**TO GIVE RADIO PROGRAM SEPT. 21**

**CLEVER CROOKS ARE SAID TO BE IN THIS VICINTY**

Group of Talented Artists from This City will Journey to Shenandoah for a Program.

Another Plattsmouth radio program is in the making.

In response to an invitation from Earl May, owner of the new station KMA, at Shenandoah, extended thru the Chamber of Commerce some time ago, the date of September 21 has been secured and talent from this city will journey to the southwestern Iowa broadcasting center to give the listening world another opportunity of hearing about Plattsmouth.

This will be the fifth Plattsmouth radio program—four having been given from WQAW in Omaha, from which station we had the opportunity of giving the first community program, only a few weeks after it was officially opened two and a half years ago.

To help the good cause of boosting Plattsmouth along, John Richardson, owner of the Plattsmouth ferry, has promised to give free passage to the cars conveying talent to Shenandoah. In the address, Iowans en route to the west will be invited to cross the river here and visit our town en route, as well as those from that section who may be going to Omaha and desirous of traveling a new route once in a while.

Further announcement of the program and the personnel of the speaker will be made at an early date, and with a month in which to work up their program, the Plattsmouth talent should live up to past reputation for giving the radio fans some exceptionally fine stuff.

Station KMA is being picked up now in the far corners of the country and by the latter part of September when the static clears away should have a range of thousands of miles.
