

FORMER RESIDENT AIDS COMMUNITY BUILDING FUND

Julius Pepperberg of Lincoln, Well Known Cigar Manufacturer, Donates Sum of \$25.

From Wednesday's Daily—
This morning the finance committee in charge of the American Legion community building fund received a check for the sum of \$25 from one of the former well known residents here, but who has for the past twenty years been a resident of Lincoln. The person making this free will offering to the building project is Julius Pepperberg, well known cigar manufacturer, who for years was one of the prominent figures in the business life of this city as his factory here which turned out the old familiar "Buds," was located here for many years prior to the removal of the Pepperberg family to Lincoln. This city has a great interest for Mr. Pepperberg although his interests have long since passed out of the community, and the old town by the river has many tender and happy memories for this splendid gentleman who is now in the growing twilight of life.

In connection with the building of the community auditorium here there is one phase that particularly touches the life of Mr. Pepperberg, as the site that the American Legion has purchased for the new building is the one where in the late seventies Mr. Pepperberg owned a home and where he brought his bride from her home at St. Joseph, Missouri, to reside and where the family lived for a number of years.

The children of the family were born in this city and the older ones of the family reared here and graduated from the local schools so that Plattsmouth has a tender place with Mr. Pepperberg that the years enrich.

That one of the old time residents of this community is so generous in his offering to the community building is particularly gratifying to the committee as it shows that the community building is appreciated by those who lived here in the years past.

This is the third generous offering from former Plattsmouth residents, as Henry R. Gering of Omaha and Fred G. Dawson of Detroit have also added their part to the fund.

BURLINGTON REMOVES TRAINS

From Wednesday's Daily—
The Burlington railroad is announcing the removal for the winter season of trains No. 1 and No. 10 on their Chicago-Denver line, the trains having been in operation during the summer season for the benefit of the tourist travel to and from the west.

Train No. 1 has been operated from Chicago west through this city during the summer season and has been very convenient for travelers from Chicago to this city and the removal of the train will make it necessary for passengers from the east to this city to make the early morning trip on No. 5 and lay over at Pacific Junction for No. 15. Train No. 10 passed through this city at 3 a. m. but did not make this a stop on its schedule.

Train No. 6 will leave Denver an hour earlier in the morning but will have the same time of arrival here as at present, 7:40 a. m.

DE MOLAYS HOLD ELECTION

From Wednesday's Daily—
Last evening, Cass chapter, Order of DeMolay, held their regular quarterly election of officers, there being a very pleasing number of the young men in attendance and the greatest interest taken in the matter of the selection of the officers for the ensuing three months. The following were named to the chair offices:

Master Councilor—Fred Howard.
Senior Councilor—Carl Kell.
Junior Councilor—Horton Gorder.
Thomas Green, who has been the very efficient scribe of the chapter for the past several months, was appointed to the consolidated offices of scribe and treasurer.

FUNERAL OF MRS. ELIZA SEIBOLDT

From Wednesday's Daily—
The funeral services of the late Mrs. Elizabeth Seiboldt, whose body arrived from Langtry, South Dakota, last Saturday morning, was held Monday at the Oak Hill cemetery, west of this city. The son of the deceased lady had started to drive to this city by auto from the home, expecting to reach here in time to receive the body on its arrival but car trouble delayed the funeral party until early Sunday morning, the body being taken to the Streight funeral chapel to await the arrival of the relatives.

The services here were at the grave as the funeral services were held at the late home in Langtry. Rev. H. G. McClusky conducted the service at the grave as the body was consigned to rest beside that of the husband who had preceded her in death. A number of relatives and old neighbors from the vicinity of Murray were present at the services here.

DEATH OF FREE P. BROWN AT LOS ANGELES

Former Well Known Resident of This City Dies at California Hospital Following Operation.

From Wednesday's Daily—
This morning a message was received here by friends, announcing the death early today of Free P. Brown, for many years a well known resident of this city, but who for a considerable number of years has been located on the west coast at Los Angeles.

Mr. Brown was past sixty years of age and came here as a young man, entering the employ of the Burlington in the local shops where he followed the trade of a carpenter and was for many years employed in the coach shop here. In later years he removed to California where he was employed in the shops of the Santa Fe railroad at San Bernardino.

The deceased leaves to mourn his death the wife and four children, one of whom, Mrs. Earl C. Wescott, resides at Los Angeles.

Mr. Brown was preceded in death by three of his brothers, all of whom were residents here, Logan and Zach Brown. The deceased is an uncle of Maldon D. Brown, the jeweler of this city, who is the only member of the family residing here at this time.

NAMED AS CROP OBSERVERS

Appointment of William Borne, meier, of Elmwood, and A. A. McReynold, of Nehawka, as crop observers in Cass county for the Sears-Robuck Agricultural Foundation Index, is announced from Chicago by P. V. Ewing, director of research for the foundation and editor of the Index. They will form a link in the nation-wide chain of county agricultural observers elected because of their first-hand knowledge of farming condition and their ability to observe these and intelligently interpret them.

The Index, to which the observers from this county will contribute, is a compilation of the monthly reports of 3,650 observers in every section of the country, and this number is being added to steadily. All the observers are practical thinking, farm-minded men, each chosen because of the opportunities he has to observe the needs of agriculture in his own locality and for his ability to apply economic principles to current farm problems. As a group, they represent a cross-section of the thoughts that the man in the furrow is thinking, and their joint analysis of existing agricultural conditions, as expressed in the Index, is considered a forward step in helping agriculture help itself.

NEW RESIDENT HERE

From Wednesday's Daily—
Mr. and Mrs. K. J. Catterson of Elkhart, Iowa, arrived in the city yesterday to make their home here in the future, Mr. Catterson being employed as bookkeeper in the Plattsmouth State bank, the duties of which position he is now taking up.

Mr. Catterson is seeking a suitable residence where the family can make their home and become a part of the community life in the future. The new family will have a cordial welcome from the good people of the city.

HASKELL ENROLLMENT 100 PER CENT AMERICAN

Lawrence, Kan., Sept. 21.—Haskell institute may set down its claim to honor as "one hundred per cent American." For only true Americans may enter here. Largest of the government's Indian schools, already opened for its fall term, Haskell institute last winter drew 1,040 American Indian girls and boys from nearly eighty tribes. From Key West to Ketchikan they came, and from Yakima to Yonkers. Twenty-eight states sent quotas of students to Haskell last year. Oklahoma's delegation numbered 333, almost one-third of the student enrollment. Yet her neighbor state to the south, Texas, had but one representative in the student body. Kansas was second in numbers with 104 and South Dakota next with 103. Alaska was represented by a single student of the Eyak tribe.

You can save money on school supplies at the Bates Book Store.

Reducing expenditures is often as difficult as reducing one's avoidable.

PROCTOR SUES SPRAGUE FOR \$50,000 ON NOTE

Suit Is an Echo of Wood Campaign in 1920, When \$100,000 Advanced.

Chicago, Sept. 22.—Disinterment of the skeletons in the graveyard of the Leonard Wood presidential campaign of 1920 started today when trial was begun in federal court here of the suit of William Cooper Pro-

ctor, Cincinnati soap manufacturer, against A. A. Sprague, Chicago commissioner of public works, for \$50 thousand dollars.

Proctor is suing for half of a note for 100 thousand dollars which he gave to the Illinois Merchants Trust company for a loan of that amount to defray expenses of the Wood campaign. Sprague, who was a director of the bank, also signed the note. Proctor contends that this was done as a co-guarantor, but Sprague's counsel have contended that he signed merely as a formality attendant to his position as a director of the bank.

After opening statements by Proctor's attorneys, the Cincinnati manufacturer, former chairman of the Wood campaign, of which Sprague

was treasurer, took the witness stand and spent the rest of the day identifying letters which passed between him and Sprague in regard to the transaction involving the note.

Proctor maintained that he had paid the note on which was the signature of Sprague as co-guarantor, and that he had been given to understand until the fall of 1920 that Sprague expected to share the payment. In a letter from Sprague to Proctor, dated July 9, 1920, Sprague praised Proctor as a man willing to work and spend his money for his ideals. The letter said that Sprague owed more money at the banks than he could pay and could not meet his portion of the note "at the present time," but would do so later. Several other letters dealing with the

note, in which each man told the other that he was hard pressed for funds, were identified.

KEEP ON SWATTING THE FLY

New York.—Fly-swatting campaigns are usually staged in the spring, it being assumed that if you kill one fly in April you automatically destroy her entire progeny, which under favorable conditions should amount to many millions later in the season.

In the fall, however, it is equally important to swat the fly, for it is the fly that manages to hibernate thru the winter that starts the new crop in the spring.

Flies are especially dangerous in carrying the germs which cause di-

arrheal diseases fatal to so many children, according to Dr. Donald B. Armstrong of the Metropolitan Life insurance company.

"The fly is not discriminating about the disease he carries, however," said Dr. Armstrong, "it may be the cause of infection in cases of typhoid, tuberculosis, diphtheria and probably other diseases."

As cooler weather comes on flies seek the warmth of houses and later crawl into any crevice they can find to hibernate. It is therefore of double importance, Dr. Armstrong pointed out, to swat the flies that get indoors in the fall.

For a mild after-dinner smoke, go to Bates Book and Stationery Store.

Here is the new model Great Majestic, the finest Range ever built. Uses less fuel yet bakes perfectly. All copper reservoir gives abundant hot water all the time without extra fuel. Burnished blue polished top requires little work. Beautiful thruout with heavy Nickered Trimings—doors and splash-er back paneled in White, Gray or Blue Enamel if desired. Has rustless floor rest; large warming closets; open end ash pan, and oven door that will support any weight placed on it.

Solid Copper or Special Enamel
Kitchen Ware Set
During Demonstration of:
The **Great Majestic**
The Range with a Reputation

By special arrangement with the MAJESTIC Manufacturing Company, we will give, without cost to every purchaser of a MAJESTIC Range, her choice of one of the beautiful sets shown below. We can offer this unusual bargain only because we know these sets will

help advertise the wonderful MAJESTIC RANGE. Come in and inspect the newest range models. See and examine the exquisitely beautiful sets of polished copper or special MAJESTIC enamel.

Come One---Come All

If the ladies come to this MAJESTIC demonstration as they do in other cities, you will meet most of your friends and neighbors here. An expert from the MAJESTIC factory will demonstrate the advantages of the MAJESTIC range and answer all questions. You are welcome, whether you buy or not. But if you need a range, you will lose money if you don't order next week. Our offer to give you your choice of either of these beautiful kitchen ware sets FREE with the purchase of a MAJESTIC range is good next week only.

Saves Money---Bakes Better---Stays New

Any housewife ought to consider well the cooking and wearing qualities, the fuel economy and the appearance of the range she buys. No purchase for the home is more important than the kitchen range. You cook on it three times a day, every day in the year. Your peace of mind and the health, energy and contentment of your whole household depends on the better cooking that a NEW MAJESTIC Range will enable you to do every meal.

It is false economy to buy a cheap kitchen range that wears out quickly and often makes the best cooks fail. The only true economy is economy in the long run. Therein lies the economy of the MAJESTIC. It cuts down fuel and repair bills and its long life of never failing efficiency makes it cost less per year of service than any other range in the world.

Remember---It's Next Week Only!

Our big free Kitchen Ware offer is good for next week only, while the factory representative is here.

Don't miss this demonstration—It's Free—It's interesting.
