## Martin & Jones

### SUPER-TRIRDYN SPECIAL

This improved model is assembled in a new solid mahogany cabinet, exquisitely finished in two tones—a rich piece of furniture to delight the most fastidious eye, and in harmony with the finest furnished apartment.

Price, without Accessories **\$60.00**

### MUSICONE DE LUXE

Get the thrill of hearing all musical instruments and all ranges of the human voice free from distortion and overtones—mellow and clear.

Remember, there is only one Musicone. It is made by Crosley and its secret is the Crosley patented actuating unit, not THE CONE.

Now **\$14.75**

## CROSSLEY!

Better Results from Three Tubes Than from Five

Sounds improbable, doesn't it? But it is a scientific truth, first demonstrated in the Crosley laboratories and then confirmed by the performance of thousands of Trirdyns the country over.

These astonishing results are simple to explain. Instead of passing the incoming signal once through each of 5 tubes, Crosley design passes it through two of the three tubes several times, each time building up its strength and adding to its volume until it is the equal or better that produced by five tube sets. Even the technically uninitiated can see the advantages: Simplicity instead of complexity; fewer dials to adjust; sharper accuracy in selecting stations; greater clarity; greater volume.

Yet, this is not all. Simplicity of design and fewer parts make manufacturing costs lower and bring about a lower cost to you. This, combined with the economies of gigantic production, makes possible a price of \$60 on the Super-Trirdyn Special, the most efficient and beautiful of all Crosley receiving sets. For Crosley is the world's largest builder of radio sets—owning and operating parts factories, cabinet woodworking establishments and assembly plants.

Listen to a Crosley Super-Trirdyn under the most exacting conditions. Make an unbiased comparison with the most costly receiver you have ever heard. Forget the radical difference in price.

Then you will understand why the Crosley Super-Trirdyn represents a genuine achievement in radio performance and value which all America was quick to recognize with increasing sales.

Come in and let us give you a Demonstration without obligation!

### CROSLY SUPER-TRIRDYN

During the past three years Crosley engineers have developed a new circuit, first called the Trirdyn, and with further refinements the Super-Trirdyn. This circuit combines and utilizes for the first time successfully, tuned radio-frequency amplification, regeneration and reflexed audio amplification, making three tubes do the work of five. This is a marked saving both in first cost and upkeep cost. Batteries last longer. There are less tubes to replace. Stations from coast to coast easily heard on the Musicone or any other type of loud speaker.

Price, without Accessories **\$45.00**

### THE CROSLY PUP

Price, without Accessories **\$9.75**
