needed no other expressions than to notice them to realize their appreciation of their efforts in preparing such an entertaining feast. After the day was spent with each other, they departed remarking a pleasant time and wishing Burton many more happy birthdays.

The officials made an inspection of the local Burlington shops this morning, making a thorough visitation of the various departments and the equipment in the departments.

The Plattsmouth shops have the honor of being the foundation of the present extensive shop system of the Burlington road, and in the past years made a great record of efficiency in turning out high class work of all kinds and kept well to the front of the railroad shops of the country in the volume of the output of their shops.

Mr. Bracken departed on No. 4 this morning for the east and will make stops for inspections at the various shops along the line from here to Chicago, including an extensive trip through the west. Mr. Flynn returned to Omaha this afternoon where he has his headquarters. This morning a committee of the chamber of commerce composed of President Searl S. Davis, Mayor John P. Sattler, E. A.
