Annual Red Cross Roll Call!

NOVEMBER 11 TO 26, INC.

We are all invited to join in this great movement. Pay your membership fee to Mrs. Earl Merritt, Miss Virginia Copenhaver or Miss Augusta Robb.

LOCAL CHAIRMAN.

Walter Furlong of old Rock Bluff was a business visitor in Union on last Monday.

Lost: One Spotted Poland China sow weighing about 375 pounds. Call phone 6522. Union.—W. S. Copenhaver.

Mrs. Charles W. Hoback has been feeling quite poorly for some time past, but is hoping to be herself again in a short time.

Constable James F. Wilson was a visitor in Nebraska City last Thursday and Saturday, going to look after some legal matters.

County Commissioner C. F. Harris and Merchant L. G. Todd were in Elmwood last Sunday to attend the funeral of the late A. J. Box.

Lee Farris was in town last Tuesday afternoon for lumber which he was using for making some changes in the crib room at the farm.

Miss Marjorie Hoback was a weekend visitor at the home of her grand parents, Rev. and Mrs. W. A. Taylor, where all enjoyed a very pleasant time.

C. W. Snyder and W. L. Doughty were in Union last Monday, where they were looking after some business matters and were accompanied by Wm. Heinke.

Ray Frans and wife were moving into their new home last Tuesday, and during the time, Mr. W. A. Taylor was looking after the business at the lumber yard.

Mrs. Glen Thompson and son, George were down from their home near Murray on last Tuesday afternoon and were doing some trading with our merchants.

he had a few more gray hairs after the experience than before.

Gave an Excellent Program

Last Tuesday evening at KPNF, the radio station of the Henry Field Seed company at Shenandoah, Iowa, Alda Taylor and his orchestra gave an excellent program which was enjoyed by the people all over the United States and a part of Missouri. Many responses have come in from those who enjoyed listening in and a number of far-away states were well represented, which simply shows how far-reaching this radio broadcasting is. There were there for the occasion Mr. Taylor, Loy Pell, Amos and Guy Hughson, Elsie Jay and Mary Luxford, the latter being an addition to the orchestra, who sang some special numbers. The Rev. Rannels, the Methodist church, was along and assisted materially in the production of the excellent program.

FOR SALE

Small dairy and chicken ranch—your horses and three cows, two chicken houses, scratch pen, barn holds 30 tons of hay. Well water. If interested, come and see. Will sell cheap.

M. LYNDE,
Union, Neb.

The Bridge is Completed

The new bridge over the south branch of the Weeping Water river, which has been under construction for some months, was completed on last Tuesday evening and was allowed to ripen for a few days, which will carry the time to Saturday before the bridge will be opened for traffic. This is a fine bridge and fills a long felt need for a suitable structure over the river at this point. Being of concrete and steel as well as all the other bridges erected in this county, it will last for years and the first expense will be the only expense. True, they cost a little more than the cheaper kind, but they are well worth it in the long run.

Entertain the Missionary Society.

Last week at the home of Mrs. Daniel Lynn, were given the Missionary Society of the Baptist church of Union, and a most enjoyable time was had by the ladies when they had gotten the work for which they had come together completed. The occasion was made the more enjoyable by the assistance of Mesdames Rachel Zell, John Lidgett and W. A. Taylor. Miss Laura Easter was the leader of the excellent program which was rendered, concluding the social and business sessions of the meeting, there was a most appetizing two course luncheon, and among the delightful dishes were served, Edw. W. Taylor, salad, pickles, English pudding with whipped cream and many other things to tickle the palate. All voted the ladies excellent entertainers.

For Sale.

Three Pure Bred Chester White Breeding. These sires are Boarstah Boars, 2 Kansas Giant Breeding and 1 Junr yearling Kansas Pathfinder Breeding. These sires are 2 of the greatest boars of any breed in the county today. Also one Wm Jersey Bull, 17 months old, well bred.

JOE H. LIDGETT,
Union, Neb.

Miss Frans Arrives.

At the home of Mr. and Mrs. Rue Frans on Wednesday morning, joy came in the form of a very diminutive lady with sparkling black eyes and a merry smile that is surely captivating for she immediately won the hearts and affection of her happy parents, Mr. and Mrs. R. H. Frans, who welcomed the newcomer, who says she will add much to their lives in happiness. The mother and little lady are doing nicely, and the father tolerably.

Will Go Over the Top.

The Red Cross roll call in the hands of Misses Augusta Robb, Virginia Copenhaver and Mrs. Earl Merritt, which began on Armistice day, Nov. 11, and continues on Nov. 22, is in excellent hands and will surely go over the top. The cause is just; the people patriotic and those having the matter in hand very enthusiastic workers.

Were Successful in Hunting.

A number of the nimrods of Union went out on the river camping for a week or more and had some very good hunting. They were successful in disposition, and are rather timid as to airing their experiences. The first thing which their eyes lighted upon was an opossum setting on a log, and whipping out his gat one of the hunters took a shot at the animal, the bullet going clear through the opossum went on and deflected and struck a coon going through the water and then continuing on into a tree. When the hunters saw the hole where the bullet had entered the tree they found honey seeping out and were endeavoring to stop the flow they stepped on a rabbit which jumped to escape and struck its head against the tree which startled a flock of prairie chickens, which arose to fly away and flew against the limbs of the trees and were killed by the hunters. They went and got an axe to cut down the tree and were able to get 11 wagon loads of honey, and twenty six bushels of hickory nuts which were shattered off when would not hold out they immediately broke camp and returned home.

A Day in Court.

Last Monday the court of Daniel Lynn Justice of the peace was in full blast, when the case between Roy Yonker of Union and Wm. Doughty of Nehawka, in which the former sued the latter for labor, and which was most carefully tried by attorney C. L. Graves for the plaintiff and the

Interests of the defendant were looked after by himself and C. W. Snyder of Nehawka. The decision was secured by the plaintiff but not being according to the desires of the defendants and was taken to the district court.

W. T. C. U. Holds Meeting

The society of the Woman's Christian Temperance Union met last Tuesday afternoon at the home of Mrs. C. B. Smith, and was entertained by her assisted by Mrs. Kate Smith, the ladies having an excellent time discussing the subject, "The Bible in the Public Schools." Mrs. Ivan Balfour was leader. The hostesses entertained the ladies most pleasantly and added to the pleasure of the afternoon when they served a most delightful luncheon.

Are Sure For Improvement.

A. L. Becker and John N. Larsh, both people who are intensely interested in bettering this community as well as to afford the traveling public an opportunity to have the best of roads from the east to the west have agreed to furnish the stone necessary for the construction of a bridge over the Missouri on the east end of the "O" road, that is supposing that it does not require over one million loads of stone. They also believe that this solid rock not to exceed 100 tons of hay. Well water. If interested, come and see. Will sell cheap.

Friends Pay Tribute to Deceased Friend

Mrs. Leslie Everett of Union, Well Beloved Resident of that Community Leaves Many to Mourn.

Mrs. Angie Florence Everett was born on October 4, 1895, at the old home southeast of Union and departed this unfriendly world on November 4, 1925, aged 30 years and 1 month. She was the daughter of John and Emma McCarroll.

On June 11, 1924, she was united in marriage to Leslie Everett. She leaves to mourn her departure her two sisters, Fannie McQuinn and Nettie Mouzey, besides many other dear relatives and friends. She has always lived very near the old home place, even after her marriage. She became a member of the Union M. E. church a number of years ago, and has always been a faithful worker, even to the end. She has held a place in the church as a Sunday school teacher, Epworth League worker, and took an active part in the aid and W. H. M. S. She was president of the missionary society when she died. She taught school a number of years in Lincoln, Syracuse and in the country around Union. She was a member of the Eastern Star and was a member of her death. To say that Mrs. Everett was a church member is speaking too lightly for she was a Christian of the highest type. She never failed in doing what she could. Her conduct was of the highest order, and she was only insofar as she loved God in His presence. The saying so often heard that to know her was to love her was really acted out in her life. She was a friend who speaks so highly of any body.

The body of Mrs. Everett is interred in the Oak Hill cemetery, the life which had been lived shall not cease but live on. May the life of Mrs. Everett be an example for all her friends, those she loved so well that as she can not return there may be a grand reunion of friendship where, death and sorrow never come.

Services were held at the Union M. E. church, conducted by her pastor, J. A. Rannels, assisted by the Baptist pastor Rev. W. A. Taylor who has been a life-long friend of the family. Interment at Mt. Hope cemetery.

RAILROAD EARNINGS SHOW AN INCREASE

Washington, D. C., Nov. 8.—Earnings of class I. railroads in the United States for September were reported today by the bureau of railway economies at \$134,584,916, while for the first nine months of the year they were \$797,347,520 as compared with \$779,445,117 in the same period of 1935.

The bureau which is maintained by the carriers, estimated that September earnings represented a return rate of 5.42 per cent per annum on the property investment total claimed by the companies. For the nine months, the earning rate was figured at 4.77 per cent upon the roads property investment figures. The improvement was attributed to an increase in gross returns of the carriers, which \$4,538,461,400 during the nine months of 1935 as compared with \$4,403,724,081 during the same period of 1934 and the holding down of operating expenses to \$3,398,739,554 this year against \$3,399,831,013 last year, despite the increased business.

LINER CREW FINDS MEN MAROONED NEAR FIJI

Honolulu, Nov. 7.—Passengers of the liner Aorangi, which arrived here Friday from Australia, sent a cable to Governor Sir Eyre Hutson of Fiji urging that relief be sent to a white man and 25 natives, who face starvation on Hull island, two days journey from Fiji. The men have been marooned on the island for a year, the owners having gone into bankruptcy. The Aorangi landed emergency supplies on the island for the marooned men.

Council Plans Fight in Water Rate Hearing

Arthur Mullen, Well Known Federal Court Lawyer to Assist in City's Interest in the Case.

From Tuesday's Daily.—The city council held a short and snappy session last evening at the city hall that was attended by some eight of the members, Peter Gradol, the member from the third ward being detained on other business and Councilman Brittain of the fourth ward also being among the absentees. The familiar face of Joe McMaken, the statesman from the second ward, was seen at the session for the first time in two months as he has been under the weather for some time and is getting back into the old swing again.

Probably one of the matters of the greatest interest was the discussion of the plans of the city to resist the attempt of the Plattsmouth Water Co. to increase the rates in the city and City Attorney Capwell wished the permission of the council in carrying out his plans made under the direction of the council to defend the interests of the city and the water rate. Mr. Capwell stated that he had consulted Hon Arthur Mullen of Omaha, one of the most successful attorneys of the state relative to his assisting in defending the interests of the city and that Mr. Mullen had agreed to accept a retainer of \$250 to go ahead with the case and see what he could do in handling the city's side of the rate question. The great success of Mr. Mullen in many large and important actions in the federal courts was pointed out by Mr. Capwell, and who also stated that he would secure such expert witnesses as might be necessary. Mr. Capwell also inquired as to the fact in the settlement of the previous case in 1922 when a raise in rates had been granted the water company by the city in a compromise.

Councilman McMaken, who was at that time a member of the fire and water committee stated that in the discussion of the compromise matter he had been told that he need not attend the final meeting when the proposed rates were drawn and accepted by the city and that he had no first hand information of just what had been agreed upon. It was voted by the council that Mr. Capwell secure such counsel and assistance that might be necessary in prosecuting the case.

A communication was received by the council from Frank E. Valley asking permission to go ahead and erect a fireproof garage and real estate office on his property on South Fifth street and which was referred to the fire and water committee.

A communication was also received by the council from Andrew Rabb, Sr., asking that damages be granted for the use of his land for a road in the construction of the paving on Webster boulevard and which was decided should be paid.

Chief of Police Arnold Johnson reported that in the month past two arrests had been made and which had been turned over to the county authorities.

City Clerk John Clodt reported that in the month past he had collected the sum of \$171.96 that had been paid over to the city treasurer.

The report of City Treasurer John E. Kirkham was read showing that in the month of October there were funds overdrawn to the amount of \$24,583.75, leaving a net balance in the treasury of \$19,386.15 and with registered warrants amounting to \$120,178. The funds were deposited in round numbers as follows: First National bank, \$7,000; Farmers State bank, \$4,000 and Farmers State bank, \$7,000.

Police Judge Weber had a very good month with not a single victim appearing before him for trial. Councilman Higley for the cemetery committee reported that he had investigated the matter of dogs being dug up from the Oak Hill cemetery and found that they had not done a great deal of damage but that dogs had been digging there after ground squirrels, but that the committee would look after the dogs in the future and see that they were not allowed to do any damage.

On motion of Councilman McMaken the chief of police was requested to notify the Nebraska Lighting Co. to turn off the light in the tourist park for the winter season.

Councilman Lorenz of the streets, alleys and bridges committee reported that he had gone over the new paving and graveling and found the work and the amount of material used had been in accordance with the report of the city engineer and accordingly moved that the \$4,000 of the amount due, some \$4,000 be allowed the contractor.

Resolutions accepting the work in the paving and graveling districts were then read and passed and the city engineers authorized to go ahead and prepare the plans of the district. It was voted to sit as a board of equalization on Monday, December 14th, at 8:30, for the purpose of voting the amount of cost on each of the properties in the district affected. Councilman Schultz reported that the city jail was now cleaned up but he thought that some facilities for a shower bath be made for the use of prisoners, some of whom might need a bath and the heater for the water could be attached to the furnace in the basement of the city hall. On motion the bid of J. F. Wurga was accepted for \$1,775. The bid will probably also be used by the police department and the firemen also when they feel the need of a dip in the cleansing waters.

The following bills were approved by the finance committee of the council and their payment authorized: Nebraska Gas & Elec. Co., street lights \$249.50; Neb. Gas & Elec. Co., electric trolleys 110.40; Neb. Gas & Elec. Co., city

hall lights	1.58
Plattsmouth Water Co., water for paving	99.30

J. F. Wurga, labor and mat'l.	7.05
J. F. Wurga, keys for electric trolleys	6.30
Platts. Motor Co., repairs to tractor	27.70

Oust Paternalism is the Cry of Congress

States Leaning Too Heavily on Federal Government Is Claim of Senator Curtis.

Washington, Nov. 9.—A widespread movement is on foot among members of congress, particularly those in the senate, to enforce a new policy by which it is hoped paternalism will be eliminated from the federal government.

Senator Curtis of Kansas, republican floor leader who heads the movement, has been making a series of speeches, in which he asserts that the states, as a result of war measures, have been leaning too heavily on the federal government and the time has arrived for a return of the pre-war relation between the federal government and the states.

Some Requests Impossible. Whenever the states have gotten into a jam financially or otherwise, since the war, administration leaders assert they have turned to Washington for relief. Some of their requests are pointed out as border on demands and are absolutely impossible of fulfillment.

Failure of congress to provide relief expected, Senator Curtis has told friends, is the basis of much dissatisfaction.

Under the new policy little legislation in which the states and the federal government are called upon to share expenses and divide responsibility can be expected. A possible exception is the construction of public highways.

More Power Given States. A step toward granting wider power to the states was taken by the last congress when an amendment to the reclamation act was adopted. Under that provision the states are to provide part of the funds needed to develop reclamation projects and eventually all money advanced by congress is to be repaid by the states.

So much dissatisfaction has resulted that some states in which reclamation projects were planned have refused to carry out their part of the program and the developments are at a standstill.

Some States Indifferent. Because of the change in this law Secretary of the Interior Work has been subjected to much adverse criticism for failure to complete reclamation projects. Work says he can do nothing until the states carry out their part of the contract.

Administration leaders also point to the failure of some states and in difference of others to the provision of the Volstead act which grants them concurrent jurisdiction in the enforcement of the 18th amendment as convincing proof that no real exist between the states and the federal authorities.

DARROW HOLDS TRUMP IN DETROIT CASE TRIAL

Detroit, Mich., Nov. 6.—An element of mystery entered the second day's trial of Ossian H. Sweet, Negro doctor, his wife and nine other Negroes today when two sheaves of manuscript were displayed by the defense during the cross-examination of a state witness by Clarence S. Darrow, chief of the defense counsel.

The eleven defendants are accused of homicide in connection with the fatal shooting of Loen C. Breiner near Sweet's home September 9.

The sheaves appeared during the cross-examination of Police Lieutenant Paul Shellenberger, who testified the Sweet house had been unprovoked. Darrow refused to divulge what the sheets contained.

FARM PROBLEMS SOLVED

Washington, Nov. 6.—The president's agricultural conference has been definitely dissolved. In making this announcement today the department of agriculture said President Coolidge had acted on the recommendation of Robert D. Carey of Wyoming, chairman of the conference, that no further sessions be called. Conferences were not longer needed, he told the president, because most of its recommendations had been put into effect and "a satisfactory solution of farm problems" appeared in prospect.

The recommendation of the conference, dealing with co-operation marketing which has not been acted upon by congress, has been taken up by Secretary Jardine with leaders in the supporting legislation.

NEARLY HALF OF ALIENS ENTER U. S. AS VISITORS

Washington D. C., Nov. 8.—A total of 49,802 aliens entered the United States in September, the immigration service reported today, but only 26,721 were as immigrants, the balance being temporary visitors. During the same month, 19,361 left the United States, 12,485 being visitors and the balance leaving to make homes abroad again.

Canada furnished the largest number of immigrants received, followed in order by Germany, the Irish Free State, Mexico and Scotland.

The Anti-Saloon League, in Chicago Monday night, resolved to assist that the people of the country have the right to expect that the Secretary of the Treasury, should manifest equal concern to secure efficient enforcement of the prohibition law, as to secure a collection of income and other taxes.
