A. W. Bricker and Wife Married 50 Years

Well Known Couple Residing Near Ashland Observe This Pleasant Event at Home.

The golden wedding anniversary of Mr. and Mrs. A. W. Bricker, residents of the vicinity of Ashland and Cass county for many years, was celebrated on Saturday at their home in Ashland.

One of the features of the pleasant observance was the large anniversary dinner served at noon and which was enjoyed by one hundred of the relatives of the bride and groom of a half century ago.

In the afternoon from 2 until 4 o'clock a reception was held at the home and when the friends of many years standing called to enjoy the opportunity of offering their congratulations, there being some three hundred call at the home and greet their friends.

Mr. and Mrs. Bricker were married on January 23, 1876, at the home of the bride's parents, Mr. and Mrs. J. J. Roberts, four miles south of Ashland. One of the interesting touches of the golden wedding anniversary was the fact that Mrs. Bricker wore her wedding gown of brown silk brocade whose beauty was unimpaired by time and made a most fitting part of the half century anniversary.

Keeping in touch with the joyful spirit that had marked their wedding day the bride and groom appeared in a number of the old time dances that brought back again the time when they were youth and maiden and life was fair and promising to them. The years have been kindly to this estimable couple and they

Missouri River Bridge Luncheon Here Febr. 9th

B. A. George and Lincoln Boosters and Residents of Iowa Cities to Be Here on That Date.

From Wednesday's Daily—

In the campaign that is stirring this portion of the state for the placing of an adequate bridge program in this state and Iowa that will insure bridges at several points along the river and among them the bridge here, there will be a luncheon held on Tuesday evening, February 9th at the parlors of the M. E. church and which will be under the auspices of the Happy Hundred committee.

At this meeting there will be present B. A. George, one of the leading good roads boosters of the state, E. E. Duncan, Lincoln city commissioner, Charles Roper of the Lincoln Chamber of Commerce roads committee and County Engineer Edgren of Lancaster county, as well as a group of the leading residents of Oak, Glenwood and Pacific Junction, Ia., who are also vitally interested in the placing of the bridge here.

From all sides come hearty support for the bridge here at Plattsmouth over the Missouri river as one of the projects proposed for giving the residents of Iowa and Nebraska adequate service in getting to and from the great states of the middle west. The plan as adopted at the Eagle meeting of co-operating with other places that are in need of bridges gives a large and liberal plan of service to all of the territory along the river boundary.

The bridge here serving the great populations through the south central parts of Iowa and Nebraska is recognized as a real necessity and receiving the most enthusiastic support.

The great counties of the two states have the right to modern highways and the means connecting them up, and the bridge at Plattsmouth means that Mills and Cass county will be the tie that binds together the great central routes across the country.

The bridge here will be a great advertisement of the counties of Missouri, Iowa, and their vast farming interests will also be given the opportunity of observation by the travelers from the east and west.

The committee in charge of the luncheon will soon be in touch with the local people and it is hoped to say to the residents of the different sections of the country a very clear campaign for 1926 may be secured.

Mr. Smith has been located at Topeka for the past few years and has succeeded in building up a very pleasing business for his company in the Sunflower state and his services have recently been very substantially recognized by the company to which he has given such excellent service.

Mr. Smith will leave on his eastern trip about February 11th.

Mr. Wetenkamp is a very capable and well liked young man and with his ability and experience should make a very valuable man for the Dodge agency for this point and a real live wire assistant to Frank Vallery, the local agent.

CAFE REMODEL

From Wednesday's Daily—

The Walton cafe on the north side of Main street between 4th and 5th streets has been given a thorough overhauling by the proprietor, Frank Walton and made not only much more attractive in appearance but a great deal more convenient for the proprietor and his assistants and the patrons of the restaurant.

The lunch counter that heretofore has occupied the center of the restaurant room has been moved to the east side of the room and gives a great deal more space for tables and adds to the general cheerful aspect of the room and will allow Mr. Walton ample space to handle his trade.

Doan's Regulents are recommended by many who say they operate easily without griping and without bad after effects. 30c at all drug stores.

So We Propose to BRIDGET!

He who makes two toll bridges flourish—
Where but one thrived before, is a sockdolager;
But he who can cause a FREE bridge
To span the Missouri, is a benefactor.

A bridge across the Missouri is the one big tonic Plattsmouth needs. The only way to have more business here . . . is to bring in more that can slip out . . . and there is plenty slipping, brother.

A ferry is a fine institution, but slightly off key with expeditious modern methods of travel. They are still used extensively in some back woods burgs, as New York or San Francisco . . . but do you wager our good Iowa neighbors will visit us in Winter if they must do a "Washington Crossing the Delaware" or Eliza throwing the CHARLESTON—crossing the ice.

And then . . . too . . . the young men of Iowa may come west and grow with a good town . . . out where men are men and prices are better for farm products, chickens, rye, corn, cattle, horses and mules of another shade.

We don't care where this bridge is built; just so it's at Plattsmouth, and in the next scene we'll tell you of the fine opportunity you'll have to come over and see a splendid Spring showing of Kuppenheimer Suits, Stetson Hats, Vassar Underwear and Interwoven Socks . . . to keep you from getting cold feet on the project.
