

Alvo Department

Attorney C. D. Ganz was a visitor in Plattsmouth, where he was called to look after some business matters in the county court.

George Brown and wife of South Bend, were visiting in Alvo on last Sunday, they driving over to see the parents of Mrs. Brown.

James Friend, who has been at Wichita for some time past, where he recently moved, arrived in Alvo last week for a short visit.

There was a very pleasant dance given at the Alvo hall last Thursday evening, which was enjoyed by the young people of Alvo and vicinity.

Dan Menchau and the family have moved from the home which was sold by C. C. Bucknell and are occupying the house next to it which still belongs to Mr. Bucknell.

Frank Adams, who has been making his home at Council Bluffs, has moved to Alvo and will work for W. W. Coatman picking corn.

John Skinner, while up with a load of stock, brought the household goods of Mr. Adams to Alvo.

The Rock Island has loaded and shipped away the little building which was formerly used for a fool house and which was used later by Mexican Joe as a residence, and will ship it to another point of the system, where it will be used as a temporary office.

John Hanning believes that winter has arrived notwithstanding the fact that it was only October, so he took a layoff from his duties at the office last Thursday afternoon and put up his hard coal stove and regardless of whether winter comes or not, he will have some fire.

F. L. Edwards and John B. Skinner were over near Murdock last Thursday, where Mr. Edwards purchased a couple of cows and a set of harness from Wayne Swartz, which they brought back with them. They also had a little sport as they had their gun along and bagged a fine, large hawk while on the way.

Billie, the orderly gray horse, which has been a companion and the property as well as a helpmate of Geo. Hardnock for these many years, has given up the struggle and laid down the burden of life and is no more. This horse, "Billie," had been a faithful servant and companion of Mr. Hardnock for many years.

James Pilkington, the brick layer, who is employed in Lincoln, has been at home for a few days during the past week on account of the fact that the weather has been so that he could not work on the outside work, but a few days will bring the weather around again so that he will be able to be at it again in full force.

In the way of stimulating interest in the work of the Epworth League there was given on last Sunday evening at their regular meeting a word contest between sides chosen, which caused a great interest in the study of the Scriptures, and which will make the young people more proficient in their knowledge of the scriptures.

The Rev. R. E. Chenoweth, pastor of the Methodist church, addressed the students of the Alvo High school one afternoon last week, his subject being, "School Life and the Boy Scouts," and at the close of the talk, there were some thirty signed up for membership in the Scout troop which is being formed. This will work to the better interest of the students and teach them something which will last through a lifetime.

Attend Convention at Crete

The Pythian Sisters, an auxiliary organization of the Knights of Pythias, met in district convention at Crete during the past week, and were represented by delegates from the lodges at Alvo, the personelle of the delegation being Mesdames Helen Kitzell, Mattie Skinner and Mildred Dickerson.

Will Sell the Property

With the closing out of the interest of C. C. Bucknell in Alvo, and his departure from this place to make his home in the west, and is having a home constructed on the farm where he has moved to in Colorado. The home place here going into other hands and on Tuesday of this week will be sold at auction for the best price which it will bring. This is a new way of disposing of property at auction, but probably as good as any.

Have Pleasant Afternoon

The ladies of the Alvo Woman's Reading club entertained at the pleasant home of Mrs. W. L. Cople last Friday afternoon at which time a very worth-while program was given and several excellent musical numbers were in evidence. A social hour was enjoyed by the ladies as well as the very delicious luncheon which was served by the genial hostess.

Home from the South

Mr. and Mrs. Charles Godbey, who have been visiting in the south at the home of Mr. and Mrs. Grant Godbey, who is a brother of Mr. Godbey, and make their home on a farm in southern Oklahoma, where our townsman and his good wife have been visiting for some time. They rolled into Alvo on the return trip last Tuesday and found the going not the best. They say even in the south there has been much cold weather and rain. They had a very good visit but Alvo looked good to them when they returned home.

HOUGHTEN LAUDS TREATY MAKERS

London, Oct. 29.—Alanson B. Houghten, the American ambassador, who rarely has broken his diplomatic silence in public, yielded Wednesday night to the temptation before the Knights of Round Table Club.

Ambassador Houghten paid tribute to the statesman who made the Locarno treaty for having brought about real peace nearly seven years after the war had ended, and for having "made the world a sweeter and kinder place in which to live."

From the seat of King Arthur, Sir Trevor Dawson, knight president, and Maj. Gen. Sir Sefton Brancker, in charge of British civil aviation, took occasion to extend congratulations to America for her victory in the Schneider cup race at Baltimore.

Lieutenant Doolittle's daring and America's "sportsmanship, combined with efficiency," were especially praised.

GENERAL ANDREWS SAYS AIM TO ABOLISH BOOZE

New York, Oct. 27.—Brigadier General Lincoln C. Andrews in charge of prohibition enforcement, announced today the aim of his department is to wipe out the liquor traffic whether it involves "sacramental or sacrilegious liquors."

His declaration was made in the course of an address to the annual convention of the New York Pharmaceutical conference. He pledged the support of his organization to the effort of retail druggists to "clean house."

15,000 FISH PUT IN FREMONT LAKES

Fremont, Oct. 29.—State Game Warden J. C. Jenkins arrived in Fremont Wednesday with a carload of 19,000 small fish, which were planted in the various sand pit lakes surrounding Fremont.

In the lake were 10,000 croppies, 2,000 black bass, 2,000 rock bass, 2,000 sunfish and 3,000 perch. Members of the Fremont Isak Walton league assisted the warden in transferring the fish from the car to the various lakes. The local chapter has placed brush along the edges of the lakes to protect the fish during the winter months and for hatching beds for the finny tribes.

Plans are under way, Jenkins declared, to make the Valentine hatchery the largest in the world. It is hoped to spend about \$25,000 for much needed improvements, he said, 150,000 fish have been planted in Nebraska lakes.

Governors in Favor of Agricultural Aid

State Heads in Conference Draw Up Resolutions to Help Farmer by Legislation in His Behalf.

Sioux Falls, S. D., Oct. 29.—The mid-west governors conference which closed here today will have far reaching effects in the opinion of Gov. Carl Gunderson of South Dakota, who called the meeting.

The governors tonight were returning to their desks after having organized and adopted a set of resolutions regarding their attitude on agriculture, waterways irrigation, and reduction of state expenditures.

North and South Dakota, Minnesota, Nebraska, Missouri and Iowa will form the nucleus of the new organization. Invitations to join will be extended to the governors of every state from the Canadian border to the gulf of Mexico and from Illinois to Wyoming.

The results of the conference in brief were as follows:
A resolution expressing the opinion that if the American protective tariff is to be retained, legislation must be enacted which will give agriculture "equality with industry and labor in the American protective system."

Favorable action on a suggestion from Governor Christman of Minnesota that legislation be enacted to give governors increased powers with which they can curb state expenditures.

"Immediate consideration" for the Great Lakes-St. Lawrence project because of its "general and pressing importance."

Utilization of flood waters of the Missouri river for supplementing rainfall in dry seasons and use of the Missouri for developing hydro-electric power.

OBITUARY

Ore M. Johnson was born on a farm west of Weeping Water, June 10th, 1892, and passed from this life Sunday, October 25, 1925, aged 23 years, four months and fifteen days.

His mother died when he was 11 months old, and he was taken into the family of Mr. and Mrs. Jacob Domingo, where he grew up as a son and a brother, as he was given the same loving care as they gave their own children.

At an early age he became a member of the Congregational church in Weeping Water.

At the age of 14 he came home to his father. He attended Cascade school and later Weeping Water high school.

On June 10, 1925, he married Miss Creola Baker. The happy couple began housekeeping on the farm of Ray Smith just south of town.

This splendid young man was a kind, loving husband, a devoted son, and an affectionate brother.

He leaves to mourn his loss, his wife, Creola; his father, Chris Johnson, and his brother, Lawrence, besides a wide circle of loving friends, for to know him was to love him.

The funeral services were held at the Methodist church at Weeping Water, on Wednesday at 2 p. m. The services were conducted by Rev. G. A. Morey. The song service was by the quartette of the Christian church and was beautiful and appropriate. The floral display was a tribute of the many friends of the families. The body was interred in Oakwood cemetery.—Weeping Water Republican.

MASONS HOLD FINE MEETING

From Saturday's Daily—
The members of Nebraska Chapter No. 3, Royal Arch Masons held a very interesting meeting last evening at their lodge rooms in the Masonic temple that was attended by a very large number of the members.

There were eight candidates present to receive the Royal Arch degree and adding to the large membership of the chapter. Following the close of the degree work there was light refreshments served that added to the pleasures of the evening.

More snow predicted! We wish the weather man would hold off until Old Winter's time to arrive. This weather doesn't suit anyone but the coal man. He, of course, is in the height of his ambition.

Six hundred Nebraska mules, gathered in this state alone, which have been drafted into the British army, left yesterday in thirty cars under a concentration point at Missouri Valley, Ia., for New York City where they will start November 2 for service in Egypt and India.

Frank Simpson, exporter of mules who lives on a farm north of Florence will accompany the shipment. British officers under Major Gordon put the mules through a rigid examination before they were purchased in every corner of the state.

"Big Bill" Simpson, representative of an Omaha muling company, supplied 1 hundred tons of mixed feed for rations en route.

Nebraska mules are the best in the world, the British officers testified. Requirements for these army animals which are used for artillery and pack purposes call for young sound stock of proper conformation about fourteen hands high. One hundred will be unloaded at Port Said, Egypt. Five hundred will be unloaded at Karachi, India, from where they will be sent to mountain areas in the interior. A large number of the mules were purchased on the South Omaha market following rigid inspections.

The British army first came into general contact with the American mule during the world war. Major Gordon related. They endeavored themselves to the British soldiers. The British are now replacing horses in their remount stations with mules wherever possible, the visiting officer said.

As prospective warriors, the mules were given "shots," not in the arm but in the neck. Each was branded with the British broad arrow, and with a number on the hoof. The number, characteristics, and other

Insurance! Investments!

Why Red Crown is QUICK STARTING

Just as the Standard Oil Company of Nebraska was the pioneer in furnishing petroleum products of standard quality to the people of this State, so its Red Crown Gasoline has always held its lead among motor fuels.

Don't blame your motor if it limps and balks when you feed it a strange brand of gasoline.

Run on Red Crown always, and you'll always have a quick-starting, powerful motor. Red Crown is balanced just so as to insure it: Red Crown has a large proportion of low boiling point fractions that are very volatile: these highly volatile parts combine readily with even cold air and give a mixture that ignites instantly and starts your motor turning over: instantly again the heat of the motor vaporizes the higher boiling point fractions which develop maximum expansion and power.

Prove this for yourself by standardizing on Red Crown. Always, when you need gasoline, turn in at a Red Crown sign. You will receive prompt, obliging attention and full measure of gasoline that is balanced for quick starts, power and economy.

BIBLE CONFERENCE AT THE PUBLIC LIBRARY

The first of the bible conferences was held at the auditorium of the Public Library last evening at 7:30, under the auspices of the Omaha Bible Institute. President W. H. Jordan gave a very fine address on "A Survey of the Plan and Purpose of the Bible." Great interest was manifested by all who heard the address.

Tonight at 7:30, Dr. Jordan will give an address on "The Messianic Hope." Every one interested in the Bible should hear these splendid addresses. On Saturday evening, Dr. Jordan will speak on "How to present the Sunday School Lesson." On Sunday afternoon at 3:00 o'clock the

details are recorded on individual service filing cards.

The shipment which will sail on the S. S. Manhattan will be thirty-five days on the seas. This quota is one of several which Mr. Simpson has gathered for the British government. He has also supervised the purchase of shipments to the French and Italian governments.

Every teacher and officer in the Sunday Schools in the various churches should hear these splendid addresses. Tell your friends about the Conference and arrange to attend tonight.

FIRESTONE BUYS RUBBER PLANTATION IN MEXICO

Arkon, O., Oct. 29.—The leasing of 35,000 acres of rubber plantation land in the province of Tobasco, Mexico, by the Firestone Tire and Rubber company, was announced Wednesday by Harvey S. Firestone, President of the company.

Riterating his contention that "America must produce its own rubber," Mr. Firestone, said, that in addition to the recent leasing of 1,000,000 acres in Liberia and opening of the more recent but smaller project in Tobasco, he was considering the advisability of entering the rubber area in the Amazon river valley in Brazil.
