Occupants of Autos Have a Close Call

Vicinity of Elmwood Is Scene of Another Accident That Damages Cars in the Last Week.

From Friday's Daily— Last Friday evening an auto accident occurred on the road south of town, just south of the Henry Brockman residence. The two cars which were Ford cars, were turned over and were badly damaged.

was occupied by Herber Reeves and two ladies. The lights from the cars so it is said by those in the accident blinded the drivers so that they could not see and the cars in passing caught the front wheels with the result that both were turned over and the occupants were spilled over and the front wheels, fenders and tops of both cars both cars escaped without injury which was miraculous. Two of the boys in one of the cars were wearing glasses and it said that they were not even jared off. All the parties in the accident say that it was quite a spill and they feel lucky indeed that no one was injured. The cars were repaired on Saturday and both are again in running order. Both of these young men have driven cars for a long time and this is the first accident that either has had, but it seems no matter how careful a driver is, sooner or later he may be in an accident.—Elmwood Leader-Echo.

MOVES GARAGE EQUIPMENT

From Thursday's Daily— The equipment of the Krefel garage has been moved by the owner, Frank Krefel, from the room in the Main hotel that was formerly used for this purpose to the O. K. garage on Washington avenue where there can be a great deal more space for working purposes and care of the cars. The new location is on the main line of travel north and south and with the service that can be found at the hands of Mr. Krefel the garage should be a popular place for the motorists.

Officers Called to Vicinity Near Union Today

Reports of Wild 'Party' Failed to Materialize After Wild Trip to the East of Union.

From Thursday's Daily— Early this morning while the clock was about to toll the hour of 1 o'clock Sheriff E. P. Stewart and Deputy Sheriff Schaus were aroused from their peaceful slumbers by two of the residents of the vicinity of Union who had driven up to report that a "wild party" was being staged in the hills east of Union by a number of men and a lady and also that at the scene of the festivity there was flowing spirits distilled from the juice of the corn or kindred joy producing liquors.

The officers hurriedly gathered their raiment and auto and arousing County Judge Duxbury who was also at his home safe in slumber, secured the necessary search warrants and other documents that would allow them to legally investigate the matter. The drive was made in record time to the vicinity of Union and thence over the rough and bumpy roads that led into the hills and valleys along the Missouri river bluffs east of Union. As the officers neared the farm residence where the revelry was supposed to be in full blast they listened but failed to hear the songs that were reputed to go with the combination of wine, women and song and in fact when the officials arrived at the scene of action they found the farm house wrapped in the deep gloom of the early morning hour and not a light on the place.

The officers came to the house and arousing the occupants stated their mission and started in on a frisk of the place. The parties who made their home there had been in bed when the officers aroused them and even the well known breath test that has been in vogue since the discovery of cloves, failed to reveal the signs of liquor although the place was combed thoroughly in an effort to locate of possible any of the forbidden juice of the fruit of corn. There was no evidence of women on the place and certainly the residence failed to bear any of the marks of the touch of a feminine hand.

The parties when questioned stated that they had been peacefully at home all the evening and had retired as their custom at an early hour. They stated that they had early in the evening observed parties moving around their place and on investigation discovered the two men that had made the complaint against them lying along the road in the vicinity of the farm house. They denied knowing anything about the lady that formed a part of the triangle and also that they had been indulging in liquor.

The case seems to be caused by the fact of a loaded papa and papa having a stepping mania in which the residents of the farm have been viewed with suspicion by the husband but the investigation seems to give little basis for the suspicion. The sheriff and deputy arrived back home a little after 3 o'clock tired and disappointed that their long and tiring jaunt to the hills had been without success save in getting them generous doses of the early morning air.

Senator Banning will Run for Legislature Again

Brilliant and Capable Senator of the Second District Will Yield to Wish of Friends.

In the past few weeks the friends of Senator "Bill" Banning, the very capable state senator from the second district, have been urging him to get into the race again for the office that he has so ably filled and at last the senator has yielded and announced that he will submit his name to the voters at the primary.

Senator Banning has made a very notable record in the state legislature and has given the second district a representative that they can feel very proud of in every way, the long service of Mr. Banning has given him a great grasp of the condition of the state and the policies that have been used in the handling of state affairs in recent years.

While Senator Banning is a democrat by affiliation his services in the state legislature have been non-partisan and his courage in exposing measures that he deemed worthy have risen above the mere questions of party politics and made him a real leader in the highest body of the legislature. With "Bill" in the senate Cass, Orce and Serry county rest assured they will have one of the most capable men in the state in their service.

A TALK WITH A PLATTSMOUTH MAN

Mr. Hassler Tells Something of Interest to Plattsmouth Folks.

There's nothing more convincing than the statement of someone you know and have confidence in. That's why this talk with Mr. Hassler, who resides at the corner of 5th and Oak streets, should be mighty helpful here in Plattsmouth.

Wm. Hassler, proprietor of blacksmith shop on Fifth street opposite the postoffice, says: "Straining work, strained muscles and sharp stitches took me across my kidneys. My back was stiff and lame at times. I used Doan's Pills from Weyrich & Hadzaba's Drug Store, and they strengthened my back." (Statement given May 13, 1924).

On November 10, 1924, Mr. Hassler said: "I find that in my advanced years, an occasional use of Doan's Pills keeps me feeling my best at all times." Mr. Hassler is only one of many Plattsmouth people who have gratefully endorsed Doan's Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S PILLS, the same that Mr. Hassler had—the remedy backed by home testimony, 75 cents at all dealers. Coates Block Sold Yesterday to Omaha Man

Melvin Dekin Purchases Building Owned by W. P. O'Brien at 6th and Main Streets.

From Saturday's Daily— Yesterday the deal was consummated through C. L. Pease, Omaha real estate dealer and J. P. Patter of this city, whereby the Coates block at the corner of 6th and Main, one of the best known landmarks in this city was sold, the consideration being \$45,000.

The property sold consists of the main building and does not include that section occupied by Lewis cafe, which is still retained by W. P. O'Brien. The building has been purchased by Melvin Dekin of Omaha, one of the owners of the Dekin Van and Storage Co., of Omaha and well known capitalist of that city. The new owner has been here several times to look over the property and expects to put the structure in the very best of shape something that it has needed for a long time and will make the property a real credit to the city and this community.

Mr. Dekin expects to have engineers here in the next few weeks to complete their survey of the portion of lots 7 and 8 at the north of the present building and which it is expected will be followed by the erection of a building on that site, facing the Sixth street front of the building and which will be a very pleasing addition to that section of the city.

Just what the definite plans of the new owner will be have not been announced but he is planning to make the building that he has just purchased one of the best in the city as far as lays in his power. The new addition that is planned will be occupied at once as the new owner has an applicant ready to take over the new portion of the Building as soon as it is completed. The purchase of the building will be very pleasing to the citizens here as Mr. Dekin is one of the well known capitalists of Omaha and will take a real interest in the community in which he is now so much interested.
