Lumbering Along

Not in an Awkward Way but in a Business Way

This is the time of year to start your building program. After the long cold winter, there are many repairs that need to be made. Better make them before the hot weather comes.

How about a screened-in porch, or a sleeping porch?

Beat the flies to it!

We just received a nice shipment of screen doors. Put 'em up before the flies get here.

We appreciate your patronage.

Wheat Not Looking Good.
There is much concern felt on account of the very poor condition of the present growing crop of wheat. Many farmers are at this time plowing up their wheat and putting the land to corn and oats and other crops. The shortage of the wheat crop is more serious than for many years, and according to some estimates the condition and acreage of wheat at this time only equals about 61 per cent of the average of preceding years at this date. We might have to dine on hoe cakes the coming years if the condition of the present are justified by the real yield at the time of harvest.

DUSEK ADDS TO STRING; IS OUT FOR BIG GAME

Rudy Makes It 100 Consecutive Victories by Defeating George Ellis at Dallas, Texas.

Rudy Dusek, the marvelous youthful wrestler, whom local followers of the mat game are particularly interested in thru his being a brother of Anton Hanson of this city, has won his 100th consecutive victory and is out for big game. He declares he will not be satisfied until he has been given a shot at the world's championship held by Wayne "Big" Munn, also a Nebraska boy. What he would do against the 260-pound champion is subject for debate, says the Dallas Dispatch in its account of his victory there last Thursday night over Geo. Hills, another of the proms as heavyweights of the south—and his 100th straight victory.

"Dusek, however, has shown that he can handle himself pretty well against the big fellows," says the Dispatch. "Rudy himself is one of the fastest heavyweights in the game and might have a chance, despite the fact that he weighs only 205 at the most."

Rudy took two out of three falls, winning the first in 36 minutes, losing the second in 11 minutes and winning the third in 16 minutes. The match was full of thrills and kept the packed house in an uproar.

Local friends of Dusek will watch with renewed interest his increasing number of victories and trust he may be able to add another hundred before getting "dumped" for a defeat. Certainly a wrestler who can win as consistently as he has, is deserving of a try at the much coveted honors in this realm of sport.

TEACHING OF FOREIGN LANGUAGES FOSTERED

New York, April 13.—A committee working under auspices of the American Council for Education, has sent out questionnaires to the 20,000 secondary schools in the United States, asking for statistics on the study of French, German, Italian and Spanish. A similar investigation will also be carried on throughout the 700 colleges and normal institutions.

The Modern Foreign Language Study league, which has its headquarters in New York, is supported by the Carnegie corporation of New York. Three language experts are giving all their time to the investigation. Co-operation of college and school teachers will be mobilized to improve the teaching of these languages to American boys and girls.

The investigation will extend over the entire United States and Canada. Later the committee will incorporate its findings in a report for the use of teachers and administrators in the American schools and colleges.
