

Alvo Department

On last Saturday there was a sale held at the former home of Willis Whitney to close up the estate.

A. B. Stromer was wiring the home of Joe Bennett last week and this gentleman will in the future enjoy electric lights.

George Brown and wife of South Bend were visiting in Alvo on last Wednesday for the afternoon with relatives and friends.

Attorney C. D. Ganz has been assisting a firm of attorneys in Lincoln with some important legal trials in the capital city.

John Skinner was in Omaha one day during the week with a load of hogs from Ray Arsell who lives a few miles south of Elmwood.

Wm. Stewart and Chester Ough have been over in the vicinity of Manley for the past week or more sinking a well for a farmer there.

Emil Kuehn, of Murdock, the barber of that place was a visitor in Alvo one day last week and was calling on his friend, Eddie Craig.

Uncle George Cook, who has been quite ill for some time, still remains poorly though it is thought that he is a little better at this writing.

Mr. Sam Humphrey and family have moved into a house in the north part of town. Mr. Humphrey still acting in the capacity of night watch.

Leo Hill from Lincoln was a visitor in Alvo for the past week, and was looking after the receiving of some corn which has been sold for immediate delivery.

C. A. Schulte has been tearing down a corn crib and building a machinery shed for the past week and has a place which will protect his farming machinery now.

Roy Coatman and family were visiting last Sunday at the home of Mr. and Mrs. G. L. Henneger southeast of Weeping Water, where they all enjoyed the occasion very pleasantly.

Emma Friend and daughter, Miss Irene, and Floyd Dickerson were visiting in Lincoln last Thursday, they driving over to look after some business matters as well as to visit with friends.

Wm. Kitzel and wife were visiting in Lincoln last Thursday, driving over to get the teeth of Mr. Kitzel, which have not been of much use of late, extracted and to look after some other business as well.

Carl Rosenow and Ralph Snavely were over to Ashland, where they spent the day last Wednesday fishing and bathing and enjoyed the occasion very nicely as well as getting two fish over three inches in length.

Mrs. Douglas Stevens, who has been here since the death of her husband, the estimable citizen Douglas Stevens, with two of the children departed one day last week for Texas, where they will make their home in the future.

W. W. Coatman and R. M. Coatman were over to Weeping Water last Tuesday, where they went to attend the funeral of their old time friend and neighbor, A. A. Johnson, who died at his home in Weeping Water on last Sunday, an account of which appears elsewhere in this paper.

Business Changes Hands

Mrs. N. H. Coleman and R. H. Ackley, mother and daughter, of Bennington, which is near Omaha, arrived in Alvo during the first part of last week and purchased the restaurant and candy shop of Mr. and Mrs. Samuel Humphrey, and immediately took possession of the place and are conducting the business. They will carry a line of goods which are generally carried and will feed the public, and it looks like they should succeed.

Changed Gas Companies

R. M. Coatman, who has been serving his customers Sinclair gas, which was costing him a good round price, has been trying to secure the gas so that he could save the farmers some money. But failing in this, he has had the State Oil company of Lincoln install a pump and will handle their gas. This enables Mr. Coatman to make a better price on gas, and thus is the price at 20 cents per gallon instead of 23. Under the price, which is also the price of Mr. Art Dingus, who handles the Standard gas, the fuel for the flier and other cars is quite a bit lower than obtains in other portions of the county, the prices at the county seat being 22 1/2. In all instances including the state tax.

Woman's Club Has Fine Meeting

The Alvo Woman's club met last Wednesday at the pleasant home of one of their members, Mrs. Harry Appleman and there looked after the business of the meeting, enjoyed a most worthwhile program, and at

the same time as a very enjoyable social session, all the good features of the afternoon were enhanced by the delightful luncheon which was served by Mrs. Appleman and her assistants.

On Their Way Home

Clarence Curveya departed for California a short time since and is at this time driving the car of his parents, Mr. and Mrs. George Curveya, to Alvo, the Curveya family having spent the past winter and spring in the west.

Played Real Ball

The Alvo ball team went to Arbor, where they crossed bats with the team of that community, with the result that when the game was set, it was found that the teams were pretty evenly matched and it required some twelve innings to decide the game. The game ended by the Arbor team defeating the sturdy lads from Alvo by a score of 8 to 7.

Delivered Memorial Sermon

The Rev. C. A. Norlin, pastor of the Methodist church of Alvo, delivered the memorial sermon at the church paying honor and respect to the memory and gallant acts and heroic prosecution of the members of the armies of the Civil war, the Spanish American war and the World war, for their defense of the principles of Americanism and the American ideals. Many of the citizens of Alvo and vicinity were there to enjoy the discourse. There is at this time no one a member of the Grand Army of the Republic in Alvo, and but one civil war pension being paid, that going to Mrs. Birf, northeast of town, who received a widow's pension.

Grain Business Lively

The Rheneyer elevator has been receiving a large amount of grain during the past week, notwithstanding the fact that they handled very much grain during the winter and early spring. Those to haul corn to the elevator during the past few days are Leo E. Steele, John Woods Jr., Frank Daugherty, Mrs. O. J. Kitzel and Bert Kitzel, while the following delivered wheat: Carl Johnson, John Baumquist, Chris Nebson, Thomas Stout and Charles Haertle, Jr.

Kill the Lice

Lice keeps the stock from growing. Kill the lice and save the stock. We sell the powders that get the lice. Same as used by the Lincoln hatghery. Excellent for poultry, especially chicks. Going at a discount now.—John W. Banning, at lumber yard. m25-2A

Notice, School Meeting

Annual meeting of School District No. 102 will be held in school house June 5th at 8 P. M. for the purpose of voting \$16,500.00 for general school purposes which is in excess of the limit of mill levy and for such other purposes as may legally come before the meeting.
H. L. BORNEMEIER, Secretary.
m11-3tinA

IOWA'S GAS TAX SO FAR BRINGS IN UNDER \$100,000

Des Moines, Ia., May 22.—Receipts during the first month of operation of Iowa's new gasoline tax law have been a little less than 100 thousand dollars. State Treasurer Ray Johnson said today. It will probably be ten days before the actual amount will be known, as some disputes between gas dealers and the state remain to be adjusted. Members of the legislature had estimated the law would produce about 380 thousand dollars a month.
Mr. Johnson said the names of about 5 hundred motorists, whose car numbers were taken in an investigation of "gas smuggling" at Rock Island, Ill., would be obtained within a day or so from the state auto department, and that they would be billed for the state tax on gas bought on the Illinois side of the river.

"BUY YOUR NEXT WINTER COAL NOW" SAYS HOOVER

Washington, May 22.—There are many reasons, in the opinion of Secretary Hoover, why consumers of both anthracite and bituminous coal should stock up during the next few weeks.

Low prices, ease of transportation and adequacy of production, he believes, will facilitate action at this time and may not be available later, while in buying now the consumer will aid general interests as well as his own with further indirect advantage to himself.

DEATH OF GEORGE COOK, OLD RESIDENT OF COUNTY

Death Comes to Well Known Alvo Man After Illness of Some Duration.

Yesterday afternoon at 1 o'clock at the home at Alvo, Nebraska, occurred the death of George Cook, aged 70 years and one of the old time residents of that section of Cass county.

The message of the death of this good man reached this community last evening and left a profound regret among the host of friends of this well known family who have had such an important part in the development of the county.

The deceased was a member of the well known Cook family who have long occupied a prominent place in the history of our county.

To mourn the passing of Mr. Cook there remain the three children, Frank E. Cook of Alvo, Perry Cook of Lincoln and Mrs. Dottie Tams, who resides in the vicinity of Lincoln.

There are as well the ten brothers and sisters all of whom will feel deeply the severing of the golden circle of family membership. Mrs. T. W. Valley of near Murray, Charles E. Cook, Mrs. S. O. Cole, Mrs. W. D. Wheeler and Joseph Cook of this city; Mrs. Bina Kitzel of Alvo, J. D. Cook of Ord, Philip Cook of Hader, Nebraska; John Cook of Beaver City, Will Cook of Elmwood.

The funeral of this splendid old citizen will occur Sunday at 2:30 from the First Methodist church at Alvo and the interment will be made at the cemetery there.

A more extended sketch of the life of Mr. Cook will appear later in the columns of the Journal.

KIRKHAM FAMILY IS DOING VERY NICELY IN NORTH

South Dakota Editor and Wife, Former Residents Here, Taking Treatment of Mayos.

The current issue of the Northwest Post of Belle Fourche, South Dakota, contains a very interesting letter from Editor Bert Kirkham of the paper, who is at the Mayo hospital at Rochester, Minnesota, taking treatment, and where Mrs. Kirkham was operated on recently. Mrs. Kirkham is a daughter of Mr. and Mrs. M. M. Beal of this city and Mr. Kirkham is a brother of City Treasurer John E. Kirkham. The letter is as follows:

"Mrs. Kirkham entered St. Mary's hospital last Monday afternoon, and on Tuesday morning at 8:30 she underwent a rather serious operation, performed by Dr. Wm. J. Mayo. She is now getting along very nicely, but it will be a couple of weeks or more before she is able to get around. By the way, I am told that St. Mary's is the largest hospital in the U. S. The new addition was built at a cost of \$2,500,000, and the institution occupies about two square blocks. There are eleven operating rooms and 700 beds, all the interior, stairways, floors, etc. being marble, and the rooms modernly furnished throughout.

"Rochester is a city of 16,000 population, but I am informed that there are 5,000 transients here every day. I believe this is the cleanest and prettiest little city in the country and comes as nearly as possible 'dustless' town as possible. All of the streets are paved and the residence district is laid out like parks, with large handsome trees and shrubbery everywhere. I haven't seen a fence in the city, and really the streets are washed every day. These machines shoot the water out in front instead of behind and the stream extends the entire width of the street. There are thirty-five hotels in this city, a dozen or so huge apartment buildings and hundreds of private homes, where rooms and board may be procured. The three theatres are crowded to capacity at each performance and if I had a few hundred thousand dollars to invest, I'd sure 'take a shot' at building a modern, up-to-date picture show right here. The Mayo park, through which the Zombro river winds its way, is one of the many points of interest, and here a good sized zoo is maintained; a large concrete band auditorium, green house, beautiful flowers, shrubbery and trees everywhere, light-sewing cars make trips every hour, and before leaving here we expect to take in all of the pretty places. The city is well supplied with churches, schools, lodge halls, etc., and the whole town looks as though it had been laid out by landscape artists—everything very so neat and well proportioned. Last Sunday—Mother's day—Mrs. K. and myself went to church twice, morning service and afternoon vesper at the Congregational church thereby establishing a new record for me, anyway. I haven't noticed any effects thus far from my reckless conduct and shall probably recover from the shock, whether my B. F. friends do or not."

"B. L. KIRKHAM."

SAYS M'ADOO HAS EYE ON 1928 NOMINATION

New York, May 22.—A Washington dispatch to the New York World today says that with his eye fixed on the presidential nomination in 1928, W. G. McAdoo is holding a series of political conferences with democratic leaders throughout the east. He is due in New York for a week's visit, the dispatch says, after a consultation in Louisville with Governor Fields and James P. Brown, publisher, and after unobtrusive movements and conversations with social friends only in Washington. He visited Mrs. Woodrow Wilson and talked with Daniel C. Roper. The dispatch says that while pronounced efforts are being made to divorce the eastern trip from political atmosphere, back of it is the well founded rumor that McAdoo forces are lining up in an effort to abrogate the two-thirds vote.

LOUISVILLE GRADUATES HAVE SERIOUS ACCIDENTS

Young People, However, Stand Their Ordeals and Take Place in the Graduating Class of Year.

Herbert Heil, one of the graduates of the class of 1925 of the Louisville high school, had the misfortune to suffer from a painful injury last Thursday when he was going home from town horseback and his horse took fright at an automobile and ran against a fence. The fence post projected out a considerable ways and Herbert's right leg was cut and torn, the gash being very deep, almost to the bone.

He stopped at the home of his uncle, John Wegener, and Mrs. Wegener rendered first aid very efficiently and he then came back to Dr. E. H. Worthman's office where he was given medical attention. In spite of the fact that his leg pained him badly and he was stiff and sore, he was able to attend the commencement exercises in the hall that night and take his part on the program and acquitted himself very creditably.

By a strange coincidence, another member of the senior class, Miss Evelyn Jackman, was almost incapacitated to appear in her place on the program, as the week before she figured in an automobile accident in which she received a broken leg, the limb being fractured in two places just above the ankle. However, she displayed the same grit and determination not to mar the program and she appeared in a wheel chair.

If these two cases are samples of the stick-to-it-tiveness of the whole class there is no doubt but that they are far along on the highway of success as this is a very necessary qualification and these two young people deserve especial credit for the effort they made to do their part.—Louisville Courier.

COMPENSATION FOR INJURED EMPLOYEES

State Commissioner Hears Cases Left Over From the Former State Administration.

The state compensation commissioner, Frank A. Kennedy, has awarded Richard Lane \$10 a week for ten weeks, from February 3, \$95 for medical and surgical treatment and \$50 hospital expense, when injured while employed by James J. Walker, sub-contractor, on the Whitney irrigation project. He received a fracture of the right leg and ankle.

John Thompson, an employe of the Morton-Gregson company, at Nebraska City, was injured by cutting his finger with a knife. He was treated at the first aid room of the packing company for two or three weeks and returned to work after which an infection set in and the company denied liability. Compensation was awarded after a hearing by the commissioner at the rate of \$12.66 a week in addition to the insurance which is carried by employes of this company, together with medical and hospital expense.

In a hearing of Ogalala who was injured as the result of the kick of a horse had to have one kidney removed September 10, 1924. He was employed by A. Keithley. Compensation was paid for a period, also medical and hospital expense at North Platte. Compensation was allowed too for temporary total disability from September 8, 1924, until disability ends, at \$15 each week, together with medical and hospital expense.

On application by an insurance company for rehearing to determine disability compensation was awarded Everett Morris, an employe of a Great Western Sugar company at Bayard, for temporary total disability from February 29, 1924, less the number of days he was able to work during 1925, at \$15 a week, with medical attention. The employe had drawn compensation for 23 weeks and was discharged by a surgeon and signed final release. Later he complained that he was unable to work. The commissioner, upon opening the case of Frank Baker vs. T. M. Hall of Scottsbluff, ordered further compensation at \$15 a week to begin to run from the day the plaintiff submits himself for treatment at the defendant's expense, compensation to continue during disability resulting from such treatment. Baker was hurt July 19, 1922, by being run over by a truck while employed as separator man for a threshing machine.

The award of the former commissioner in the case of J. B. Prater of Neligh against the Western Bridge & Construction company was not disturbed by the present commission-

er after he had viewed the plaintiff's injured foot and leg to the knee. A fracture of the hip socket was suffered by the plaintiff February 15, 1924. The former commissioner had allowed \$15 a week for 197 weeks as 50 per cent permanent loss of the use of the left foot. The construction company applied for a hearing to determine if there had been any improvement in the injured foot or leg.—Lincoln State Journal.

PRESBYTERIANS FAIL TO END CONTROVERSY

Modernist - Fundamentalist. Debate Still to Come Before the Assembly.

Columbus, O., May 22.—While the general assembly of the Presbyterian church today settled down to business, no headway was made on the settlement of the issue involving the liberal acceptance of the confession of faith.

All overtures were started through channels that will lead to three eventual dispositions, except those concerning the modernist-fundamentalist controversy. These, including that of the Chester, Pa., presbytery, which asks that the New York presbytery be excluded for disloyalty, remained in the hands of the committee on bills and overtures. Dr. W. O. Thompson, Columbus, whom William Jennings Bryan, extreme fundamentalist, supported for the moderatorship, is chairman of the committee.

Charles H. Brent, Buffalo, of the Episcopal church, and Mr. S. Parks Cadman, Brooklyn, Congregational minister and president of the Federal Council of Churches.

According to figures submitted by Dr. Lewis Szymore Mudge, stated clerk of the assembly, there was a net increase of 40 thousand in the membership of the church for the fiscal year, ended March 31, last. Total membership was brought to 1 million 870 thousand.

LEGION NEWS!

A column appearing in the Daily Journal on Saturdays

Convention's over!
Plattsmouth was "on the map."
Our drum and bugle corps helped the most to put her there.

And we have something big to look forward to next year, when all roads will lead to Plattsmouth.

Falls City post admitted they had overlooked one important matter—a free service station for flat tires—after they had heard about all our bad luck in this line.

The next Legion observance is of Decoration day next Saturday. Conrad Walt Schaus is in charge of the firing squad and is getting things lined up in that capacity.

Dr. Earl Bellinger, who was to be the speaker, has wired us he is called to the west coast on business and can't be with us. State Headquarters of the Legion promises however to send us one of the best speakers to be had in the capital city.

The drum and bugle corps is planning on further enlarging its personnel and will also hold some activity in the near future to raise the indebtedness incurred in outfitting the corps. This organization did a lot to advertise Plattsmouth at the hot City, marching the streets in the hot afternoon sun almost without rest, and is entitled to support in whatever activity it may undertake along this line.

The need for protestant union was emphasized in addresses by Bishop

day night at basement of the Episcopal church. Decoration day arrangements and other matters of importance to come up. Please be there.

There is every shade of paper and many beautiful special designs of the Dennison company to be found at the Bates Book and Gift Shop. Now is the time to inspect these lines if you wish anything in the line of crepe paper or crepe paper napkins.

FOR SALE

Spotted Poland China Boars

By Creator 64,871 and The Commodore 94,097. Creator is said to be the best producing boar of the breed. He was first prize aged boar at Nebr. State Fair last fall. These boars will weigh in neighborhood of 375 pounds. We are also offering sows for fall farrow. Call or write
