

Union Department

Prepared Exclusively for The Journal.

For hail insurance see us at Bank of Union.

Clifton D. Smith, scoutmaster, has been giving some of the boys of the Boys Scouts lessons in telegraphy.

Walter Johnson has been hauling corn from the McCarthy elevator to his farm southwest of town for feeding.

Ray Campbell of near Rock Bluffs was a visitor in Union last Monday afternoon having some work for the busy blacksmith, Bruce Wolfe.

Mrs. D. C. LaRue and son, Lucian, and Mrs. Ellis LaRue were visiting at Silver Creek where they spent Sunday at the home of relatives.

W. L. Taylor and son, Garrett, of Omaha were visiting in Union last Saturday and Sunday as well as looking after some business matters.

Mrs. George Johnson of Burwell is visiting with relatives and friends in and about Union, being a guest at the home of R. D. Stine and others.

Mr. W. A. Harding repairs a little wheat coming in at this time and is expecting more as the threshing machines have begun to hum in the land.

Joe Banning and the family were visiting and spending a portion of last Saturday afternoon in Nebraska City where they were enjoying the Fourth.

Chas Rutledge of Nehawka was visiting in Union last Saturday looking after business matters and soliciting for his paper, the Nehawka Enterprise.

James H. Frans is threshing his this year's crop today, Thursday, and expects for this year a pretty fair return, but not looking for things as last year.

Miss Nola Banning was a visitor last Saturday for the day at the home of her friends, J. A. Simmons and wife, where all spent the day very pleasantly.

Miss Cordelia Roddy and Miss Doris Frans were visiting last Sunday at Peru and were guests of Miss Lavanga Frans, who is attending summer school there.

Bert Frans departed last Monday for Arriba, Colo., where he will look after some business matters and also will visit with his friend, Edgar Merton, for a while.

Master Melvin Todd has accepted a position in the drug store as the dispenser of refreshing drinks at the fountain. Melvin will make a most clever salesman in this line.

Uncle Harvey Miller was visiting for a few days last week at the home of his brother, Oliver Miller, near Washburn where he enjoyed the time spent with his brother and wife.

Daniel Schaefer of Bethany was a visitor in Union and vicinity where he was a guest at the home of his aunt, Mary Sheldon and also visited with other relatives and friends.

Mrs. M. R. Huggson and daughter, Verda, of Brock, formerly of this place were visiting with relatives and friends here for a number of days extending over last week and this week.

Frank Boggs was a visitor in Weeping Water last Wednesday and was accompanied by Mrs. Boggs, he looking after some business matters there while she was visiting with friends.

W. A. Harding was a visitor at his home in Bethany last Sunday and on his return his son, Niles, accompanied him for the week and will assist the father in the work at the elevator.

L. R. Upton and family were in Plattsmouth last Sunday afternoon where they went to enjoy the concert given by the Shrine band at the Masonic band and enjoyed the event most splendidly.

Winnie Cull and Doris Frans were visiting at the Dan Lynn camp at the mouth of the Weeping Water river and there enjoyed the day nicely with swimming, fishing and boating, last Thursday afternoon.

The lightning played pranks with the Farmers' elevator last Wednesday when it put a few holes in the roof of the elevator but did not cause any fire, which was a source of much comfort to the owners and manager.

Clifton D. Smith and wife were guests last Sunday for the day at Nebraska City where they were enjoying the day at the home of Mr. and Mrs. J. A. Simmons, they all taking their dinner and enjoying it at Merton park.

Misses Alma and Ada Friberg, who are granddaughters of Mr. and Mrs. Lynde are visiting at the home of their grandparents from Bern, Kansas, they having been here since last week and are enjoying the visit here very pleasantly.

Old Line Hail Insurance. Bank of Union.

Don't wait too long. Get your hail insurance at Bank of Union.

Joseph Banning, J. D. Cross, Guy Stokes and W. James all sold corn during the present week for immediate delivery, they thinking the condition of corn as it is in the fields at the present time justifies the belief that there will be a good crop of this cereal.

Mr. and Mrs. Jack Howard of Hiawatha, Kansas, were visiting at the home of Mrs. Howard's parents, Charles Garrison and wife for over last Saturday and Sunday, they returning to their home in the south on Monday afternoon, they having made the trip in their auto.

Ira Clark is moving his family from their home in the rural portion of the city to the lower hotel where they will make their home, the residence having been rented to the new druggist, Mr. Miller, who with the family will make their home there.

At this time Mr. Clark is not decided as to whether he will occupy the lower portion for his barber shop or not.

The Rev. C. L. Elliott, pastor of the Methodist church of Union, departed last Saturday for Denver, where he goes to a summer school for the pastors of that church. Rev. Elliott will be away for about two weeks. He was met at Plattsmouth by the pastor of the Methodist church at Louisville who also is taking a course in the summer school in the west.

Will Visit Niagara Falls

Messrs. and Mesdames R. E. Foster, L. G. Todd and Henry J. Rahnmann are departed for Niagara Falls for an outing under the auspices of the Henry Fields Seed company, they starting today and will be away for about two weeks and will see much country and enjoy a most splendid time.

Were at Ak Den Monday

A large crowd of people from Union were enjoying the evening and withstanding the heat, last Monday at the Ak-Sar-Ben and seeing the mysteries of 1925 conferred on a number of candidates of which they were a part of whom. They drove over to the metropolis in cars and returned in the cool of the evening after the ceremonies and festivities were over. There were among those who were present the following: L. G. Todd, Ellis LaRue, W. B. Banning, C. D. Smith, E. E. Leach, Joe Wolfe, E. W. Moore, Frank Bainter, A. W. Propst, Tony Suddith, Allen Eaton, O. A. Pearsley, Henry Pearsley, Lucian Banning, L. R. Upton, Ira Clarke and Eugene Roddy.

Visited At Hamburg

Frank Bauer and Elmer Withrow were visiting at Hamburg, Iowa, on last Sunday where they went to see the place where the Weeping Water dam was built up with a high fence and there were many people there but they could not see the well, but did get a glimpse of the product which was real oil and no mistake. The gentlemen think though that it is possible to get oil here as well as there.

Will Make Home Here

Mr. and Mrs. M. L. McCleve, who have been visiting in Lincoln, while on their return to their home in Omaha, stopped here for a "sit" of a short time and announced that they would in the near future come to Union to make their home. They have property here and this would be a good place to make a home. The people of Union extend a welcome to this excellent couple to make their home here.

An Old Time Ball Player

William Burrows, for some years past a resident of Holton, Kansas, changed cars at Union last Sunday, en route home from Weeping Water, he having been there to attend the funeral of his uncle, the late Stephen W. Orton, whose remains were brought from California for interment.

Will Burrows was a resident of this county more than 54 years ago, the family living in Eight Mile Grove precinct, and it was there that he began playing ball at about the time Shered and Charley Graves began to play the game at Rock Bluffs. Mr. Burrows well remembers some of the hot contests of those days, when the late Bennett Chriswiser was captain of the Eight Mile Grove club called the "Mooocks." He also recalled the names of many of the "young fellows" who were in the game in those early days, including John Lambert, the Farthing boys, Jim and Tom Patterson, Ira Dye, Frazer Bear and many others.

ATTENTION

You Bad Dispositioned, Tail Flipped, Fly Bitten Cow Milkers!

I have Bovinol—the cure for those nasty flies. Spray your cows and horses and stop flies from pestering. It is a guaranteed product by Standard Oil Co. It sells for \$1.50 per gallon in gallon cans; \$1.25 per gallon, you bring container.

Try It—and Buy a Lot Turnip Seed, 50c pound

UNION NEBRASKA

Thoroughbred White Rock Cockerels

I have a number of thoroughbred White Plymouth Rock roosters which I will sell at one dollar each while they last.

MRS. JOSEPH LIDGETT, Union, Nebraska.

CORN CROP INCREASES 50 MILLION BUSHELS

Nebraska Production Is Estimated at Around 251,859,000 Bushels.

Lincoln, Neb.—An increase in the Nebraska corn crop of almost 50 million bushels over last year is indicated by the state and federal crop report for July, issued here today. With the corn in excellent condition and the acreage increased 4 per cent, a production of 251,859,000 bushels is estimated, compared with 203,280,000 bushels last year. The heaviest increase is in the southeastern quarter of the state where corn replaced wheat.

"Stands are good, the corn crop is further advanced than usual for this date, and is in a good state of cultivation," the report said. "The condition is 93 per cent."

Winter wheat was reported as every uneven, but meeting previous expectations, while most of the spring grains deteriorated somewhat. Pastures and hay crops were improved, but potato acreage is lower, the summary of Nebraska crop conditions showed.

Winter Wheat Falls Off.

"The condition of winter wheat is 63 per cent, indicating a crop of 37,000 bushels compared with 54,482,000 bushels last year," continued the report. "While the crop is very uneven, the heads are of good length, and if well filled, may exceed expectations in yield. The spring crops are better in western Nebraska. While June rains delayed maturity somewhat the harvest was earlier than usual. Stocks of old wheat on farms are estimated at 5.3 per cent, or 3,027,000 bushels.

The condition of spring wheat is 89 per cent, indicating a crop of 2,146,000 bushels as compared with 2,632,000 bushels last year. Conditions have been very favorable in western Nebraska where the bulk of the crop is grown. All wheat totals 35,230,000 bushels, compared with 57,115,000 bushels last year.

"Oats deteriorated 9 per cent during June. The heaviest loss took place in southern counties, where the crop was too far advanced to receive much benefit from the June rains. The condition is good in the northern sections. The present condition of 73 per cent forecasts a crop of 69,114,000 bushels as compared with 76,136,000 bushels last year.

Barley at 75 Per Cent.

"Barley is rated at 75 per cent, having deteriorated 19 per cent during June, due to drought. The forecast is 5 million 925 thousand bushels as compared with 6 million 275 thousand bushels last year. The crop was early and much of it did not receive material benefit from the June rains.

"The condition of rye is 84 per cent which indicates a crop of 1 million 986 thousand bushels against 1 million 914 thousand bushels last year. Conditions have been more favorable in western sections where most of the crop is produced.

"The area of potatoes is estimated at 86 thousand acres as compared with 89 thousand acres last year. The condition of 88 per cent forecast a crop of 6 million 811 thousand bushels as compared with 7 million 743 thousand bushels last year. Frost and dry weather injured potatoes in eastern sections of the state. Conditions are very favorable in western commercial sections.

"The condition of all tame hay is 74 per cent, indicating a crop of 2 million 947 thousand tons against 3 million 717 thousand tons last year. Drought and frost injury to alfalfa is responsible for the marked decrease. Wild hay forecast a crop of 79 per cent against a crop of 1 million 923 thousand tons against 2 million 173 thousand tons last year. The condition of hay crops follows: Alfalfa 74 per cent; clover, 71 per cent; timothy, 73 per cent; millet, sudan and the forage crops are in excellent condition.

TRY OUT NEW PROTO FILM

Rochester, N. Y. July, 14.—Lieut. George W. Gaddard of the army air service and Dr. S. M. Burka, government physicist, are testing a new process which may make possible the taking and developing of pictures in an airplane in seven minutes. The new process, which photographic experts say will be an invaluable aid to war-time photography, was worked out for the army by Dr. C. E. Kenneth Mees, director of the research laboratory of the Eastman Kodak company. The pictures are taken on a special film which presents a negative, this can be read as readily as a positive print.

Lieut. Gaddard and Dr. Burka are working with a special airplane equipped for aerial photographic work.

The stingiest man we ever heard of bought his bride a nickel's worth of stick candy and took her for a trolley ride honeymoon. When they got off the car he said: "Honey, suppose we save the rest of this candy for the children."

The shock was recorded distinctly on the seismograph at St. Louis university, 14 miles west of here, but passed unnoticed in adjoining towns.

FARM BUREAU NOTES

Copy for this Department furnished by County Agent

Sow More Garden Seeds Now

Garden seeds planted in July will make the fresh vegetable for the storage cellar next winter, suggests the Agricultural College at Lincoln.

The old radish and lettuce rows, the first peas, and the beans that are stripped for table use may be cleaned and carrot, beet, rutabaga, kohlrabi, turnips, and Chinese cabbage seed planted in the space. If a few flat head cabbage have been planted, they should be set out for the late fall cabbage and the heads will be ready for winter use. These late vegetables will not be as coarse and woody as those planted in the spring.

Use Fruits and Vegetables.

Serve vegetables at least twice a day to the family. Such vegetables as cabbage, spinach and lettuce do not yield many calories, but they supply other necessary materials. They are the chief source of lime and phosphorus for bones and teeth, and for the iron which is needed by the blood. They contain also vitamins which are essential to health. Fruits supply minerals and vitamins as well as the vegetables so they should be served at least twice a day also. Fruits and vegetables will help to keep each member of the family in good health.

Watered Stock for Farmers.

If farmers deal in watered stocks, the stock should be hogs and cattle and horses and chickens and the water should come from a good well and be handy and fresh all the time. Helpless farm animals cannot drink out of a jug or successfully operate a pump handle so it is up to the farmer to furnish the water supply. Too often water is missing even though the stock is housed in high priced barns and is fed high priced feed.

More particularly as to how to select hens for egg production or as to mixing good mash ration may be obtained from your county extension agent or from the agricultural college.

Give Her a Lasting Vacation.

In order that the poultry flock continues to make a satisfactory showing as to income thru the summer months, any hen that shows a tendency to be laying at a yellow and gotten out of the flock. Hens that are old, inactive, overfat, that molt early in the summer, that have yellow beak and shank, in case they belong to one of the breeds of which the yellow color is required, and show a tendency to do not show good body capacity should be culled out and marketed. Hens that are active and alert, that molt late, that show a faded appearance to the shanks and beak, in case they are of a yellow breed, should be checked and which show a good body capacity should be kept free from lice and mites. Care should be taken that a complete ration which should include a dry mash mixture, is provided thruout the season.

More particulars as to how to select hens for egg production or as to mixing good mash ration may be obtained from your county extension agent or from the agricultural college.

CEDAR CREEK

William Schneider lost a valuable work horse last week with colic and is receiving the sympathy of his friends and neighbors.

Mrs. Robert Stivers and daughter visited the county seat Thursday to have some dental work done.

George Forno attended to matters of business at Plattsmouth last Friday.

Miss Dora Franke has returned to her position in Ashland after a visit with Cedar Creek friends and relatives.

Grace Duff bought herself a Ford coupe, now she will enjoy life easy.

Edward Lohnes from Omaha, came down last Friday night to visit with his father, and brothers, Will and George Lohnes.

Howard Johnson and family are going to take a trip to the mountains for pleasure.

Henry Heebner is going to run Mr. Johnson's place of business while Mr. Johnson is gone.

Bill is some farmer, he says "I can farm ten times better than Rudy," but Rudy says, "You've got to show me, I'm from Missouri." When Bill came to this county he never chewed or smoked tobacco or drank now he does it all, Bill is some boy.

Sixty-Nor went to Omaha on last Tuesday to visit with relatives.

Mrs. Olson and family visited with relatives in Omaha Monday, returning the same day. Misses Olga and Ruth Olson who are expert dress-makers in at home are at home for two weeks' vacation, which they are enjoying very much and their friends are much pleased to have them here.

The Thierolf boys are getting their threshing machine ready for threshing this week. It will start here in this neighborhood.

SLIGHT QUAKE FELT IN ILLINOIS TOWN

Edwardsville, Ill. July 14.—An earth tremor, lasting eight seconds was felt here late today. Houses shook and pictures swayed on the walls, but no damage of property resulted.

The shock was recorded distinctly on the seismograph at St. Louis university, 14 miles west of here, but passed unnoticed in adjoining towns.

PLATTS WINS FROM COUNCIL BLUFFS EAGLES

Locals Play Gilt Edged Ball Against Fast Iowa Team and Win Battle By Score of 2 to 1.

From Monday's Daily—Yesterday afternoon at the Broadway park at Council Bluffs, the local baseball crew trimmed up the team representing the Eagles of the Iowa city by the score of 2 to 1, the game being on the best that the crew has participated in this season and one in which not a bobble was recorded against the fielding of the Plattsmouthans.

The efforts of the Eagles was largely confined to the hurling of young Orville Phillips, who in his sojourn on the hilltop whiffed some thirteen of the local batsmen, retiring those who were usually strong with the bat club, the only showing against Phillips being made by Hans Newman, the mighty local shortstop, who banged the ball around the lot at will and caused the downfall of the Council Bluffs crew. Hans annexed two triples and a double during the game, which with the single of William H. Mason constituted the only hits of the day.

While Swanson, local slab artist, allowed nine hits they were well scattered and did little damage at the fielding of the Plattsmouth team was the best ever and pulled down the chances of the Iowans to win the hot and well played game.

A large number of Plattsmouth fans made the Journey to Council Bluffs to enjoy the game and assist in cheering the locals on to victory.

In the opening of the first stanza of the game Plattsmouth took the lead and garnered their two tallies that were to give them the victory over their opponents, Joseph McCarty, heady center fielder of Plattsmouth, opened the battle and was awarded a base on balls owing to the fact that Phillips could not locate the plate and while resting at first was sacrificed to second by Herold.

Herold and Phillips was unable to solve the slants of Phillips and retired when along came Hans who nipped Phillips for the first triple of the game and as the result McCarty scored. Newman registered when Hans, the Eagle catcher failed to hold one of the swift ones of his slab artist. Thereafter the scoring features of the game was over as far as Plattsmouth was concerned as Johnson retired on a grounder to Vines Satrapa at second.

The Eagles scored their lonely tally in the third frame on a combination of two hits. Shea was retired, Herold to O'Donnell, when Bates first baseman of the Eagles scratched a safe one to right field and from the first stanza registered when Vines Satrapa lifted a hard one to center that looked good to alight in the boulevard for a homer but which was good for only three bags.

The Eagles had rosy dreams of victory in the seventh but a fast Hanley, the Eagle catcher failed to rapped a masty one to left that bounced out of reach of Mason, who had made a long run from the field for it, this giving the fans hope of a score, this was dashed when Shea hit a fly to Newman who threw to Herold and caught Miller off the bag and retired the side.

Sam Move, who lives in both Plattsmouth and Council Bluffs did the umpiring back of the plate and proved a very competent indicator handler.

The box score of the game was as follows:

Plattsmouth	AB	R	H	PO	A	E
McCarty, cf	3	0	4	0	0	0
Herold, 2b	3	0	4	5	0	0
Klauschie, c	4	0	5	1	0	0

THEY ALL ADVERTISE

A hen is not supposed to have much common sense or tact. Yet every time she lays an egg. She cackles forth the fact. A rooster hasn't got a lot of intellect to show. But none the less most roosters have enough good sense to crow.

The mule, the most despised of beasts, Has a persistent way Of letting folks know he's around. By his insistent bray.

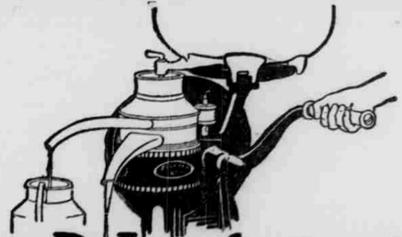

The busy little bees they buzz, Bulls bellow and cows moo, The watchdogs bark, the gander quack.

And doves and pigeons coo, The peacock spreads his tail and squawks, Pigs squeal and robins sing, And even serpents know enough To hiss before they sting.

But man, the greatest masterpiece That Nature could devise, Will often stop and hesitate Before he'll advertise.

—Long Island Courier.

Phone us the news!

Is your DeLaval separator in good running order?

If it isn't, then you may be losing butter-fat and shortening the life of the machine; and ninety-nine times out of a hundred it isn't the fault of the machine but due to the fact that it needs attention, adjustment, cleaning, or the replacement of some part.

Bring in your DeLaval Separator to us and we will put it in first-class running order. Bring in the complete machine, and in order to save expense clean out the oil chamber and gears with kerosene or boiling water. You can do this just as well as we can.

Every Day is DeLaval Service Day! Plattsmouth Implement Company

DISCUSSES THE THEORY OF EVOLUTION IN PAPER

Attorney A. L. Tidd Presents Views In Support of the Bible Theory of the Creation.

Editor Journal: Dayton, Tennessee, is today the most important center of attraction, with Clarence Barrow, the self-styled agnostic, and William Jennings Bryan, a fundamentalist, the leading actors. While this drama is being staged in the little mountain town in eastern Tennessee, the common folks may well afford to turn to the Old Book, has brought comfort to its millions during periods of sorrow.

How does the Bible stand by comparison with the teaching of the world's greatest philosophers. When we turn to the field of natural history, what do we find. The Old Testament alone contains more than 250 botanical terms, and in all of its references, descriptions and hypotheses, there has not yet been found any inaccuracy in any of the biblical statements or allusions. Compare if you will this record with the teaching of Plato, Empedocles, Aristotle and all the world's great philosophers and so-called scientists from their day down to Darwin and the evolutionists of today, and where can there be found a better record of the highest concerns of man, that we ought to look before we leap and look more than once. Under the sheen of the evolutionary account of man, the world of real persons, the world of individual responsibility, disappears; with it disappears the personality of God. And President David Starr Jordan says, "Science does not comprehend a single elemental fact in nature."

If this theology of evolution is accepted, we must look for widespread lapse from all Christian faith, and as conduct follows belief in all intelligent creatures, we shall see also great moral decadence.

This is why fundamentalists are opposed to it.

A. L. TIDD.

VILLAGES LURE HOMEMAKERS

As a place to live and rear a family the Middle West village has much to offer. This conclusion is based on data just made available, giving a cross section view of .65 typical mid-western villages as compared with 10 moderate sized cities in the same geographical territory. Six Nebraska villages and one city were included in the study.

Not only is the material prosperity of the middle west village relatively great but the opportunities for home owning, and education of the young are exceptionally good, states the Foundation. Two-thirds of the homes in the 65 villages studied are owned by their occupants, while in the cities only half of the homes are so classed. Seventy-eight per cent of the village boys and girls, between the ages of seven and twenty-one attend school, and thirty-one per cent of the boys and twenty-nine per cent of the girls between 18 and 21 years of age are reported as attending school. This not only is considerably above the figures for the cities but compares favorably with villages in any part of the country.

Other interesting facts came to light in the study. While the cities grew more than 50 per cent in two decades, the increase in population in the villages was only about 15 per cent in the same length of time according to the Agricultural Foundation. There are considerably more women than men in the villages than there are in the cities, and this is true to an even greater extent of persons of 45 years of age and over. This is perhaps the explanation for only 68 per cent of the village population being gainfully employed as compared with 81 per cent of the men and 82 per cent of the women in the cities who are in business or industry.

The Nebraska villages which figured in this study are: Fairfield, Clay county; Stromsburg, Polk county; Tokam, Burr county; and Weeping Water, Cass county. The city named is Lincoln.

FARM FOR RENT

An improved farm for rent. Also some fresh milk cows for sale. S. O. COLE, Mynard, Neb.

Severe lightning and thunderstorm Monday night, some time around 12 o'clock. People quite alarmed, but no damage done.
